## Kyle Railroad Company

### Request for Proposals

The Kyle Railroad Company is requesting proposals for a rail improvement project on the Concordia Subdivision. The work consists of the following major items:

- Installation of 47,200 linear feet of rail
- Five turnouts
- Rehabilitation of 10 grade crossings
- Five miles of surfacing and ditching

This project is the recipient of a KDOT State Rail Service Improvement Fund program grant and the contract for work will be directly with Kyle Railroad, which reserves the right to reject any or all bids. Questions regarding the project and interested bidders must request bid documents from [purchasing-rfp@gwrr.com](mailto:purchasing-rfp@gwrr.com).

William Grove  
Purchasing Director

## State of Kansas

### Department of Agriculture Division of Conservation

#### Notice of Meetings

The Kansas Department of Agriculture's Division of Conservation will conduct public meetings in Leoti, Kansas and Tribune, Kansas on September 21, 2021, to review the agency's Water Right Transition Assistance Program (WTAP). The meetings will be held as follows:

- 10:00 a.m. (CST) at the Wichita County Fairgrounds 4-H building, Leoti, Kansas
- 1:00 p.m. (MST) at the Greeley County Fairgrounds 4-H building, Tribune Kansas

The purpose of the meetings is to inform the public of the possible economic and hydrologic impacts of the program and to discuss the upcoming WTAP fall 2021 enrollment period which will be available from October 1 to November 15, 2021.

WTAP is a voluntary, incentive-based program designed to manage aquifers and streams in critical need of restoration by compensating landowners for the permanent retirement of irrigation water rights. Priority in the fall 2021 enrollment will be given to retiring water rights that have the greatest impact on the local aquifer system in 2-3-mile radius areas around the municipal water supplies of Leoti and Tribune.

WTAP is part of the regional Groundwater Recharge and Sustainability Project (GRASP) in Wichita and Greeley counties which will also be discussed at these meetings in advance of the WTAP presentations. GRASP is a coordinated effort between the Natural Resources Conservation Service and several state and local partners to provide enhanced financial incentives for implementing water conservation and playa restoration practices.

The meetings can also be accessed virtually with the login information can be found at <http://www.agriculture.ks.gov/WTAP>. Contact [Steve.Frost@ks.gov](mailto:Steve.Frost@ks.gov) at 785-564-6622 for additional information.

### Wildlife and Parks Commission

#### Notice of Meeting

A public meeting will be conducted by the Wildlife and Parks Commission at 6:30 p.m. Thursday, September 23, 2021, virtually, to consider future regulatory action of the Kansas Department of Wildlife and Parks.

A general discussion and workshop meeting on business of the Wildlife and Parks Commission will begin at 1:00 p.m. September 23, 2021, at the location listed above. The meeting will recess at approximately 5:00 p.m. then resume at 6:30 p.m. at the same location for future regulatory action and other business. There will be public comment periods at the beginning of the afternoon and evening meeting for any issues not on the agenda and additional comment periods will be available during the meeting on agenda items. Old and new business may also be discussed at this time. If necessary to complete business matters, the Commission will reconvene at 9:00 a.m. September 24, 2021, at the location listed above.

Any individual with a disability may request accommodation in order to participate in the public meeting and may request the meeting materials in an accessible format. Requests for accommodation to participate in the meeting should be made at least five working days in advance of the meeting by contacting Sheila Kemmis, Commission Secretary, at 620-672-5911. Persons with a hearing impairment may call the Kansas Commission for the Deaf and Hard of Hearing at 1-800-432-0698 to request special accommodations.

This notice prior to the meeting constitutes a public comment period for the purpose of receiving written public comments on future regulatory business of the Commission.

All interested parties may submit written comments prior to the meeting to the Chairman of the Commission,

Kansas Department of Wildlife and Parks, 1020 S. Kansas Ave, Suite 200, Topeka, KS 66612 or to [sheila.kemmis@ks.gov](mailto:sheila.kemmis@ks.gov) if electronically. All interested parties will be given a reasonable opportunity at the meeting to express their views orally in regard to future regulatory business of the Commission. During the general discussion and workshop portions of the meeting, all written and oral comments submitted by interested parties will be considered by the commission as a basis for approving, amending and approving, or rejecting any future proposed regulation.

Copies of the complete texts of any regulations and their respective economic impact statements may be obtained by writing the chairman of the Commission at the address above, electronically on the department’s website at <http://www.ksoutdoors.com>, or by calling 785-296-2281.

**Notice of Intent to Establish a New Line-Make for an Existing New Motor Vehicle Dealer**

Notice has been received from Conklin Cars Newton, LLC dba Conklin Cars Newton of their intent of selling Chrysler, Dodge, Jeep, and Ram line-make franchised vehicles from the location of 1500 E. Third, Newton KS 67114.

Pursuant to K.S.A. 8-2430(a)(5), any existing new motor vehicle dealer may protest the proposed addition of the new franchise of Chrysler, Dodge, Jeep, and Ram line-make franchised vehicles if that existing new motor vehicle dealer has a franchise agreement for the same line-make vehicle as that which is to be sold or offer for sale by Conklin Cars Newton, LLC dba Conklin Cars Newton at 1500 E. Third, Newton KS 67114, and provided that the existing new motor vehicle dealer is physically located such that its relevant market area, as defined in K.S.A. 8-2430(e) includes the location where the new Chrysler, Dodge, Jeep, and Ram line-make franchised dealership will be located.

Pursuant to K.S.A. 8-2430(a), any petition or complaint by any dealer with standing to protest must be filed with the Director of Vehicles within thirty (30) days of this notice. Such petitions or complaints must be directed to the following address:

Kansas Department of Revenue  
Director of Vehicles  
Zibell Building

**Department of Transportation**

**Notice of Constructability Review Request**

The Kansas Department of Transportation (KDOT) is currently preparing plans for the reconstruction of I-70 from MacVicar Avenue to 6th Street in Topeka, Kansas. The project is currently scheduled to be let in Fiscal Year 2025. An overview of the project can be found at <http://www.polkquincy.org>. A set of plans and the questions to be asked the contractors have also been placed on KDOT’s website at <https://kdotapp.ksdot.org/ProjectLetting/> under Project No. 70-89 KA 1266-04.

KDOT is asking contractors to assist with evaluating construction staging and risks to constructing the proposed

*(continued)*

project with minimal impacts to the traveling community. KDOT requests one-on-one meetings with potential construction contractors to review the proposed concepts and provide feedback. We are planning to use Microsoft Teams software for virtual meetings. The meetings are voluntary and expected to last approximately 90 minutes. All contractors will be asked the same posted questions.

September 9-10, 2021 has been selected as the department's desired window for constructability reviews. However, the project team is flexible if something would work better with your schedule. Please contact Greg Gonzales, Project Manager, at 785-368-8293 or [greg.gonzales@ks.gov](mailto:greg.gonzales@ks.gov) to schedule a virtual meeting.

KDOT cannot compensate contractors for these one-on-one meetings. Contractors will not be disqualified from submitting bids for construction if they participate or refrain from participating in a one-on-one meeting.

Julie Lorenz  
Secretary

### Department of Health and Environment

#### Notice Concerning Proposed Kansas Air Quality Class I Operating Permit

Notice is hereby given that the Kansas Department of Health and Environment (KDHE) is soliciting comments regarding a proposed air quality operating permit. Kissick Construction Company has applied for a Class I operating permit in accordance with the provisions of K.A.R. 28-19-510 et al. The purpose of a Class I permit is to identify the sources and types of regulated air pollutants emitted from the facility; the emission limitations, standards, and requirements applicable to each source; and the monitoring, record keeping, and reporting requirements applicable to each source as of the effective date of permit issuance.

Kissick Construction Company, 8131 Indiana Ave., Kansas City, MO 64132, owns and operates an air curtain incinerator located at Everygy Power Plant, LaCygne, Linn County, Kansas.

A copy of the proposed permit, permit application, all supporting documentation, and all information relied upon during the permit application review process are available for public review, during normal business hours, at the KDHE, Bureau of Air (BOA), 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366 and at the Southeast District Office, 308 W. 14th St., Chanute, KS 66720. To obtain or review the proposed permit and supporting documentation, contact Cathy Richardson, 785-296-1947, at the central office of KDHE or Caitlin Mills, 620-860-7235, at the Southeast District Office. The standard departmental cost will be assessed for any copies requested. The proposed permit, accompanied with supporting information, is available, free of charge, at the KDHE BOA Public Notice website at <http://www.kdheks.gov/bar/publicnotice.html>.

Please direct written comments or questions regarding the proposed permit to Cathy Richardson, KDHE, BOA, 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366. In

order to be considered in formulating a final permit decision, written comments must be received no later than 12:00 p.m. Monday, October 4, 2021.

A person may request a public hearing be held on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Cathy Richardson, KDHE, BOA, 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366, no later than 12:00 p.m. Monday, October 4, 2021, in order for the Secretary of Health and Environment to consider the request.

The U.S. Environmental Protection Agency (EPA) has a 45-day review period, which will start concurrently with the public comment period, within which to object to the proposed permit. If the EPA has not objected in writing to the issuance of the permit within the 45-day review period, any person may petition the administrator of the EPA to review the permit. The 60-day public petition period will directly follow the EPA's 45-day review period. Interested parties may contact KDHE to determine if the EPA's 45-day review period has been waived.

Any such petition shall be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided for in this notice, unless the petitioner demonstrates that it was impracticable to raise such objections within such period, or unless the grounds for such objection arose after such period. Contact Keith Johnson, U.S. EPA, Region 7, Air Permitting and Compliance Branch, 11201 Renner Blvd., Lenexa, KS 66219, 913-551-7960, to determine when the 45-day EPA review period ends and the 60-day petition period commences.

#### Notice Concerning Proposed Kansas Air Quality Class I Operating Permit Renewal

Notice is hereby given that the Kansas Department of Health and Environment (KDHE) is soliciting comments regarding a proposed air quality operating permit. ONEOK Field Services Company, LLC – Okmar Compressor Station has applied for a Class I operating permit renewal in accordance with the provisions of K.A.R. 28-19-510 et al. The purpose of a Class I permit is to identify the sources and types of regulated air pollutants emitted from the facility; the emission limitations, standards, and requirements applicable to each source; and the monitoring, record keeping, and reporting requirements applicable to each source as of the effective date of permit issuance.

