Wichita State University

Notice of Intent to Lease Real Property

Public notice is hereby given that Wichita State University (WSU), directly or through its affiliate corporation Wichita State Innovation Alliance, Inc., intends to lease, subject to all required state approvals, up to 1.22 acres of real property located on the northwest corner of the intersection of Fountain Avenue and 21st Street North, directly adjacent to the Wichita State University campus. This location would be designated for private development committed to supporting broadband infrastructure and Internet exchanges. The university is interested in leasing such ground to any individual,

organization, or entity whose presence would advance WSU’s vision or its mission as an educational, cultural, and economic driver for Kansas and the greater public good. WSU intends to lease such space for a mutually agreeable period of time, but extended terms and renewal options would be considered. Interested tenants must be willing to be a good fit with WSU’s educational mission and identify anticipated benefits to the university, its students, and the surrounding community (i.e. applied learning, joint research, faculty start-up, WSU curriculum or program support, community benefit commitments, etc.), and must agree to the essential ground lease terms and restrictive covenants. Interested tenants will be evaluated on: proposal terms, demonstrated benefit to WSU and the surrounding community, design concepts, financial stability, and proposed use. Interested tenants will be responsible for all costs associated with the development and ongoing maintenance costs of any improvements. Rental rate shall be based on fair market value and negotiable based on term of lease, purpose/use of the improvement, and benefit to WSU. WSU will consider serious offers and inquiries from any financially qualified individual, group, organization. If interested, please contact Property Manager Crystal Stegeman at crystal.stegeman@wichita.edu. This publication is being published pursuant to K.S.A. 75-430a(d), to the extent applicable.

**State of Kansas
Department of Health and Environment**

Notice of Proposed Kansas Air Quality Prevention of Significant Deterioration Construction Permit Modification

Notice is hereby given that the Kansas Department of Health and Environment (KDHE) is soliciting comments regarding a revision to a previously issued air quality construction permit. The Empire District Electric Com-

pany – Riverton Power Station (Empire) applied for an air quality construction permit in accordance with the provisions of K.A.R. 28-19-300 to modify the Prevention of Significant Deterioration (PSD) construction permit CSD00086 v1.1 last modified on August 30, 2023 to allow for two annual tuning events using fuel oil in the simple cycle combustion turbine, designated as Unit No. 10, at their fossil fuel electric power generation facility located at 7240 SE K-66 Hwy., Riverton, Cherokee County, KS 66770. Emission of particulate matter (PM), PM equal to or less than 10 microns in aerodynamic diameter (PM₁₀), PM equal to or less than 2.5 microns in aerodynamic diameter (PM_{2.5}), volatile organic compounds (VOC), oxides of nitrogen (NO_x), sulfur oxides (SO_x), carbon monoxide (CO), hazardous air pollutants (HAPs), and lead were evaluated during the permit review process.

This permit modification (CSD00086 v1.2) is to be issued in accordance with the provisions of K.A.R. 28-19-350, *Prevention of Significant Deterioration of Air Quality*, which adopt the federal standards, procedures, and requirements of 40 CFR 52.21 by reference. These air quality regulations apply to major stationary emission sources located in areas designated as “attainment” under the federal Clean Air Act (CAA). Attainment areas are areas where the air quality meets or is better than the national ambient air quality standards (NAAQS).

The revisions proposed by Empire does not require a reevaluation of the best available control technology (BACT). Less than significant increases will occur in emissions of all regulated new source review (NSR) pollutants as a result of the proposed revisions to the construction permit.

The PSD regulations require evaluation of emission reduction techniques to identify the BACT for each pollutant for which the emission rate exceeds the PSD significant level. The purpose of BACT is to affect the maximum degree of reduction achievable, taking into account energy, environmental, and economic impacts for each pollutant under review. Evaluation of the estimated emissions for the proposed tuning events indicates that the emission rate of NO_x, SO_x, CO, PM, PM₁₀, PM_{2.5}, VOC, HAPs, and lead compounds do not exceed the PSD significance levels. The department has reviewed the previous BACT analyses and determined that the existing BACT requirements for Unit No. 10 will remain valid with the allowance of the requested tuning events.

