Instructions for Proposal

No costs shall be contained in the proposal. A PDF response must be emailed to [KDOT.DesignContracts@ks.gov](mailto:KDOT.DesignContracts@ks.gov), Attention: Marcia Turner, P.E., Assistant Contracts Engineer. The subject line of the reply email and the file name must read "I470-89 KA-5766-01\_FIRM NAME." Proposals must be received by 12:00 p.m. (CST) November 19, 2021, for the consulting firm to be considered. Questions can be submitted until November 11, 2021; answers will be provided to all prequalified consultants on November 16, 2021.

The proposal must not exceed four (4) pages total to address the pertinent topics. Proposals submitted shall also include completed and signed Special Attachment No. 8 ("Tax Clearance Certificate") and a completed and signed Special Attachment No. 10 ("Policy Regarding Sexual Harassment"). Subconsultants will need to complete these attachments as well. These Special Attachments do not count against the page limit.

Selection Process

Per standard KDOT consultant selection process, consultants will be selected based on qualifications from the

technical proposal submitted – there will be no interview phase. The selected consultant will proceed quickly through scoping, fee negotiation, and to NTP. Fee negotiation will include estimates for Preliminary Engineering and Final Design; there will not be a contract pause for final design negotiation after Field Check.

Technical proposals will be evaluated based on the factors listed below to select the most qualified firms. All evaluation factors are weighted equally.

Evaluation Factors

Qualifications and experience
Past performance
Delivery process: approach to schedule
Familiarity with KDOT design procedures
Understanding of technical complexities for project site

The selected firm will be asked to enter into negotiations with KDOT for an agreement. In the event KDOT cannot reach agreement with a selected firm, it will terminate negotiations and commence negotiations with the next highest ranked firm, and so on, until either agreement is reached for a satisfactory scope of services for a fair and reasonable price, or KDOT decides to pursue other alternatives.

The firm's accounting systems must have the following capabilities before the firm may be awarded a contract.

- Valid, reliable, and current costs must be available within the system to support actual costs and pricing data
- Capability to provide a means of measuring the reasonableness of incurred costs
- Capability to identify and accumulate allowable costs by contract or project records which will reconcile with the general ledger
- Ability to provide supporting documentation of actual expenditures for each billing, based on costs

Department of Transportation

Notice to Consulting Firms

The Kansas Department of Transportation (KDOT) is seeking a consulting firm for the project listed below. Interested consulting firms must be prequalified by KDOT in the following categories: (a) Category 211 Highway Design – Major Facility, and (b) 302 – Engineering Survey. A PDF response (2 Mb maximum size) must be emailed to [kdot.designcontracts@ks.gov](mailto:kdot.designcontracts@ks.gov), Attention: Marcia Turner, P.E., Assistant Contracts Engineer. Proposal responses are limited to four (4) pages; the subject line of the reply email and the PDF file name must read "I-35 CMP Rehabilitation\_FIRM NAME." Submission of a proposal is required for consideration and must be received by 12:00 p.m., December 3, 2021, for the consulting firm to be considered.

If a firm is not currently prequalified by KDOT, a proposal may still be submitted. Firms not prequalified must also provide documentation that demonstrates the firm is qualified for each specified category listed in this notice for the project. Firms may use the KDOT prequalification form to provide this documentation. KDOT 1050 Prequalification category definitions (Blue Book) can be found at <http://www.ksdot.org/descons.asp>. All firms doing business with KDOT must be registered and in good standing under the laws of the State of Kansas at the time of contracting and must comply with applicable state and federal laws, rules, and regulations.

**Background and Scope of Project**

This corrugated metal crossroad pipe (CMP) rehabilitation project has been identified as a potential preservation project in the Eisenhower Legacy Transportation Program. KDOT has determined approximately 70 existing CMPs along I-35, through the limits defined in Table 1 below, are in varying states of deterioration and may require rehabilitation or replacement. A majority of the pipe installations are broken back. KDOT is targeting a potential letting in early calendar year 2023. Available as-built plans can be downloaded from [https://secftp.ksdot.org/public/file/Lh\\_Lj-DA0EK4VkbVOIbwfQ/35-30ka-6076-01OldPlans.zip](https://secftp.ksdot.org/public/file/Lh_Lj-DA0EK4VkbVOIbwfQ/35-30ka-6076-01OldPlans.zip).

Please contact [kdot.designcontracts@ks.gov](mailto:kdot.designcontracts@ks.gov) with questions about or problems accessing the site.

**Table 1: CMP Rehabilitation**

Route and Scope	Length	Project Termini
I-35 Franklin CMP Rehabilitation	~20.6 road mi	Osage/Franklin County line to Junction I-35/U-59

**Scope of Services to be Performed**

KDOT is seeking consultant services for a three-phase project approach to deliver this project. KDOT intends to select the most highly qualified firm to perform professional services associated with the design and execution of this rehabilitation project.