ONEOK Field Services Company, LLC – Okmar Compressor Station, PO Box 871, Tulsa, OK 74102-0871, owns and operates a compressor station located at Section 35, Township 32S. Range 12W, Barber County, Kansas.

A copy of the proposed permit, permit application, all supporting documentation, and all information relied upon during the permit application review process are available for public review during normal business hours of 8:00 a.m. to 5:00 p.m. at the KDHE, Bureau of

Air (BOA), 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366 and at the Southwest District Office, 313 Oklahoma Terr., Ulysses, KS 67880. To obtain or review the proposed permit and supporting documentation, contact Cathy Richardson, 785-296-1947, at the central office of the KDHE or Ethel Evans, 620-356-1075, at the Southwest District Office. The standard departmental cost will be assessed for any copies requested. The proposed permit, accompanied with supporting information, is available, free of charge, at the KDHE BOA Public Notice website at <http://www.kdheks.gov/bar/publicnotice.html>.

Please direct written comments or questions regarding the proposed permit to Cathy Richardson, KDHE, BOA, 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366. In order to be considered in formulating a final permit decision, written comments must be received no later than 12:00 p.m. Monday, October 4, 2021.

A person may request a public hearing be held on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Cathy Richardson, KDHE BOA, 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366, no later than 12:00 p.m. Monday, October 4, 2021, in order for the Secretary of Health and Environment to consider the request.

The U.S. Environmental Protection Agency (EPA) has a 45-day review period, which will start concurrently with the public comment period, within which to object to the proposed permit. If the EPA has not objected in writing to the issuance of the permit within the 45-day review period, any person may petition the administrator of the EPA to review the permit. The purpose of a Class I permit is to identify the sources and types of regulated air pollutants emitted from the facility; the emission limitations, standards, and requirements applicable to each source; and the monitoring, record keeping, and reporting requirements applicable to each source as of the effective date of permit issuance.

Crestwood, Inc., 601 E. Water Well, Salina, KS 67401, owns and operates a wood manufacturing facility located at 601 E. Water Well, Salina, KS 67401.

A copy of the proposed permit, permit application, all supporting documentation, and all information relied upon during the permit application review process are available for public review during normal business hours of 8:00 a.m. to 5:00 p.m. at the KDHE, Bureau of Air (BOA), 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366 and at the North Central District Office, 2501 Market Pl., Suite D, Salina, KS 67401. To obtain or review the proposed permit and supporting documentation, contact Colin Crewe, 785-296-1691, at the central office of the KDHE or Jennifer Nichols, 785-827-9639, at the North Central District Office. The standard departmental cost will be assessed for any copies requested. The proposed permit, accompanied with supporting information, is available, free of charge, at the KDHE BOA Public Notice website at <http://www.kdheks.gov/bar/publicnotice.html>.

Please direct written comments or questions regarding the proposed permit to Colin Crewe, KDHE, BOA, 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366. In order to be considered in formulating a final permit decision, written comments must be received no later than 12:00 p.m. Monday, October 4, 2021.

A person may request a public hearing be held on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Colin Crewe, KDHE BOA, 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366, no later than 12:00 p.m. Monday, October 4, 2021, in order for the Secretary of Health and Environment to consider the request.

The U.S. Environmental Protection Agency (EPA) has a 45-day review period, which will start concurrently with the public comment period, within which to object to the proposed permit. If the EPA has not objected in writing to the issuance of the permit within the 45-day review period, any person may petition the administrator of the EPA to review the permit. The 60-day public petition period will directly follow the EPA's 45-day review period. Interested parties may contact KDHE to determine if the EPA's 45-day review period has been waived.

Any such petition shall be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided for in this notice, unless the petitioner demonstrates that it was impracticable to raise such objections within such period, or unless the grounds for such objection arose after such period. Contact Keith Johnson, U.S. EPA, Region 7, Air Permitting and Compliance Branch, 11201 Renner Blvd., Lenexa, KS 66219, 913-551-7960, to determine when the 45-day EPA review period ends and the 60-day petition period commences.

Doc. No. 049400

State of Kansas

Department of Health and Environment

Notice Concerning Kansas/Federal Water Pollution Control Permits and Applications

In accordance with Kansas Administrative Regulations 28-16-57a through 63, 28-18-1 through 17, 28-18a-1 through 31 and 33, 28-16-150 through 154, 28-46-7, and the authority vested with the state by the administrator of the U.S. Environmental Protection Agency, various draft water pollution control documents (permits, notices to revoke and reissue, notices to terminate) have been prepared and/or permit applications have been received for discharges to waters of the United States and the state of Kansas for the class of discharges described below.

The proposed actions concerning the draft documents are based on staff review, applying the appropriate standards, regulations, and effluent limitations of the state of Kansas and the Environmental Protection Agency. The final action will result in a Federal National Pollutant Discharge Elimination System Authorization and/or a Kansas Water Pollution Control permit being issued, subject to certain conditions, revocation, and reissuance of the designated permit or termination of the designated permit.

Public Notice No. KS-AG-21-277/280

Pending Permits for Confined Feeding Facilities

Name and Address of Applicant	Legal Description	Receiving Water
KSU Animal Science and Industry Kansas Artificial Breeding Service Unit (KABSU) 232 Weber Hall Manhattan, KS 66506	NW/4 of Section 31 T09S, R08E Riley County	Big Blue River Basin
Kansas Permit No. A-BBRL-B004		

The proposed action is to reissue an existing state permit for an existing facility for 44 head (44 animal units) of cattle weighing more than 700 pounds. There will be no change in the operation or permitted number of animal units from the previous permit. This facility has an approved Waste Management Plan on file with KDHE.

Name and Address of Applicant	Legal Description	Receiving Water
Mather Cattle Co. Jim Mather 2420 US-83 Hwy. Oakley, KS 67748	NW/4 of Section 2 T12S, R32W Logan County	Smoky Hill River Basin

Kansas Permit No. A-SHLG-B001

The proposed action is to reissue an existing state permit for an existing facility for 600 head (600 animal units) of beef cattle weighing more than 700 pounds. There will be no change in the operation or permitted number of animal units from the previous permit. This facility has an approved Waste Management Plan on file with KDHE.

Name and Address of Applicant	Legal Description	Receiving Water
Brookover Feed Yard 3013 N. US-83 Hwy. Garden City, KS 67846	All of Section 1 T24S, R33W SE/4 of Section 32 SW/4 of Section 33 SW/4 of Section 34 T23S, R33W Finney County	Upper Arkansas River Basin

Kansas Permit No. A-UAFI-C013  
Federal Permit No. KS0115011

The proposed action is to approve an update to the Nutrient Management Plan (NMP) received for this existing facility currently permitted for 40,000 head (40,000 animal units) of cattle more than 700 pounds. The facility's NMP was updated to include the addition of land application field CP1-5 and updated application rate limitations. The updated rate limitations for three fields allow application at a less restrictive rate than the previous year. There are no changes to the permit or in the permitted number of animal units. Only the updated portion of the Nutrient Management Plan is subject to comment. This facility has an approved Nutrient Management Plan on file with KDHE.

Name and Address of Applicant	Legal Description	Receiving Water
Nelson Poultry Farms – Prairie View 1845 17th Rd. Clay Center, KS 67432	NW/4 of Section 13 T08S, R03E Clay County	Lower Republican River Basin

Kansas Permit No. A-LRCY-P001  
Federal Permit No. KS0080489

The proposed action is to approve an update to the Nutrient Management Plan (NMP) received for this existing facility currently permitted for 79,000 head (963.8 animal units) of laying hens. The facility's NMP was updated to include the addition of a land application field CK-HM. There are no changes to the permit or in the permitted number of animal units. Only the updated portion of the Nutrient Management Plan is subject to comment. This facility has an approved Nutrient Management Plan on file with KDHE.

**Public Notice No. KS-Q-21-079/083**

The requirements of the draft permit public noticed below are pursuant to the Kansas Surface Water Quality Standards, K.A.R. 28-16-28(b-g), and Federal Surface Water Criteria.

Name and Address of Applicant	Receiving Stream	Type of Discharge
Bonner Springs, City of PO Box 38 Bonner Springs, KS 66012	Kansas River	Treated Domestic Wastewater

Kansas Permit No. M-KS06-0002  
Federal Permit No. KS0082881

Legal Description: SE¼, NW¼, SE¼, S28, T11S, R23E, Wyandotte County, Kansas

Facility Location: 12021 Kaw Dr., Bonner Springs, KS 66012

The proposed action is to reissue an existing State/NPDES permit for an existing facility. This facility is an extended aeration activated sludge plant consisting of two oxidation ditches, two final clarifiers, gravity sludge thickening and a belt filter dewatering press, and UV disin-

fection of effluent. The proposed permit includes a schedule of compliance for the facility to receive operational training for nutrient removal, and to implement operational changes as recommended by technical assistance providers to the final total phosphorus annual average load limits imposed through the special conditions. The proposed permit contains limits for biochemical oxygen demand, total suspended solids, ammonia, E. coli, whole effluent toxicity, priority pollutants, and pH, as well as monitoring for total Kjeldahl nitrogen, nitrate + nitrite, total nitrogen, total phosphorus, and flow.

Name and Address of Applicant	Receiving Stream	Type of Discharge
Dearing, City of PO Box 231 Dearing, KS 67340	Onion Creek	Treated Domestic Wastewater

Kansas Permit No. M-VE11-0001  
Federal Permit No. KS0048062

Legal Description: SE¼, SE¼, NW¼, S25, T34S, R15E, Montgomery County, Kansas

The proposed action is to reissue an existing State/NPDES permit for an existing facility. This facility is a two-cell wastewater stabilization lagoon system. This NPDES discharging lagoon wastewater treatment facility has been reviewed for eligibility for the MDV for ammonia and has been determined to be eligible. Eligibility was determined through analysis of the facility's highest attainable criteria (HAC) for ammonia and an Economic Eligibility Determination (EED) that assessed the impact of the cost of a new mechanical facility to the community's rate payers. The ammonia effluent limit was determined on 1/6/2021 by calculating the 99th percentile ammonia value from the facility's discharge monitoring reports resulting in an ammonia limit of 5.4 mg/L for this facility. The EED was completed on 1/28/2021. The proposed permit contains limits for biochemical oxygen demand, total suspended solids, pH, and ammonia, as well as monitoring for E. coli.