Given that this request provided by Empire is identical for Unit No. 11 and the permit modifications are occurring within a similar timeframe, KDHE has determined that the allowance of the two annual tuning events in both Unit No. 10 and Unit No. 11 meets the 2009 NSR Aggregation Action description of substantially related activities and require a new NSR review to determine if the aggregate emissions from the project would result in significant emissions increase under the NSR program. However, the project emissions increase from the tuning events for both units does not equal nor exceed the PSD significance levels for any regulated NSR pollutant.

No assessment of visibility impacts at a Class I Area was performed by the facility because there are no Federal Class I areas located within 300 km of the proposed
(continued)

facility. The facility did not conduct a visibility impact analysis for a local Class I area because the proposed modification does not exceed the PSD significance level and is not expected to impact visibility.

A public comment period has been established to allow citizens the opportunity to express any concerns they may have about this proposed permitting action. The public comment period is to begin on Thursday, February 22, 2024, and end by 12:00 p.m. Monday, March 25, 2024. All comments should be submitted in writing to Arwa Alrefaai, KDHE/Bureau of Air, 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366 or presented at a public hearing.

Any member of the public may request to hold a public hearing to receive comments on the proposed issuance of the draft air quality construction permit. Written request to hold a public hearing should be sent to the attention of Arwa Alrefaai, KDHE/Bureau of Air, 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366 or by fax to 785-559-4256 and must be received by 12:00 p.m. Monday, March 25, 2024.

A copy of the proposed permit, permit application, all supporting documentation, and all information relied upon during the permit application review process are available for public review for a period of 30 days from the date of publication during normal business hours (8:00 a.m. to 5:00 p.m.) at the KDHE, Bureau of Air (BOA), 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366. Also, a copy of the proposed permit only can be reviewed, at the KDHE Southeast District Office, 308 W. 14th St., Chanute, KS 66720. To obtain or review the proposed permit and supporting documentation, contact Arwa Alrefaai at the central office of KDHE at 785-368-7030, and to review the proposed permit only, contact Ryan Jack in the Southeast District Office at 620-431-2390. The standard departmental cost will be assessed for any copies requested. The proposed permit, accompanied with supporting information, is available, free of charge, at the KDHE BOA Public Notice website at <https://www.kdhe.ks.gov/413/Public-Notices>.

Notice of Proposed Kansas/Federal Water Pollution Control Permits and Applications

In accordance with Kansas Administrative Regulations 28-16-57a through 63, 28-18-1 through 17, 28-18a-1 through 31 and 33, 28-16-150 through 154, 28-46-7, and the authority vested with the state by the administrator of the U.S. Environmental Protection Agency, various draft water pollution control documents (permits, notices to revoke and reissue, notices to terminate) have been prepared and/or permit applications have been received for discharges to waters of the United States and the state of Kansas for the class of discharges described below.

The proposed actions concerning the draft documents are based on staff review, applying the appropriate stan-

dards, regulations, and effluent limitations of the state of Kansas and the Environmental Protection Agency. The final action will result in a Federal National Pollutant Discharge Elimination System Authorization and/or a Kansas Water Pollution Control permit being issued, subject to certain conditions, revocation, and reissuance of the designated permit or termination of the designated permit.

Las acciones propuestas con respecto a los documentos preliminares se basan en la revisión del personal, aplicando los estándares, regulaciones y limitaciones de efluentes apropiados del estado de Kansas y de la Agencia de Protección Ambiental de Estados Unidos. La acción final resultará en la emisión de una Autorización Federal del Sistema Nacional de Eliminación de Descargas de Contaminantes y un permiso de Control de Contaminación del Agua de Kansas, sujeto a ciertas condiciones, revocación y reemisión del permiso designado o terminación del permiso designado. The proposed action consists of reissuance of an existing Kansas/NPDES Water Pollution Control permit for an existing facility. This is an existing public water treatment plant which currently operates a 1 MGD water filtration plant. A pre-sedimentation basin near the river provides primary solids removal. The pre-sedimentation basin does not have an overflow or discharge line. Potassium permanganate can be added to the pre-sedimentation basin. Carbon is fed manually for odor issues when needed. Copper Sulfate is added intermittently during the summer for algae control. The water treatment plant consists of polymer addition clarification, filtration, chlorine addition and contact ammonia addition, prior to pumping finished water to the water distribution system. The proposed permit contains limits Total Residual Chlorine, Total Suspended Solids, and pH. The proposed permit monitors for Total Recoverable Copper, and Total Sulfate.