In Phase I, the consultant will study the existing CMPs and provide recommendations for KDOT evaluation. KDOT anticipates the following activities in Phase I:

- Visit the project site locations and inspect with camera(s) the full length of CMPs as well as inlet and outlet structures
  - Information for site visit planning purposes: Overlay of I-35 in this area will be taking place in 2022 construction season (no consultant scope is contemplated herein related to that effort)
- Provide KDOT with a prioritized list of locations requiring rehabilitation or replacement. At each location provide prioritized recommendations: no action, rehabilitation, or replacement. Recommendations will consider cost, hydraulic capacity, service life, schedule for completion of work, and impact to lane restrictions on I-35. Consultant shall take steps to understand and consider all appropriate varieties of actively employed technical approaches to pipe rehabilitation and replacement
- Provide a construction cost estimate
- Provide recommendations for new inlet and end treatment type(s) as needed

If the project progresses to Phase II and consultant is retained, the consultant will prepare letting documents for CMP rehabilitation or replacement. KDOT anticipates the following activities in Phase II:

- Develop construction package including plan sheets, detail sheets for rehabilitation or replacement/reconstruction options developed, traffic control phasing, quantities, specifications, and special provisions
- Construction package may include bid alternates and/or performance specifications for recommendations identified during Phase 1. Construction package may include contractor opportunity for alternative technical concepts

If the project progresses to Phase III and consultant is retained, KDOT anticipates the following consultant activities in Phase III:

- Construction phase services including shop drawing review, responding to RFIs, and attendance at critical coordination meetings, including preconstruction meeting

**Special Conditions**

Project Manager Consultant (PMC)

The study and subsequent construction project(s) are being managed by a PMC on behalf of KDOT. The PMC will be the primary contact for the selected firms.

Schedule Reporting

Project schedule will be developed during project negotiation. A basic schedule template, prepared by the PMC, will be reviewed and specific dates will be defined by the consultant in order to achieve the critical milestones. Monthly schedule progress reports and updates will be required throughout the project from the consultant and reviewed with the PMC to track progress for KDOT.

Quality Control

The consultant will be required to provide a Quality Control (QC) plan at project kick-off. QC audits will be conducted by the PMC throughout the project. The audits will check compliance with Consultant’s QC plan.

**Schedule**

The project is anticipated to be let in FY 2023; therefore, KDOT requests the design activities be scheduled to deliver complete plans by October 2022. This project will follow a modified delivery schedule anticipating no right-of-way efforts or environmental permitting are needed.

**Instructions for Proposal**

No cost or pricing information shall be submitted with the proposal. A PDF response (2 Mb maximum size) must be emailed to [kdot.designcontracts@ks.gov](mailto:kdot.designcontracts@ks.gov), Attention: Marcia Turner, P.E., Assistant Contracts Engineer. Proposal responses are limited to four (4) pages (not including the cover letter) to address the topics listed in Table 2 below; the subject line of the reply email and the PDF file name must read “I-35 CMP Rehabilitation\_FIRM NAME.” Submission of a proposal is required for consideration and must be received by 12:00 p.m. (CST), December 3, 2021. Questions can be submitted until No-

Subconsultants will need to complete these attachments as well. These Special Attachments do not count against the page limit.

**Selection Process**

Proposals including cost or pricing information will not be considered in the selection process to rank proposals. Per standard KDOT consultant selection process, consultants will be selected from the technical proposal submitted – there will be no interview phase.

Proposals will be evaluated based on the factors listed in Table 3.

**Table 3: Evaluation Factors**

Evaluation Factor	Weighting
Qualifications and experience, including experience with performance specifications, alternative technical concepts, and innovative rehabilitation solutions	30%

The KDOT Consultant Selection Committee will select the most highly qualified firm expressing interest based on factors listed in Table 3. The PMC will not be on the KDOT Consultant Selection Committee. The selected consultant will proceed quickly through scoping, fee negotiation, and to notice to proceed. Fee negotiation will include separate estimates for Phase I Study, Phase II

Construction Package Delivery, and Phase III Construction Services.

The selected firm will be asked to enter into negotiations with KDOT for an agreement. In the event KDOT cannot reach agreement with the selected firm, it will terminate negotiations and commence negotiations with the next highest ranked firm, and so on, until either agreement is reached for a satisfactory scope of services for a fair and reasonable price, or KDOT decides to pursue other alternatives.

**Contract Terms and Conditions**

A standard KDOT agreement for engineering and technical services will be used for this project. Special attachments for the Kansas "Tax Clearance Certificate," the "Certification of Final Indirect Costs," and the Special Attachment No. 10 ("Policy Regarding Sexual Harassment") will also eventually become attachments to the contract.

The firm's accounting systems must have the following capabilities before the firm may be awarded a contract:

- Valid, reliable, and current costs must be available within the system to support actual costs and pricing data
- Capability to provide a means of measuring the reasonableness of incurred costs
- Capability to identify and accumulate allowable costs by contract or project records which will reconcile with the general ledger
- Ability to provide supporting documentation of actual expenditures for each billing, based on costs