Name and Address of Applicant	Receiving Stream	Type of Discharge
Gardner, City of 120 E. Main Gardner, KS 66030	Kill Creek	Treated Domestic Wastewater

Kansas Permit No. M-KS20-0001  
Federal Permit No. KS0095605

Legal Description: NE¼, NW¼, S15, T14S, R22E, Johnson County, Kansas

Facility Name: Gardner (Kill Creek) Wastewater Treatment Facility

Facility Location: 32101 W. 159th St., Gardner, KS 66030

The proposed action is to reissue an existing State/NPDES permit for an existing facility. This facility is a mechanical treatment plant consisting of a lift station, two step screens, grit removal, activated sludge process, final clarification, UV disinfection, cascade re-aeration, aerobic sludge storage, and a belt press. The proposed permit includes a schedule of compliance for the facility to implement operational changes to help receive training for nutrient removal and to be able to reduce the effluent below final limits. The proposed permit contains limits for biochemical oxygen demand, total suspended solids, ammonia nitrogen, E. coli, and pH, as well as monitoring for dissolved oxygen, total phosphorus, total Kjeldahl nitrogen, nitrate + nitrite, total nitrogen, and mercury and flow.

Name and Address of Applicant	Receiving Stream	Type of Discharge
Monahan Abandoned Mine Land Acid Mine Drainage (AMD) Passive Treatment System 4033 Parkview Drive Frontenac, KS 66763	Bush Creek via Unnamed Tributary	Process Wastewater

(continued)

Kansas Permit No. I-NE12-PO04  
Federal Permit No. KS0101931

Legal Description: NE¼, S17, T31S, R24E, Crawford County, Kansas

Facility Name: Monahan Abandoned Mine Land AMD Passive Treatment System

Facility Location: 510th Ave. between 160th St. and 170th St., Cherokee, KS 66724

The proposed action is to issue a new State/NPDES permit for a new facility. This is an Acid Mine Drainage (AMD) passive treatment system that neutralizes AMD and removes metals by chemical and microbial environment. Surface flow and French drain AMD and dilution water is conveyed in collection ditches and oxidation ponds designed to remove iron by low-pH biologic aided oxidation. Stored AMD is fed into a Vertical Flow Pond (VFP). Alkalinity is added in the VFP and pH adjusted by limestone in the follow-up ponds; aluminum is retained in the VFP and is occasionally flushed out; additional iron and some manganese are removed by follow-up wetlands; the wetlands discharge to an unnamed east flowing stream. The proposed permit contains limits for pH and monitoring for flow, total suspended solids, iron, manganese, aluminum, sulfate, and phosphorus.

Name and Address of Applicant	Receiving Stream	Type of Discharge
Neodesha, City of PO Box 336 Neodesha, KS 66757	Verdigris River	Treated Domestic Wastewater

Kansas Permit No. M-VE29-OO01  
Federal Permit No. KS0025658

Legal Description: NW¼, SW¼, NW¼, S28, T30S, R16E, Wilson County, Kansas

The proposed action is to reissue an existing State/NPDES permit for an existing facility. This facility is a three-cell wastewater stabilization lagoon system. This NPDES discharging lagoon wastewater treatment facility has been reviewed for eligibility for the MDV for ammonia and has been determined to be eligible. Eligibility was determined through analysis of the facility’s highest attainable criteria (HAC) for ammonia and an Economic Eligibility Determination (EED) that assessed the impact of the cost of a new mechanical facility to the community’s rate payers. The ammonia effluent limit was determined on 6/30/2021 by calculating the 99th percentile ammonia value from the facility’s discharge monitoring reports resulting in an ammonia limit of 5.6 mg/L for this facility. The EED was completed on 7/22/2021. The proposed permit contains limits for biochemical oxygen demand, total suspended solids, pH, and ammonia, as well as monitoring for E. coli.

ing water treatment facility, consisting of drinking water treatment residuals from nanofiltration. Disposal will be by means of gravity flow; wellhead pressure will not be allowed. Injection is made into the Arbuckle group open hole from a depth of 6,016 feet to 6,476 feet. The maximum rate of injection will be 200,000 gallons per day. The Arbuckle group consists of Upper Cambrian and Lower Ordovician deposits. This formation is comprised of a group of dolomites in western Kansas. In south central Kearny County, the Arbuckle is approximately 550 feet in thickness and the top of the sequence is encountered at a depth of approximately 5,800 feet. All construction, monitoring, and operation of this well has met the requirements that apply to Class V Injection wells under the Kansas UIC Regulations, K.A.R. 28-46-1 through 28-46-42 and K.A.R. 28-30-1 through K.A.R. 28-30-10 and other requirements of KDHE.

Persons wishing to comment on or object to the draft documents and/or permit applications must submit their comments in writing to the Kansas Department of Health and Environment (KDHE) if they wish to have the comments or objections considered in the decision-making process. All written comments regarding the draft documents, application or registration notices received on or before October 2, 2021, will be considered in the formulation of the final determination regarding this public notice. Please refer to the appropriate Kansas document number (KS-AG-21-277/280, KS-Q-21-079/083, KS-EG-21-007) and name of the applicant/permittee when preparing comments.

All comments received will be responded to at the time the Secretary of Health and Environment issues a determination regarding final agency action on each draft document/application. If response to any draft document/application indicates significant public interest, a public hearing may be held in conformance with K.A.R. 28-16-61 (28-46-21 for UIC). A request for public hearing must be submitted in writing and shall state the nature of the issues proposed to be raised during the hearing.

Comments or objections for agricultural related draft documents, permit applications, registrations or actions should be submitted to the attention of Stuart Klaus, Livestock Waste Management Section at the KDHE, Bureau of Environmental Field Services (BEFS), 1000 SW Jackson, Suite 430, Topeka, KS 66612. Comments or objections for all other proposed permits or actions should be sent to Michael Beezhold at the KDHE, Bureau of Water, 1000 SW Jackson St., Suite 420, Topeka, KS 66612.

All draft documents/applications and the supporting information including any comments received are on file and may be inspected at the offices of the KDHE. For agricultural related draft documents or applications an appointment can be scheduled, or copies requested by contacting Rachel Hammond, BEFS, Livestock Waste Management Section at 1000 SW Jackson St., Suite 430, Topeka, KS 66612, telephone 785-296-0076 or email at [kdhe.feedlots@ks.gov](mailto:kdhe.feedlots@ks.gov). For all other proposed permits or actions an appointment can be scheduled, or copies requested by contacting Christopher Zwiener, Bureau of Water, 1000 SW Jackson St., Suite 420, Topeka, KS 66612, telephone 785-296-3056 or email at [Christopher.Zwiener@ks.gov](mailto:Christopher.Zwiener@ks.gov). These documents are available upon request at the copying cost assessed by KDHE. Application information and components of plans and specifications for all new and expanding swine facilities are

**Public Notice No. KS-EG-21-007**

(Published in the Kansas Register September 2, 2021.)

**City of Overland Park, Kansas**

**Summary Notice of Bond Sale  
\$29,250,000\*  
Internal Improvement and Refunding Bonds  
Series 2021A**

**(General Obligations Payable  
from Unlimited Ad Valorem Taxes)**

**Bids**

Subject to the complete Notice of Bond Sale (the "Notice of Sale"), bids for the Series 2021A Bonds, as hereinafter defined, will be received by the undersigned, Acting/Interim Chief Financial Officer for the City of Overland Park, Kansas (the "City"), at Overland Park City Hall, 8500 Santa Fe Dr., Overland Park, KS 66212 until 10:30 a.m. (CST) Monday, September 20, 2021, for the purchase of all of the City's \$29,250,000\* principal amount of Internal Improvement and Refunding Bonds, Series 2021A (the "Series 2021A Bonds"), as hereinafter described. Bids for the purchase of all of the Series 2021A Bonds may be submitted to the City by facsimile to 913-895-5009, and by electronic bids as provided herein. Electronic bids for the purchase of all of the Series 2021A Bonds will only be accepted through PARITY® electronic bid submission system. Each bidder shall be solely responsible for making the necessary arrangements to access PARITY® for the purpose of submitting its electronic bid in a timely manner and in compliance with the requirements of the Notice of Sale. If any provisions in this Summary Notice of Bond Sale conflict with information provided by PARITY®, this Summary Notice of Bond Sale will control. Further information about PARITY®, including any fee charged and registration requirements, may be obtained from iDeal, LLC, 1359 Broadway, 2nd Floor, New York, NY 10018, Customer Support, phone 212-849-5021. The City assumes no responsibility or liability for bids submitted through PARITY®. The City is using the services of PARITY® solely as a communication mechanism to conduct the electronic bidding for the Series 2021A Bonds. PARITY® is not an agent of the City.

All bids will be publicly opened on the date and at the time set forth above and acted upon by the City Council at a meeting to be held at 7:30 p.m., or soon thereafter as practicable, on said sale date. No oral, telephone or auction bids will be considered. Arrangements may be made with the Financial Advisor, PFM Financial Advisors, LLC, Attn: Heather Casperson, 50 S. Sixth St., Suite 2250, Minneapolis, MN 55402, phone 612-338-3535, to deliver a bid for the Series 2021A Bonds to the City.

No bid of less than 99.4% of the principal amount of the Series 2021A Bonds, plus accrued interest thereon, if any, to the date of delivery will be considered.

**Bond Details**

The Series 2021A Bonds will be in bookentry form only. The Series 2021A Bonds will be issued in the denomination of \$5,000 or any integral multiple thereof, will be dated October 21, 2021 (the "Dated Date"), will be issued in the principal amount of \$29,250,000,\* and will become due serially on September 1 in each of the years as follows:

<b>Maturity Schedule*</b>			
<b>Maturity Sept. 1</b>	<b>Principal Amount</b>	<b>Maturity Sept. 1</b>	<b>Principal Amount</b>
2022	\$2,675,000	2032	\$500,000
2023	2,680,000	2033	500,000
2024	2,675,000	2034	500,000
2025	2,320,000	2035	500,000
2026	2,320,000	2036	500,000
2027	2,320,000	2037	500,000
2028	2,320,000	2038	500,000
2029	2,320,000	2039	500,000
2030	2,310,000	2040	500,000
2031	2,310,000	2041	500,000

Bids for the Series 2021A Bonds may contain a maturity schedule providing for a combination of serial bonds and term bonds. All Series 2021A term bonds shall be subject to mandatory sinking fund redemption and must conform to the maturity schedule set forth above at a price of par plus accrued interest to the date of redemption.