The proposed action consists of modification of a Kansas Water Pollution Control/NPDES permit for an existing facility for an expanded design flow. The existing permit was issued for a design flow of 1.30 MGD and included technology based effluent limits for Biochemical Oxygen Demand (BOD), Total Suspended Solids (TSS) and pH, and water quality based effluent limits for ammonia, E. coli, Whole Effluent Toxicity (WET), and total phosphorus mass loading. Monitoring for nutrients (with concentration goals), priority pollutants, and flow was also required. The proposed permit contains limits Biochemical Oxygen Demand, Total Suspended Solids, pH, Ammonia, E. coli, and Whole Effluent Toxicity. The proposed permit monitors for Dissolved Oxygen, Total Kjeldahl Nitrogen, Total Nitrogen, and Total Phosphorus. In compliance with Kansas and federal law, KDHE has approved an antidegradation review for this new facility of increased concentrations and mass of some pollutants to the receiving stream. The water quality of the receiving stream will no be lowered below the quality necessary to support existing designated uses.

Persons wishing to comment on or object to the draft documents and/or permit applications must submit their comments in writing to the Kansas Department of Health and Environment (KDHE) if they wish to have the comments or objections considered in the decision-making process. All written comments regarding the draft documents, application or registration notices received on or before March 23, 2024, will be considered in the formulation of the final determination regarding this public notice. Please refer to the appropriate Kansas document number (KS-AG-24-036/045, KS-Q-24-018/023) and name of the applicant/permittee when preparing comments.

All comments received will be responded to at the time the Secretary of Health and Environment issues a determination regarding final agency action on each draft document/application. If response to any draft doc-

ument/application indicates significant public interest, a public hearing may be held in conformance with K.A.R. 28-16-61 (28-46-21 for UIC). A request for public hearing must be submitted in writing and shall state the nature of the issues proposed to be raised during the hearing.

Comments or objections for agricultural related draft documents, permit applications, registrations or actions should be submitted to the attention of Casey Guccione, Livestock Waste Management Section at the KDHE, Bureau of Environmental Field Services (BEFS), 1000 SW Jackson, Suite 430, Topeka, KS 66612. Comments or objections for all other proposed permits or actions should be sent to Andrew Bowman at the KDHE, Bureau of Water, 1000 SW Jackson St., Suite 420, Topeka, KS 66612.

All draft documents/applications and the supporting information including any comments received are on file and may be inspected at the offices of the KDHE. For agricultural related draft documents or applications an appointment can be scheduled, or copies requested by contacting Jada Martin at 1000 SW Jackson St., Suite 430, Topeka, KS 66612, telephone 785-296-0076 or email at kdhe.feedlots@ks.gov. Las preguntas o comentarios por escrito deben dirigirse a Erich Glave, Director, Bureau of Environmental Field Services en KDHE: 1000 SW Jackson St., Suite 430, Topeka, KS 66612-1367; por correo electrónico: kdhe.feedlots@ks.gov; por teléfono: 785-296-6432. For all other proposed permits or actions an appointment can be scheduled, or copies requested by contacting Jamie Packard, Bureau of Water, 1000 SW Jackson St., Suite 420, Topeka, KS 66612, telephone 785-296-4148 or email at Jamie.Packard@ks.gov. These documents are available upon request at the copying cost assessed by KDHE. Application information and components of plans and specifications for all new and expanding swine facilities are available at <http://www.kdhe.ks.gov/livestock>. Notice to Contractors

Electronic copies of the letting proposals and plans are available on the Kansas Department of Transportation (KDOT) website at <https://kdotapp.ksdot.org/Proposal/Proposal.aspx>. The website will allow the contractor to request approval from KDOT to bid as a prime contractor and be included on the "Bid Holders List," or to be included on the "Non-Bid Holders List" as a subcontractor/supplier. KDOT's approval is required to bid as a prime contractor. To bid as a prime contractor, KDOT needs to be notified of the intent to bid no later than the close of *(continued)*

business on the Monday preceding the scheduled letting date. Failure to obtain prior approval to bid as a prime contractor on any projects listed below will be reason to reject your bid. The Secretary reserves the right to reject bids that do not comply with all requirements for preparing a bidding proposal as specified in the 2015 edition of the Kansas Department of Transportation Standard Specifications for State Road and Bridge Construction.