The Series 2021A Bonds will bear interest from the Dated Date at the rates to be determined when the Series 2021A Bonds are sold as provided in the Notice of Sale, payable semiannually on September 1 and March 1 in each year, commencing March 1, 2022.

**Delivery and Payment**

The Series 2021A Bonds will be delivered to the successful bidder properly prepared, executed, and registered without cost within approximately thirty (30) days after the date of their sale in New York, New York.

**Good Faith Deposit**

Each bid shall either be accompanied by a cashier's check or certified check drawn on a bank located in the United States of America or a financial surety bond in a form that complies with the requirements set forth in the Notice of Sale in the amount of \$585,000 (2% of the principal amount of the Series 2021A Bonds) or shall specify the agreement of the bidder to submit such good faith deposit amount by electronic fund transfer through the federal reserve system to an account specified by the City by 1:00 p.m. on the sale date.

**Costs**

The City will pay the cost of printing the Series 2021A Bonds and the expense of all legal services, including the opinion of Kutak Rock LLP, Bond Counsel, approving the legality of the Series 2021A Bonds and the exclusion of the interest thereon (with specified minor exceptions) from federal and Kansas gross income taxes.

(continued)

**Assessed Valuation and Indebtedness**

For the computation of the debt limitation relating to the Series 2021A Bonds, the assessed valuation of the taxable tangible property within the City for the year 2020 is \$4,388,785,266. The total general obligation bonded indebtedness of the City as of the date of the Series 2021A Bonds is \$101,815,000, which includes the Series 2021A Bonds.

**Additional Information**

A complete Notice of Bond Sale for the Series 2021A Bonds, Official Statement and bid form approved by the City will be mailed to all interested parties. Bidders may be required to be qualified in a manner established by the City before submitting a bid. Additional information regarding the Series 2021A Bonds may be obtained from the Financial Advisor, PFM Financial Advisors, LLC at 612-338-3535 or Gena McDonald, the City's Acting/Interim Chief Financial Officer at 913-895-6158.

(Published in the Kansas Register September 2, 2021.)

**City of Garden City, Kansas**

**Summary Notice of Bond Sale**  
**\$8,000,000\***  
**Taxable General Obligation Bonds**  
**Series A, 2021**  
  
**\$3,035,000\***  
**General Obligation Bonds**  
**Series B, 2021**

**Details of the Sale**

Subject to the terms and requirements of the Official Notice of Bond Sale, dated August 17, 2021 ("Official Notice"), of the City of Garden City, Kansas (the "City"), bids to purchase the City's (i) Taxable General Obligation Bonds, Series A, 2021, (the "Series A, 2021 Bonds") and (ii) General Obligation Bonds, Series B, 2021 (the "Series B, 2021 Bonds") will be received at the office of the City Clerk at the City Administrative Center, 301 N. 8th, Garden City, KS 67846 or by telefacsimile at 620-276-1169, or electronically as described in the Official Notice, until 10:00 a.m. (CST) Tuesday, September 21, 2021. The bids will be considered by the governing body at its meeting at 1:00 p.m. (CST) on the sale date.

The Series A, 2021 Bonds and the Series B, 2021 Bonds (collectively, the "Bonds") will be sold separately and bidders may bid on one or both series of Bonds, but bids must be for the entire amount of the series of Bonds for which a bid is submitted. No oral or auction bids for the Bonds will be considered, and no bids for less than 100 percent of the total principal amount of the Bonds and accrued interest to the date of delivery shall be considered.

**Good Faith Deposit**

Bidders must submit a good faith deposit in the form of a wire transfer or certified or cashier's check made payable to the order of the City, or a financial surety bond (if then available), in an amount equal to 2% of the principal amount of the series of Bonds for which the bidder submits a bid, as further described in the Official Notice.

**Details of the Series A, 2021 Bonds**

The Series A, 2021 Bonds will be dated October 12, 2021, and will be issued as registered bonds in denominations of \$5,000, or any integral multiple thereof. Interest on the Series A, 2021 Bonds is payable semiannually on May 1 and November 1 of each year, beginning May 1, 2022. Principal of the Series A, 2021 Bonds becomes due on November 1 in the years and amounts as shown below:

**Series A, 2021 Bonds Maturity Schedule**

Principal Amount*	Maturity Date	Principal Amount*	Maturity Date
\$435,000	2022	\$545,000	2030
460,000	2023	560,000	2031

520,000	2028	630,000	2036
530,000	2029		

**Details of the Series B, 2021 Bonds**

The Series B, 2021 Bonds will be dated October 12, 2021, and will be issued as registered bonds in denominations of \$5,000, or any integral multiple thereof. Interest on the Series B, 2021 Bonds is payable semiannually on May 1 and November 1 of each year, beginning May 1, 2022. Principal of the Series B, 2021 Bonds becomes due on November 1 in the years and amounts as shown below:

**Series B, 2021 Bonds Maturity Schedule**

Principal Amount*	Maturity Date	Principal Amount*	Maturity Date
\$270,000	2022	\$305,000	2027
280,000	2023	315,000	2028
285,000	2024	320,000	2029
295,000	2025	330,000	2030
300,000	2026	335,000	2031

**Payment of Principal and Interest**

The Treasurer of the State of Kansas will serve as the Bond Registrar and Paying Agent for the Bonds.

**Book-Entry Bonds**

The Bonds will be issued and registered under a book-entry-only system administered by The Depository Trust Company, New York, New York ("DTC").

**Delivery of the Bonds**

The City will prepare the Bonds at its expense and will deliver the registered Bonds to DTC on or about October 12, 2021. Any bond printing costs will be paid by the City from the proceeds of the Bonds or other City funds.

**Legal Opinion**

The Bonds will be sold subject to the legal opinion of Triplett Woolf Garretson, LLC, Wichita, Kansas, Bond Counsel, whose fees will be paid by the City.

**Financial Matters**

The City's current assessed valuation for purposes of calculating statutory debt limitations is \$270,577,183. As of October 12, 2021, the City's total outstanding general obligation debt (including the Bonds), is \$82,530,000.\* The City's total indebtedness which is subject to debt limitation, as of October 12, 2021, is estimated to be \$40,203,053.13,\* which is 14.86%\* of the assessed valuation of the City.

**Additional Information**

For additional information contact the City Clerk at the address and telephone number shown below, or the Financial Advisor, Mr. Bret Shogren, Stifel, Nicolaus & Company, Inc., Wichita, Kansas, 301 N. Main, Suite 800, Wichita, KS 67202, telephone 316-264-9351.

**State of Kansas****Corporation Commission****Notice of Hearing on Proposed  
Administrative Regulations**

The State Corporation Commission (Commission) will conduct a public hearing at 10:00 a.m. November 2, 2021, via Zoom, to consider the adoption of the proposed rules and regulation of the State Corporation Commission of the State of Kansas on a permanent basis.

This notice exceeds the 60-day notice requirement of the pending public hearing and shall constitute the beginning for the public comment period for the purpose of receiving written public comments on the proposed rules and regulations. A complete copy of the proposed regulations and economic impact statements may be found on the Kansas Corporation Commission website at <https://kcc.ks.gov/your-opinion-matters>, or by contacting Cole Bailey at [c.bailey@kcc.ks.gov](mailto:c.bailey@kcc.ks.gov).

All interested parties may participate at the Zoom meeting by signing up on the KCC website <https://kcc.ks.gov/your-opinion-matters> or submit written comments prior to the hearing via the KCC website, in writing to Cole Bailey, Litigation Counsel, State Corporation Commission, 1500 SW Arrowhead Rd., Topeka, KS 66604, or by email to [c.bailey@kcc.ks.gov](mailto:c.bailey@kcc.ks.gov). The meeting will also be broadcasted on our YouTube channel at [https://www.youtube.com/channel/UC-uTcucl0oyHJr-\\_iOheuuw](https://www.youtube.com/channel/UC-uTcucl0oyHJr-_iOheuuw).

During the public hearing, all interested parties will be given a reasonable opportunity to present their views orally regarding the adoption of the proposed regulations during the public hearing. In order to provide all parties an opportunity to present their views, it may be necessary to ask that each participant limit any oral presentation to five (5) minutes.

Any individual with a disability may request an accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for accommodation to participate in the hearing should be made at least five (5) working days in advance of the hearing by contacting Linda Berry at 785-271-3269.

A summary of the proposed regulations and their economic impact are as follows: (Note: Statements indicating a regulation is "not anticipated to have any economic impact" means no economic impact on the State Corporation Commission, other state agencies, state employees, or the general public has been identified.)

(continued)

**K.A.R. 82-11-2 – Enforcement Procedures.**

The proposed amendments to K.A.R. 82-11-2 clarify the procedural hierarchy at the Kansas Corporation Commission (Commission). The current regulation indicates Commission Staff enforce the regulations adopted by the Commission. The Commission itself enforces its regulations. Commission Staff investigate alleged violations of pipeline safety standards and may bring enforcement actions before the Commission to consider. The proposed amendments are not anticipated to have an economic impact.

**K.A.R. 82-11-3 – Transportation of natural and other gas by pipeline; annual reports and incident reports.**

The proposed amendments to K.A.R. 82-11-3 update the regulations adoption of relevant federal regulations to 2018 editions. Specifically K.A.R. 82-11-3 adopts 49 C.F.R. Part 191. The proposed amendments are necessary to ensure Kansas' pipeline regulations appropriately mirror their federal counterparts. The proposed amendments are not anticipated to have an economic impact.

**K.A.R. 82-11-4 – Transportation of natural and other gas by pipeline; minimum safety standards.**

The proposed amendments to K.A.R. 82-11-4 update the regulations adoption of relevant federal regulations to 2018 editions. Specifically K.A.R. 82-11-4 adopts 49 C.F.R. Part 192. The proposed amendments are necessary to ensure Kansas' pipeline regulations appropriately mirror their federal counterparts. The proposed amendments are not anticipated to have an economic impact.

**K.A.R. 82-11-6 – Procedures to ensure compliance with minimum safety standards.**

The proposed amendments to K.A.R. 82-11-6 establish a uniform procedural framework for enforcing Kansas' pipeline safety standards and other safety-related proceedings. Specifically, the Kansas Corporation Commission is responsible for enforcing the Kansas Underground Utility Damage Prevention Act (KUUDPA). Though similar in nature (i.e. safety-related regulations), enforcement actions brought under Kansas' pipeline safety standards differ procedurally from KUUDPA enforcement actions. The proposed amendments to K.A.R. 82-11-6 refine pipeline safety procedures to mirror those, as much as applicable, to KUUDPA procedures. The proposed amendments are not anticipated to have an economic impact.

**K.A.R. 82-11-7 – Reporting requirements.**

The proposed amendments to K.A.R. 82-11-7 strike a redundant regulatory provision. The annual and incident reporting requirements struck from K.A.R. 82-11-7 are contained and adopted by reference in K.A.R. 82-11-3 or are already required from pipeline operators pursuant to 49 C.F.R. Part 191.5. In addition, the proposed amendments to K.A.R. 82-11-7 require natural gas pipeline operators to resubmit construction notices for a project(s) if the project(s) has not been started or has been started but not yet completed (i.e. in progress by year-end). The proposed amendments are not anticipated to have an economic impact.

**K.A.R. 82-11-10 – Drug and alcohol testing.**

The proposed amendments to K.A.R. 82-11-10 update drug and alcohol testing requirements. Presently, Kan-

sas' pipeline-related drug and alcohol regulation adopts by reference a 2010 federal regulation. The proposed amendments update this adoption to the 2018 version of the federal regulation. The proposed amendments are not anticipated to have an economic impact.

**State of Kansas****Department of Agriculture****Notice of Hearing on Proposed Administrative Regulations**

The Kansas Department of Agriculture will conduct a public hearing at 10:00 a.m. November 8, 2021, to consider the adoption of proposed regulations. Due to the public health concerns posed by the COVID-19 pandemic, the hearing proceedings will be conducted virtually via video conferencing system only. Anyone desiring to participate in the public hearing via video conference must pre-register at <https://kansasag.zoom.us/meeting/register/tZUvceqtqD8qGNZIYJRDBbkWuWHYrpwMTS1O>.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed rules and regulations. All interested parties may submit written comments prior to the hearing to the Secretary of Agriculture, 1320 Research Park Dr., Manhattan, KS 66502, or by email to [ronda.hutton@ks.gov](mailto:ronda.hutton@ks.gov). All interested parties will also be given a reasonable opportunity to orally present their views on the adoption of the proposed regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes. These regulations are proposed for adoption on a permanent basis. A summary of the proposed regulations and their economic impact follows:

Due to the United States Department of Agriculture implementing its Final Rule on Commercial Hemp Production, which modified some requirements regarding commercial hemp production, the Kansas Department of Agriculture is proposing amendments to existing rules and regulations governing the Commercial Industrial Hemp Program.

K.A.R. 4-34-24 – This regulation governs sampling, testing, and harvest requirements. The Department is proposing to amend this regulation to extend the time-frame within which licensees must complete harvest after samples of hemp are collected. The amendment would require harvest to be completed within 30 days of sampling rather than the currently-required 15 days and is proposed in accordance with the corresponding provision of the USDA final rule that states, "Samples from cannabis plants must be collected within 30 days prior to the anticipated harvest, for total delta-9 tetrahydrocannabinol concentration level testing."

K.A.R. 4-34-25 – This regulation governs effective disposal of hemp. The proposed amendment would allow hemp

that contains a delta-9 tetrahydrocannabinol (“THC”) concentration greater than 0.3 percent on a dry-weight basis to be remediated into a lawful product, rather than requiring all such hemp to be effectively disposed of. The amendment would allow hemp biomass to enter commerce if it can be remediated so as to have a THC concentration of 0.3 percent or less on a dry-weight basis within 60 days of the issuance of a failing report of analysis. This amendment is proposed in accordance with the provision of USDA’s final rule that states, “A State or Tribal plan must include a procedure for the disposal or remediation of cannabis plants if the sample representing that plant tests above the acceptable hemp THC level.”

K.A.R. 4-34-29 – This regulation governs negligent violations of the Commercial Industrial Hemp Act. The proposed amendment changes the THC threshold at which hemp will be considered to have been produced negligently from 0.5 percent to 1.0 and is proposed in accordance with the provision of USDA’s final rule that states that “hemp producers do not commit a negligent violation...if they make reasonable efforts to grow hemp and the cannabis does not have a total THC concentration of more than 1.0 percent on a dry weight basis.”

#### Economic Impact Statement:

These rules and regulations are authorized by the 2018 Farm Bill, the Commercial Industrial Hemp Act, and USDA’s final rule on commercial hemp production. The proposed amendments are not mandated by federal law, but rather are permitted by federal law now that USDA rules regarding commercial hemp production have become less stringent in some respects. The amendments will ensure that Kansas law conforms with what is allowed under federal law, so these regulations, including the proposed amendments, do not differ from the approach taken by the federal government. Colorado may take a less restrictive approach to hemp production, due to the fact that Colorado has legalized both medicinal and recreational marijuana by state law and allowed the commercial sale of industrial hemp prior to the passage of the 2018 Farm Bill. Nebraska, Oklahoma, and Missouri all currently have USDA-approved commercial hemp plans comprised of regulations that do not differ substantially from the Department’s current regulations. However, of those states, only Missouri, has submitted a plan to USDA that reflects the changes implemented by the final rule.

These amendments will enhance business activities and economic growth in Kansas, most significantly by allowing hemp that was previously required to be effectively disposed of to enter commerce if it can be remediated so as to contain an acceptable level of THC. The proposed remediation provisions will also significantly reduce the expenses that licensees have previously had to incur in effectively disposing of noncompliant hemp in accordance with DEA requirements. The lengthened harvest window and the revision of the negligent violation threshold will make production less burdensome in general, which may encourage new growers to become involved in the industry. The positive economic effect of the amendments is difficult to quantify due to the many variables and significant unknowns that remain

in the hemp industry but has the potential to be significant long-term. The Department does not foresee the proposed amendments restricting business activities or growth in any way.

The proposed amendments will likely have a positive effect on the Kansas economy, specifically for individuals involved in hemp production. The Department estimates that all Kansas hemp growers combined will incur approximately \$5,000 worth of expenses during the 2021 growing season in post-harvest and post-remediation testing fees necessary for the remediation of noncompliant crops. Producers also may incur some expenses in the labor and equipment involved in conducting remediation. However, the benefits of having a viable economic use for a crop that would otherwise have to be destroyed absent these amendments should more than offset any such costs.

The other implementation and compliance costs of the proposed amendments will continue to be borne mostly by law enforcement and regulatory entities as they continue to oversee the production of hemp and the intersection of this area with criminal law. However, such costs will likely not change significantly compared to the costs that the Department’s existing hemp regulations already impose on the responsible regulatory entities. Moreover, these regulations do not impose any mandatory requirements on the public at large. Participation in the industrial hemp program in general is voluntary, and any remediation efforts that producers undertake will also be voluntary—producers are still permitted to dispose of hemp that produces an unacceptable level of THC.

Individuals who obtain commercial industrial hemp grower licenses, particularly those who produce hemp with a THC concentration in excess of 0.3 percent, will be directly affected by these proposed amendments. As discussed above, the benefits of these proposed amendments outweigh the costs, as they will allow producers a viable economic avenue for hemp that was previously required to be destroyed and promote research and development regarding hemp production.

The most significant aspects of the proposed amendments are specifically intended to reduce the cost and impact of participation in the industrial hemp program on producers and make hemp production more profitable and accessible. As discussed above, the amendments accomplish this by creating a viable commercial option for hemp that would have to be destroyed under the present regulations and expanding opportunities for industry-enhancing research. Additionally, in an effort to minimize cost and impact to law enforcement, the existing commercial hemp regulations require licensees to maintain documentation intended to assist law enforcement in determining whether a plant is marijuana or industrial hemp, as well as law enforcement reporting requirements in the event tested plants are shown to have a THC concentration over a certain threshold. Those requirements will remain in place with these amendments.

The Department estimates that all hemp producers combined will incur a total of \$5,000 in costs in remediating hemp during the 2021 growing season. This cost could remain substantially the same in future years or could vary significantly, as the legal landscape surrounding

*(continued)*

hemp production as well as producer knowledge is evolving quickly. The implementation and compliance costs of the proposed amendments will not exceed \$3.0 million over any two-year period. The Department arrived at its estimated \$5,000 annual cost figure by estimating based on previous growing season results that approximately 20 licensees will incur post-harvest or post-remediation testing fees during the 2021 growing season. The cost of a post-harvest testing fee is \$250 per K.A.R 4-34-12. As to the broader conclusion that the proposed amendments will enhance economic activity long-term, the Department relied in part on the findings of the Kansas Legislative Division of Post Audit on the topic of hemp production, which were published in September 2020.

The proposed regulations will not significantly increase or decrease revenues of cities, counties, or school districts. Most of the costs of the regulations in this regard will be borne by the department and law enforcement at the state level, though counties and municipalities could see some expenditures as a result of costs to local law enforcement. The Department sent letters to the League of Kansas Municipalities, the Kansas Association of School Boards and the Kansas Association of Counties inquiring about the costs the proposed amendments would impose on those entities. The Kansas Association of Counties and the Kansas Association of School Boards responded stating that neither of those entities anticipates the amendments will result in additional expense to them. No response was received from the League of Kansas Municipalities.

The proposed amendments were developed with the assistance of the Industrial Hemp Advisory Board, which is comprised of hemp industry advocates, legislators, and representatives of law enforcement agencies and research institutions. The Department also sent letters to the Kansas League of Municipalities, Kansas Association of School Boards, Kansas Association of Counties, Kansas Association of Chiefs of Police, Kansas County and District Attorneys' Association, Johnson County Sheriff's Office Criminalistics Laboratory, Kansas Bureau of Investigation, Kansas Highway Patrol, Kansas Peace Officers' Association, Sedgwick County Regional Forensic Science Center, and the Kansas Sheriff's Association inquiring about the costs the proposed amendments would impose on those entities. The Department has received responses from the Kansas Association of Chiefs of Police, Kansas Association of Counties, Kansas Association of School Boards, and Kansas Peace Officers Association, with each entity stating that the proposed amendments would not result in additional expenses being incurred if they are implemented. No responses have been received from the other entities.