KDOT will only accept electronic Internet proposals using the Bid Express website at <https://bidx.com/ks/main> until 1:00 p.m. (Central Time) on letting day. The KDOT bid letting will be conducted remotely by audio broadcast only at 3:00 p.m. (Central Time) on letting day. For the conference call information see <https://www.ksdot.org/bureaus/burconsmain/lettinginfo.asp>. KDOT has tested the process, but in the event of an unforeseen issue, KDOT will provide updates.

Each bidder shall certify that such person, firm, association, or corporation has not, either directly or indirectly, entered into any agreement, participated in any collusion, or otherwise taken any action in restraint of free competitive bidding in connection with the submitted bid. This certification shall be in the form of a required contract provision provided by the state to each prospective bidder. Failure to complete the required contract provision and certify the completeness of the preceding statement when electronically signing the proposal will make the bid nonresponsive and not eligible for award consideration.

(Published in the Kansas Register February 22, 2024.)

South Kansas & Oklahoma Railroad

Request for Proposals

Interested parties are invited to submit a proposal to complete the below scope of repairs for the South Kansas & Oklahoma (SKOL) Railroad.

Scope of Work

CWR Relay consisting of 7,920 track feet (MP 214.5 – 216.0) between Grenola, Kansas and Cambridge, Kansas. Provide all necessary labor, equipment, and logistical services to supply all installation/changeout services called for to complete this project.

Project includes:

- Unload and install 15,840 linear feet of 132# Rail (All sticks will be 39' sticks drilled: blank x 6" x 6").
- Surface 7,920 feet of track:
 - All rail replaced during this project, shall be discussed in depth at the pre-proposal meeting.
- Provide and install all welds needed for job completion. The use of a flashbutt truck is required.
- OTM and ballast to be provided by Watco but unloaded with the assistance of the contractor – transition rails, straight bars, bolt assemblies, spikes, spike plugs, anchors, and any replacement plates.
- All OTM that is removed shall be stacked in an organized manner in Grenola, Kansas, unless otherwise instructed by the railroad representative. Any material deemed non-salvageable shall be disposed of according to all local and state laws and regulations.
- New rail installation will need to be adjusted/heat-treated to obtain the proper rail neutral temperature of or at the minimum of 105°F in compliance with SKOL Rail CWR Policy where not otherwise stated, the minimum AREMA Standards. Refer to Watco's CWR Policy and Procedures for any additional information.
- Additional details concerning the scope of work needing to be done with each portion of the project, will be addressed in the pre-proposal meeting.

Minimum Requirements

MSA and Roadway Worker Protection

- Contractors must complete, and have on file, a current Master Services Agreement with SKOL Railroad prior to starting work. Prior to submitting a proposal.
- Contractors shall always comply with all parts of 49 CFR Part 214 and 219 regarding FRA Roadway Worker Safety. Workers and equipment shall remain clear of the track unless they have gained Roadway Worker Protection from a qualified person.
- Contractor, contractor employees, agents, and/or subcontractors must be enrolled and comply with the FRA 219 approved drug testing program.
- Any sub-contracted work will need to be approved by the SKOL Railroad prior to any work starting.
- All Contractors will be required to complete WATCO Contractor Orientation at <https://watcocontractor.com/>. Any contractor who was previously enrolled in e-SHORTLINE with WATCO in the past, will be required to complete the WATCO Contractor Orientation. A RWIC qualified roadway worker must be on site at all times. This qualification can be obtained through the WATCO contractor website.