Though these regulations are not environmental regulations per se, it is worth noting that if these amendments are not adopted, Kansas hemp producers will not have a viable commercial option for hemp that produces a THC content of 0.3 percent or greater and would have to destroy all such hemp. The total cost of that scenario is difficult to estimate for many reasons but is potentially significant.

Any individual with a disability may request accommodations to participate in the public hearing and may

request the proposed regulations and impact statement in an accessible format. Requests for accommodations should be made at least five working days in advance of the hearing by contacting Ronda Hutton at 785-564-6715 or fax 785-564-6777.

Copies of the regulations and their economic impact statement may be obtained by contacting the Department of Agriculture, Ronda M. Hutton, 1320 Research Park Dr., Manhattan, KS 66502 or 785-564-6715 or by accessing the department's website at <https://www.agriculture.ks.gov>. Comments may also be made through our website at <https://www.agriculture.ks.gov/document-services/public-comment>.

Mike Beam  
Secretary

Doc. No. 049410

## State of Kansas

### Wildlife and Parks Commission

#### Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted by the Wildlife and Parks Commission at 6:30 p.m. Thursday, November 18, 2021, at the Buffalo Bill Cultural Center, 3083 US-83 Hwy., Oakley, Kansas, to consider the approval and adoption of the proposed regulations of the Kansas Department of Wildlife and Parks.

An education session for commissioners may be conducted beginning at 9:00 a.m., November 18, 2021, at the location listed above. A general discussion and workshop meeting on the business of the Wildlife and Parks Commission will begin at 1:00 p.m., November 18, 2021, at the location listed above. The meeting will recess at approximately 5:00 p.m. and then resume at 6:30 p.m. at the same location for the regulatory hearing and more business. There will be public comment periods at the beginning of the afternoon and evening meeting for any issues not on the agenda and additional comment periods will be available during the meeting on agenda items. Old and new business may also be discussed at this time. If necessary to complete business matters, the Commission will reconvene at 9:00 a.m. November 19, 2021, at the location listed above.

Any individual with a disability may request accommodation in order to participate in the public meeting and may request the meeting materials in an accessible format. Requests for accommodation to participate in the meeting should be made at least five working days in advance of the meeting by contacting Sheila Kemmis, Commission Secretary, at 620-672-5911. Persons with a hearing impairment may call the Kansas Commission for the Deaf and Hard of Hearing at 1-800-432-0698 to request special accommodations.

This 60-day notice period prior to the hearing constitutes a public comment period for the purpose of receiving written public comments on the proposed administrative regulations.

All interested parties may submit written comments prior to the hearing to the Chairman of the Commission, Kansas Department of Wildlife and Parks, 1020 S. Kansas

Ave., Suite 200, Topeka, KS 66612 or to [sheila.kemmis@ks.gov](mailto:sheila.kemmis@ks.gov) if electronically. All interested parties will be given a reasonable opportunity at the hearing to express their views orally in regard to the adoption of the proposed regulations. During the hearing, all written and oral comments submitted by interested parties will be considered by the commission as a basis for approving, amending and approving, or rejecting the proposed regulations.

The regulations that will be heard during the regulatory hearing portion of the meeting are as follows:

**K.A.R. 115-4-4a.** This permanent regulation sets legal equipment and taking methods for wild turkeys. The proposed changes would allow handguns meeting minimum qualifications and using shot as legal equipment.

**Economic Impact Summary:** No substantial negative economic impact to the department, other state agencies, small businesses, or individual members of the public is anticipated.

**K.A.R. 115-17-2.** This permanent regulation sets provisions related to commercial sale of fishing bait. The proposed amendments would allow for the sale of additional species of bait to be sold if dead.

**Economic Impact Summary:** No substantial negative economic impact to the department, other state agencies, small businesses, or individual members of the public is anticipated.

**K.A.R. 115-25-6.** This exempt regulation sets the spring season, bag limit, permits, and game tags for wild turkeys. This proposed version of the regulation would allow 17-year olds to participate in the youth season.

**Economic Impact Summary:** No substantial negative economic impact to the department, other state agencies, small businesses, or individual members of the public is anticipated.

**K.A.R. 115-25-14.** This exempt regulation sets the creel limit, size limit, possession limit and open season for fishing. The proposed version of the regulation would change certain trout waters and update length and creel limits for certain water bodies.

**Economic Impact Summary:** No substantial negative economic impact to the department, other state agencies, small businesses, or individual members of the public is anticipated.

**K.A.R. 115-30-3.** This permanent regulation sets personal flotation device requirements for recreational vessels. The proposed amendments would conform the regulation to changes in state and federal law in reference to personal flotation device labeling.

**Economic Impact Summary:** No substantial negative economic impact to the department, other state agencies, small businesses, or individual members of the public is anticipated.

Copies of the complete text of each regulation and its respective economic impact statement may be obtained by writing the chairman of the Commission at the address above, electronically on the department's website at <http://www.ksoutdoors.com>, or by calling 785-296-2281.

Chairman

Doc. No. 049407

## State of Kansas

### Board of Emergency Medical Services

#### Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted at 10:00 a.m. Tuesday, November 9, 2021, in Room 560 of the Landon State Office Building, 900 SW Jackson, Topeka, Kansas, to consider the adoption of proposed administrative regulations of the Board of Emergency Medical Services on a permanent basis.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed amendments to the regulations. All interested parties may submit written comments prior to the hearing to the Board of Emergency Medical Services, Landon State Office Building, 900 SW Jackson, Room 1031, Topeka, KS 66612 or by email to [Joseph.House@ks.gov](mailto:Joseph.House@ks.gov). All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed amendments to the regulations during the public hearing. In order to provide all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentations to five minutes. Due to continuing concerns over COVID-19, the hearing will also be held via GoToMeeting conferencing. Remote access information will be provided upon request to any person wishing to observe, participate in, or listen to the hearing. Request for access must be submitted prior to 4:30 p.m. Friday, November 5, 2021, via email to [joseph.house@ks.gov](mailto:joseph.house@ks.gov).

Any individual with a disability may request an accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Suzette Smith at 785-296-7296 (or TTY 1-800-766-3777). Handicapped parking is located in front of and to the north of the Landon State Office Building.

These regulations will be grouped into topic areas. Summaries of the proposed regulations follow.

#### Group 1 – Ambulance service roster notification

**K.A.R. 109-2-1, Ambulance service operator**, is an existing regulation that details requirements for operators and service directors. Proposed revision is to shorten the time frame for notification of provider changes on a roster from 90 days to 7 days.

This change is being implemented to better incorporate the provisions of the EMS interstate compact that require medical oversight of anyone granted a privilege to practice. There is no anticipated economic impact to any governmental agency or unit or to the general public in the adoption of this revised regulation.

#### Group 2 – Inactive Status

**K.A.R. 109-6-4, Inactive certificate**, is a new proposed regulation providing the process for an individual to apply for and maintain an inactive certificate, as well as how to transition from inactive to active.

(continued)

**K.A.R. 109-7-1, Schedule of fees**, is an existing regulation that prescribes the fees levied by the board. Proposed revisions utilize a new definition and add the listing of fees related to the inactive certificate.

These proposed regulations are to incorporate and implement the inactive status afforded by the 2019 Legislature.

There is no anticipated economic impact to any governmental agency or unit or to the general public in the adoption of this new regulation and revised regulation.

### Group 3 – Electronic filing

**K.A.R. 109-6-2, Renewal of EMS provider and instructor-coordinator certificates**, is an existing regulation that defines the process of renewing an EMS provider or instructor-coordinator certificate. Proposed revision is to eliminate paper submission of renewal forms. There is no anticipated economic impact to any governmental agency or unit or to the general public in the adoption of this revised regulation.

### Group 4 – Certification

**K.A.R. 109-3-1, Standards for ambulance attendants**, is an existing regulation stating an EMS provider must be 17 years of age or older. This regulation is being proposed for revocation due to moving the requirement to K.A.R. 109-15-3.

**K.A.R. 109-15-1, Reinstating EMS provider certificate after expiration**, is an existing regulation providing the process for an individual to gain certification after the certificate expires. Proposed revisions reflect requesting documentation that the applicant would have been required to maintain and eliminating a component of increasing amounts of continuing education in scenarios where testing must occur.

**K.A.R. 109-15-2, Recognition of non-Kansas credentials**, is an existing regulation providing the process for an individual to gain Kansas EMS certification based upon their licensure or certification in another state or jurisdiction. Proposed revisions include addressing recognition of an expired out-of-state credential where the person shows they have passed the state's examination within the previous 4 years and provisions for a required criminal history record check afforded by the 2019 Legislature and required of our continued participation in the EMS interstate compact.

**K.A.R. 109-15-3, EMS provider certification**, is a proposed new regulation providing the process for an individual to gain Kansas EMS certification based upon successful completion of a course of instruction and incorporates the required criminal history record check afforded by the 2019 Legislature and required of our continued participation in the EMS interstate compact.

There is an estimated economic impact of approximately \$65,000 annually for implementation and compliance costs specific to the criminal history record check. These costs are the responsibility of the applicant – approx. \$15 for fingerprinting and \$50 for the criminal history record check.

### Group 5 – Sponsoring Organization

This grouping of regulations is designed to:

1. clearly define the roles and responsibilities of the sponsoring organization for both EMS continuing education and EMS initial courses of instruction;
2. decrease the paperwork submission burden on sponsoring organizations requesting course approval;
3. clearly identify the Board's expectation of successful course completion and requiring sponsoring organizations that do not meet this expectation to identify how they will adjust to ensure this expectation is met;
4. make technical amendments due to terminology changes enacted from the 2019 Legislative Session; and
5. standardize structure within regulations to aid in making processes simpler and easier for constituents to understand.

To achieve this, the following proposed permanent regulations are being amended to incorporate a new article of regulations, Article 17, designed to take all sponsoring organization requirements throughout the Board's existing regulations and to place them into a single article with four (4) regulations. This design led to the proposed revocation of four (4) existing regulations as their content was addressed in the new regulations and amendments to ten (10) other regulations. Regulations impacted by this change are as follows:

**K.A.R. 109-1-1, Definitions**, is an existing regulation that defines terms utilized within the Board's regulations. Proposed revisions are for terminology changes from the 2019 Legislature, removal of terms no longer necessary, and addition of new terms to incorporate the previously stated goals.