Work Windows

Impact to current railroad operations must be kept to a minimum. When work must take place that causes an active track to be taken out of service for the purposes of performing work that pertains to the project, the contractor must pre-arrange a defined work window with the railroad. Contractor can anticipate a maximum work window of 10 hours between the hours of 9:00 and 19:00. Work

(continued)

windows may be arranged seven days a week, if desired. The SKOL will not be operating trains over the weekend in this area. This topic will be further discussed during the pre-proposal meeting, as operations may change.

Standards

All standards referenced by the project plans and specifications, as well as all applicable AREMA standards must be upheld during all phases of the project work, unless certain standards are excluded from the project with written approval by the SKOL Railroad. All rails shall be replaced at standard gauge of 56-1/2".

Submittals

The following documents shall be submitted by the contractor as part of the project at the times listed:

- Schedule of Work – Submitted with proposal.
- Certificate of Insurance – Submitted prior to construction.
- Safety Plan – Submitted prior to construction.
- Proof of Roadway Worker Training – Submitted prior to construction.

Other Responsibilities

- Permits – Contractor is responsible for all federal, state, and local permits required for the work. Additional permit information will be covered at the pre-proposal meeting.
- Utilities – Contractor is responsible to locate and protect site utilities.
- Site Clean-up – Contractor is responsible for proper site restoration and proper disposal of materials, trash, containers, etc., must be disposed of in accordance with all local, state, and federal laws.

Insurance

Contractor shall purchase required coverage and submit for verification a Certificate of Insurance.

Materials

All materials shall meet the requirements found in the project plans and/or specifications as well as applicable AREMA requirements. Material storage is granted on railroad right of way to the contractor. However, no materials shall be stored closer than 15 feet from the centerline of any active track at any time. Material and equipment laydown areas and reclaimed materials stockpiling locations shall be discussed and further clarified at the pre-proposal meeting. All removed materials will be disposed of accordingly by the contractor unless otherwise arranged with the SKOL Railroad.

Non-Project Areas

The SKOL Railroad has secured access to the project through the railroad right of way. Other access may be obtained by the contractor if he/she so chooses. All areas (public, private, and railroad right of way) that are used for access to the project, including parts of the railroad right of way which have no proposed work, shall be maintained and/or remediated, incidental to the project, by the contractor to the satisfaction of the property owner if any damage to these areas occurs.

Pre-Proposal Meeting

The SKOL Railroad (Watco) shall hold a pre-proposal meeting at 9:00 a.m. (Central Time) Tuesday, March 12,

2024, to address any questions or clarify any portions of the project tasks. Please reach out to Mike Mulnix for specific meeting details.

Project Completion

It is expected the contractor must start construction no later than 60 days after being awarded the bid (dependent upon material deliveries) and complete the project within an agreed upon timeline. Prior to the completion of the project, there will be a 3rd party final inspection. If there are any issues with the quality of work, the contractor will be responsible for fixing any issues found at cost to them. A NTP is in effect on this project – planned construction timeline is slated for completion in May 2024.

Submission of a Proposal

All proposals must be submitted no later than 4:00 p.m. (Central Time) Thursday April 12, 2024. All submitted proposals shall be reviewed by the SKOL Railroad. Please ensure your proposal includes all required information. All incomplete proposals shall be rejected. The structure of your proposal must be able to be clearly understood, all proposals shall provide the following line items and provide costs as required below:

- Provide a total sum of all line items on the proposal.
- Mobilization and Demobilization – Lump sum.
- Labor (Install) for each line item; include all applicable taxes.
- RRPL Insurance – Lump sum.

For further information or questions regarding the Request for Proposals or submittal of a proposal, please contact:

- Mike Mulnix, SKOL Roadmaster, phone 620-330-7415, email mmulnix@watco.com
- Jerod Gofourth, Assistant SKOL Roadmaster, phone 620-515-1809, email jgofourth@watco.com
- Cody McGee, Division Engineer, phone 217-855-4107, email cody.mcgee@watco.com

Work Reporting

Daily work reports must be filled out and submitted to Mike Mulnix – SKOL Roadmaster, Jerod Gofourth – SKOL Assistant Roadmaster, and Cody McGee – Division Engineer. Those reports should include updates to project schedules, any delays and/or changes in the scope of work. A detailed summary report must be submitted upon the completion of the project.