**K.A.R. 109-5-1, Continuing education**, is an existing regulation that further defines EMS continuing education. Proposed revisions add the definition of "continuing education," clearly identify what is adequate documentation of continuing education and remove areas that are duplicative or are addressed within K.A.R. 109-17-4.

**K.A.R. 109-5-3, Continuing education approval for long-term providers**, is an existing regulation that defines the requirements for organizations desiring to provide continuing education as a long-term provider. Proposed revisions involve reflecting the change in process for requesting approval and removal of areas that are addressed within K.A.R. 109-17-4.

**K.A.R. 109-5-6, Continuing education approval for single-program provider**, is an existing regulation that defines the requirements for organizations desiring to provide continuing education as a single program provider. Proposed revisions involve reflecting the change in requirements of requesting approval for a single-program offering.

**K.A.R. 109-10-3, Late enrollment**, is an existing regulation that describes the process for a sponsoring organization as it relates to an individual enrolling late into an initial course of instruction. Proposing to revoke this reg-

ulation due to all sections being addressed within K.A.R. 109-17-3.

**K.A.R. 109-10-6, Required training equipment and supplies**, is an existing regulation that describes requirements for training equipment and supplies for initial courses of instruction. Proposing to revoke this regulation due to all sections being addressed within K.A.R. 109-17-1 and 109-17-3.

**K.A.R. 109-10-7, Distance learning**, is an existing regulation that describes what mechanisms must be in place for a sponsoring organization to offer instruction in a distance learning format. Proposing to revoke this regulation due to all sections being addressed within K.A.R. 109-17-3 and 109-17-4.

**K.A.R. 109-11-1a, Emergency medical responder (EMR) course approval**, is an existing regulation that defines the requirements for gaining EMR course approval.

**K.A.R. 109-11-3a, Emergency medical technician (EMT) course approval**, is an existing regulation that defines the requirements for gaining EMT course approval.

**K.A.R. 109-11-4a, Advanced emergency medical technician (AEMT) course approval**, is an existing regulation that defines the requirements for gaining AEMT course approval.

**K.A.R. 109-11-6a, Paramedic course approval**, is an existing regulation that defines the requirements for gaining paramedic course approval.

**K.A.R. 109-11-7, Instructor-coordinator course approval**, is an existing regulation that defines the requirements for gaining instructor-coordinator course approval.

Proposed revisions to these previous five (5) regulations are to offer consistency in language and structure and to simplify the application process through utilization of requirements addressed within K.A.R. 109-17-3.

**K.A.R. 109-11-8, Successful completion of a course of instruction**, is an existing regulation that details the requirements for successful completion of a course of instruction. Proposed revisions are to provide a single location that outlines the requirements for successful course completion and allows for competency-based educational end metrics.

**K.A.R. 109-11-9, Instructor qualifications**, is an existing regulation detailing the qualifications necessary to be an instructor of EMS education. Proposing to revoke this regulation due to all sections being addressed within K.A.R. 109-17-1.

**K.A.R. 109-17-1, Sponsoring organization; general requirements; program manager**, is a proposed new regulation providing the requirements of a sponsoring organization and responsibilities of a program manager.

**K.A.R. 109-17-2, Sponsoring organization; application for approval; approval renewal**, is a proposed new regulation providing details on how to apply for approval as a sponsoring organization and the process for renewal of such approval.

**K.A.R. 109-17-3, Sponsoring organization; initial course of instruction**, is a proposed new regulation providing the additional requirements for sponsoring orga-

nizations that choose to provide EMS initial courses of instruction.

**K.A.R. 109-17-4, Sponsoring organization; continuing education**, is a proposed new regulation providing the additional requirements for sponsoring organizations that choose to provide EMS continuing education.

There is no anticipated economic impact to any governmental agency or unit or to the general public in implementation or compliance to these proposed regulations. The agency estimates that any cost would be savings, but believe the changes simply increase efficiency, simplify the regulations, and make it easier for an organization to maintain compliance without compromising public safety.

Copies of the complete regulations and the complete economic impact statements may be obtained from the Board of Emergency Medical Services at the contact information above or can be accessed at <http://www.ksbems.org>.

#### Article 6. — LICENSES

**100-6-7. Application for licensure pursuant to K.S.A. 48-3406.** (a) Each applicant for licensure under K.S.A. 2020 Supp. 48-3406, as amended by L. 2021, ch. 70, sec. 1, and amendments thereto, shall submit the application on a form provided by the board.

(b) Each applicant shall submit the following with the application:

- (1) An application fee;
- (2) a current photograph of the applicant taken within 90 days of the date the application is received by the board;
- (3) verification of each license, registration, or certification issued to the applicant by any state or the District of Columbia to practice the profession for which the applicant has applied to the board; and

(4) documentation that an insurer intends to issue the applicant a policy of professional liability insurance pursuant to K.S.A. 40-3402, and amendments thereto, and certification from the applicant that the premium surcharges pursuant to K.S.A. 40-3404, and amendments thereto, will be paid.

(c) Each applicant shall sign the application under oath and have the application notarized. (Authorized by K.S.A. 2020 Supp. 48-3406, as amended by L. 2021, ch. 70, sec. 1, and K.S.A. 65-2865; implementing K.S.A. 2020 Supp. 48-3406, as amended by L. 2021, ch. 70, sec. 1; effective, T-100-8-25-21, Aug. 25, 2021.)

## State of Kansas

## Department of Agriculture

## Temporary Administrative Regulations

## Article 34.—INDUSTRIAL HEMP

**4-34-24. Sampling, testing, and harvest requirements.** (a) No more than 30 days before any industrial hemp cultivated or produced pursuant to the act is harvested, each licensee shall allow a sample to be collected by the secretary for testing, using post-decarboxylation or any other similarly reliable method, to determine the delta-9 tetrahydrocannabinol concentration of industrial hemp cultivated or produced. A licensee shall not harvest any industrial hemp before receiving notice that testing of the samples has shown a delta-9 tetrahydrocannabinol concentration of less than 0.3 percent on a dry-weight basis and that the licensee may harvest the industrial hemp.

(b) Each licensee shall complete each harvest of industrial hemp plants, plant parts, grain, or seeds within 30 days of sampling.

(c) If a licensee fails to harvest all of the industrial hemp plants, plant parts, grain, or seeds within the time frame specified in subsection (b), the licensee shall perform one of the following:

(1) Notify the department that harvest has not occurred within seven days after the expiration of the time frame specified in subsection (b), request that the department collect a subsequent pre-harvest sample, and pay the required sampling and testing fees; or

(2) notify the department that harvest has not occurred within seven days after the expiration of the time frame specified in subsection (b) and inform the department of the date by which the licensee intends to effectively dispose of the industrial hemp plants, plant parts, grain, or seeds. The licensee shall conduct effective disposal no more than seven days after the licensee informs the department that harvest has not occurred and shall notify the department of any change in the effective disposal date. Effective disposal of industrial hemp plants, plant parts, grain, or seeds shall occur by the licensee and at the licensee's expense. All volunteer plants within and adjacent to the licensed growing area shall be effectively disposed of during the current license year and for at least three years after the last reported date of planting. If effective disposal of industrial hemp plants, plant parts, grain, or seeds occurs, no refund shall be issued for any fees paid by a licensee, the cost of effective disposal, or the value of the crop.

(d) Each licensee shall submit a harvest report to the department no more than 15 days after each harvest of industrial hemp plants, plant parts, grain, or seeds is completed for each lot. Each harvest report shall identify the following:

(1) The global positioning system coordinates of the entrance to the licensed growing area and each lot where industrial hemp plants were harvested;

(2) the total number of acres planted in the licensed growing area;

(3) the number of acres planted in each lot;

(4) the planting date for each lot;

(5) the total number of acres harvested from the licensed growing area;

(6) the number of acres harvested from each lot;

(7) the harvest date for each lot;

(8) the official name of the industrial hemp variety harvested from each lot; and

(9) a statement of intended end-use for all industrial hemp plants, plant parts, grain, or seeds harvested from each lot.

(e) Industrial hemp shall be subject to post-harvest sampling and testing by the secretary. Each licensee shall agree to provide the secretary access to any harvested industrial hemp or to provide the secretary with a copy of the bill of lading and, if available, a certificate of analysis or similar document provided for any industrial hemp already sold or transferred to another person. All samples collected by the secretary shall be subject to testing, using post-decarboxylation or any other similarly reliable method, of delta-9 tetrahydrocannabinol concentration of industrial hemp produced. A licensee whose industrial hemp is sampled after it is harvested shall not sell, transfer, or transport any industrial hemp harvested from the licensed growing area where samples were collected until that licensee has received notice from the department that testing of the samples has shown a delta-9 tetrahydrocannabinol content of less than 0.3 percent on a dry-weight basis.

(f) Each licensee shall be assessed a \$225 fee for the required pre-harvest sample collected and tested by the secretary.

(g) At any time other than at the time of the required pre-harvest sample collected and tested by the secretary, a licensee may request that the secretary collect a sample and test the delta-9 tetrahydrocannabinol concentration, subject to a testing fee of \$225 for each test and additional costs assessed for the secretary's travel time and mileage.

(h) All samples collected by the secretary shall become the property of the secretary, and no compensation shall be owed to any licensee.

(i) Any licensee may request a test from a private laboratory at any time. However, test results from private laboratories shall not be considered official and shall not be substituted for a sample collected and tested by the secretary, and each licensee shall be responsible for the costs of testing by a private laboratory.

(j) Each sample collected and tested by the secretary and found to contain a delta-9 tetrahydrocannabinol concentration greater than 0.3 percent on a dry-weight basis shall result in the hemp being classified as cultivated or produced in violation of the act and shall result in the issuance of a failing report of analysis. Hemp that receives a failing report of analysis may be eligible to be remediated pursuant to K.A.R. 4-34-25.

(k) Within seven days of notice of the failing report of analysis, any licensee may request, on a form provided by the secretary, an additional test by the secretary. The request shall include payment of a retesting fee of \$225 and any additional costs assessed for the secretary's travel time and mileage. If a licensee requests an additional test and the sample collected and tested pursuant to this subsection is found to contain a delta-9 tetrahydrocannabinol concentration greater than 0.3 percent on a dry-weight ba-

sis, then all plants in the licensed growing area shall be effectively disposed of as required by K.A.R. 4-34-25 or, if eligible, remediated pursuant to K.A.R. 4-34-25.

(l) For each licensee who is issued an order to effectively dispose of plants, one of the following requirements shall apply:

(1) The licensee shall be subject to a corrective action plan as specified in K.A.R. 4-34-29 and reported to the appropriate state or local law enforcement agency if the violation is deemed negligent.

(2) The licensee shall be reported to the United States department of agriculture, the office of the Kansas attorney general, the office of the United States attorney for the district of Kansas, and the appropriate state or local law enforcement agency if the violation is the result of a culpable mental state greater than negligence. If any plants are tested by the secretary and found to contain a delta-9 tetrahydrocannabinol concentration of greater than 2.0 percent, the licensee responsible for those plants shall be presumed to have acted with a culpable mental state greater than negligence.

(m) Except as provided in K.A.R. 4-34-28, each licensee or an authorized representative of each licensee shall be present whenever the secretary collects a sample of industrial hemp cultivated or produced pursuant to the act and whenever a compliance inspection is conducted pursuant to this regulation. (Authorized by K.S.A. 2020 Supp. 2-3906; implementing K.S.A. 2020 Supp. 2-3903, as amended by L. 2021, ch. 76, sec. 4, and 2-3906; effective Jan. 8, 2021; amended, T-4-8-25-21, Aug. 25, 2021.)

#### **4-34-25. Remediation; effective disposal; violations.**

(a) All hemp that is deemed to be in violation of the act for any reason or that contains a delta-9 tetrahydrocannabinol concentration greater than 0.3 percent on a dry-weight basis shall, by order of the secretary, be subject to effective disposal or remediation.

(b) Remediation shall not be allowed for any hemp for which the secretary has not approved a remediation plan. Hemp for which remediation is not allowed shall be effectively disposed of as specified in this regulation.

(c) Remediation shall include any method approved by the United States department of agriculture and may include either of the following:

(1) Separating and removing all flowers and floral materials from the stalks, leaves, and seeds of all plants or plant parts, which may include removal by hand or mechanical removal; or

(2) shredding the entirety of all plants or plant parts into hemp biomass, which may be accomplished with shredders, composters, specialty mechanical equipment, or similar means.

(d) Seeds removed from hemp plants or contained in hemp biomass as a result of remediation shall not be used for propagation purposes.

(e) Each remediation plan or request to submit a remediation plan shall be submitted to the secretary before the expiration of the 10-day period following the licensee's receipt of notice that effective disposal is required as specified in subsection (q).

(f) Each remediation plan submitted to the secretary pursuant to this regulation shall include the following, at a minimum:

(1) The date that remediation will begin;

(2) the approximate date that remediation will be completed;

(3) the total number of acres that will be remediated;

(4) the intended end-use of all plants or plant parts to be remediated;

(5) the location where each plant or plant part will be stored before and after remediation and the location where remediated material will be stored following remediation;

(6) the method or methods of remediation intended to be used; and

(7) any other information that is relevant to the circumstances surrounding the cultivation or production of the hemp proposed to be remediated or the intended remediation plan and that the secretary requests.

(g) Any remediation plan that does not contain all required information may be denied or returned to the licensee. Any remediation plan may be denied at the discretion of the secretary, based on the circumstances surrounding the cultivation or production of the hemp proposed to be remediated.

(h) Hemp for which a failing report of analysis is issued may be remediated by the licensee upon the secretary's approval of the remediation plan submitted by the licensee, if the most recent sampling and testing conducted showed the hemp to have a delta-9 tetrahydrocannabinol concentration of 1.0 percent or less on a dry-weight basis.

(i) Any licensee may request permission from the secretary to submit a remediation plan for any hemp for which a failing report of analysis is issued if the most recent sampling and testing conducted showed the hemp to have a delta-9 tetrahydrocannabinol concentration greater than 1.0 percent but not greater than 2.0 percent on a dry-weight basis. If the secretary agrees to review a remediation plan based upon the circumstances surrounding the production or cultivation of the hemp, then the industrial hemp may be remediated upon approval of the plan submitted by the licensee.

(j) Each licensee who conducts remediation of any hemp shall allow representatives of the secretary to be present during the remediation. Proof of remediation may be required to be provided to the secretary.

(k) All plant material that is undergoing remediation shall be clearly labeled to indicate that the plant material is remediated hemp biomass and to verify the source of all of the hemp that comprises the remediated material. Remediated hemp biomass shall require a bill of lading pursuant to K.A.R. 4-34-26, which shall identify the material as remediated hemp biomass and identify the source of all material used in the remediation.

(l) All plant material resulting from remediation shall be subject to postremediation sampling and testing and shall be required to be effectively disposed of as specified in this regulation and prohibited from entering commerce if the final postremediation testing performed shows the plant material to have a delta-9 tetrahydrocannabinol concentration of greater than 0.3 percent on a dry-weight basis.

(m) Remediation may be conducted as many times as is necessary to achieve a delta-9 tetrahydrocannabinol

*(continued)*

concentration of 0.3 percent or less on a dry-weight basis. However, all hemp biomass that is not successfully remediated so as to have a delta-9 tetrahydrocannabinol concentration of 0.3 percent or less on a dry-weight basis within 60 days of the issuance of the final failing report of analysis for any hemp that comprises the remediated hemp biomass shall be effectively disposed of as specified in this regulation.

(n) Hemp for which a failing report of analysis is issued and for which the most recent testing conducted shows a delta-9 tetrahydrocannabinol concentration greater than 2.0 percent on a dry-weight basis shall not be eligible for remediation and shall be required to be effectively disposed of as provided in this regulation.

(o) Acceptable methods of effective disposal shall include plowing under, mulching or composting, disking, mowing or chopping, deep burial, burning, or any other method allowed under federal law and approved by the secretary.

(p) If required pursuant to federal law, all hemp that requires effective disposal shall be destroyed or disposed of as required by the controlled substances act, 21 U.S.C. 801 et seq., and in compliance with requirements of the United States drug enforcement agency.

(q) If allowed pursuant to federal law, each licensee shall conduct effective disposal at the licensee's expense within 10 days of receiving notice that effective disposal is required. Each licensee shall effectively dispose of all volunteer plants within and adjacent to the licensed growing area during the current license year and for at least three years after the last reported date of planting. Each licensee shall allow representatives of the secretary to be present during the effective disposal of plants or plant parts, or proof of the effective disposal may be required by the secretary. Each licensee who conducts effective disposal shall, within 14 days of conducting the effective disposal, report the number of acres effectively disposed of to the department. A licensee who conducts effective disposal shall not be eligible for a refund of any fees paid, the cost of effective disposal, or the value of the crop.

(r) Each licensee whose plants are effectively disposed of shall be responsible for reimbursing any law enforcement agency whose officers or agents are required to participate in or be present during the effective disposal for all of the law enforcement agency's costs associated with the effective disposal.

(s) Failure of a licensee to conduct effective disposal as required by the secretary within 10 days of receiving notice that effective disposal is required shall result in the secretary's conducting effective disposal at the expense of the licensee, unless an extension is granted by the secretary.

(t) A licensee's failure to conduct effective disposal as required by the secretary, failure to reimburse the secretary for any costs incurred as a result of the secretary's conducting effective disposal, or failure to reimburse any law enforcement agency for any costs associated with effective disposal shall be grounds for denial of any future hemp producer license application.

(u) Each licensee who violates the act with a culpable mental state of negligence shall be subject to a corrective

action plan as specified in K.A.R. 4-34-29 and reported to the appropriate state or local law enforcement agency. Each licensee who violates the act with a culpable mental state greater than negligence shall be reported to the United States attorney's office and the Kansas attorney general's office, in addition to the appropriate state or local law enforcement agency. (Authorized by and implementing K.S.A. 2020 Supp. 2-3906; effective Jan. 8, 2021; amended, T-4-8-25-21, Aug. 25, 2021.)

**4-34-29. Negligent violations; corrective action plans.** (a) Negligent violations of the act may include failure to provide a legal description of land on which a licensee produces industrial hemp, producing plants with a delta-9 tetrahydrocannabinol concentration greater than 1.0 percent on a dry-weight basis, or producing plants with a delta-9 tetrahydrocannabinol concentration greater than 0.3 percent on a dry-weight basis if the licensee did not make reasonable efforts to cultivate or produce industrial hemp. It shall not be a negligent violation of the act if a licensee produces plants with a delta-9 tetrahydrocannabinol concentration of 1.0 percent or less on a dry-weight basis and the licensee has made reasonable efforts to cultivate or produce industrial hemp. Each licensee who negligently violates the act or the implementing regulations shall be required to follow a corrective action plan developed by the secretary.

(b) Upon the first negligent violation, each licensee shall meet the following requirements:

(1) Correct the violation within 10 days of notification of the violation by the secretary, including conducting effective disposal of the industrial hemp crop if so ordered;

(2) for the duration of the time period specified in the corrective action plan, which shall be at least two years, provide a report to the secretary as often as is required by the secretary regarding the status of the violation; and

(3) complete any other actions required by the secretary.

(c) Upon a second negligent violation within five years of a previous negligent violation, each licensee shall meet the following requirements:

(1) Correct the violation within 10 days of notification of the violation by the secretary, including the effective disposal of the industrial hemp crop if so ordered;

(2) for the duration of the time period specified in the corrective action plan, which shall be at least two years, provide a report to the secretary at least every 30 days, or as often as is required by the secretary, regarding the status of the violation; and

(3) complete any other actions required by the secretary.

(d) Upon a third negligent violation within five years of the first negligent violation, each licensee shall be ineligible to cultivate or produce industrial hemp for a period of five years beginning on the date of the third violation. Each license or registration held by the licensee shall be subject to immediate revocation, and all of the licensee's industrial hemp shall be subject to destruction, if so ordered. (Authorized by and implementing K.S.A. 2020 Supp. 2-3906; effective Jan. 8, 2021; amended, T-4-8-25-21, Aug. 25, 2021.)