Doc. No. 051890

State of Kansas

Department of Health and Environment

Notice of Hearing on Proposed Administrative Regulations

The Kansas Department of Health and Environment (KDHE), Division of Environment, Bureau of Water, will conduct a public hearing at 10:00 a.m. Thursday, May 16, 2024, Azure Conference Room, fourth floor, Curtis State Office Building, 1000 SW Jackson, Topeka, Kansas, to consider the adoption of proposed KDHE Article 45 amended, new, and revoked regulations regarding underground hydrocarbon storage wells and associated brine ponds and to consider the proposed revocation of all of the Article 45b regulations regarding underground crude oil storage wells and associated brine ponds.

A summary of the proposed regulations and estimated economic impact follows:

The proposed amended Article 45 regulations **K.A.R. 28-45-2a, 28-45-3a, 28-45-4a, 28-45-5a, 28-45-6a, 28-45-7a, 28-45-8a, 28-45-9a, 28-45-10a, 28-45-11a; 28-45-12 through 28-45-23; 28-45-28, and 28-45-30** update defined terms,

specify permit requirements, clarify requirements for the reentry and conversion of a storage well, clarify and update permit application requirements and the permit renewal process, clarify the public notice process, clarify the process for transfer of a permit and the process for minor modifications to a permit, add signatory authority language and update financial assurance requirements consistent with other KDHE bureau of water programs, specify and update storage well construction and operation requirements, clarify compliance requirements for storage well and cavern monitoring and testing including required plans and reports, specify requirements for groundwater monitoring, specify requirements for records retention, update requirements for plugging and abandonment, specify facility, storage well, and permit application fees, specify requirements for permitting a brine pond associated with a storage facility, specify construction requirements for a brine pond, specify requirements for brine pond decommissioning.

The proposed new Article 45 regulation **K.A.R. 28-45-31** specifies the procedure for requesting a variance for determination by the secretary to any requirement of Article 45 regulations.

The Article 45 regulations **K.A.R. 28-45-24, 28-45-25, 28-45-26, 28-45-27, and 28-45-29** are proposed for revocation because the requirements of these regulations are combined with other proposed Article 45 amended regulations.

The regulations **K.A.R. 28-45b-1 through 28-45b-28** are proposed for revocation because the current regulations for underground hydrocarbon storage and underground crude oil storage are essentially the same. The Article 45b regulations have been incorporated into the proposed Article 45 regulations that regulate underground hydrocarbon storage wells and associated brine ponds. The proposed Article 45 regulations streamline similar operational needs and processes within the industry and render Article 45b regulations redundant, no longer relevant, and therefore proposed for revocation.

Economic Impact

Cost to the agency: There are no increased costs to the agency from the proposed Article 45 regulations as they will increase efficiencies and reduce the amount of paperwork and associated costs for the agency. There is no cost to the agency from the revocation of Article 45b regulations as there are no permit applications or permit holders under Article 45b.

Cost to the public and regulated community: Although a specific dollar cost estimate cannot be given, it is anticipated that the long-range economic impact of the proposed Article 45 regulations will positively affect individuals, small employers, and the general public. The proposed Article 45 regulations will enhance underground hydrocarbon storage business activities and growth that will bring job opportunities to central Kansas and economic benefits to the entire state.

For underground hydrocarbon facilities, the only added cost from the proposed Article 45 amendments will be the cost of renewing a facility permit every 10 years that ranges from approximately \$10,000 to \$30,000, an es-

(continued)

estimated \$3,000 per year for each facility. Since there are currently 10 permitted facilities, the total annual implementation and compliance costs from the proposed Article 45 regulations will be \$30,000.

There are no costs to affected businesses, local governments, or members of the public resulting from the proposed revocation of the Article 45b regulations.

Costs to other governmental agencies or units: There will be no costs related to the proposed Article 45 regulations and the proposed revocation of the Article 45b regulations that are reasonably expected to be incurred by other governmental agencies or units.

A detailed economic impact is provided in the Economic Impact Statement for the proposed Article 45 regulations and the Economic Impact Statement for the proposed revocation of the Article 45b regulations that are available from the designated KDHE contact staff person or at the KDHE Underground Hydrocarbon Storage Program website, as listed below.

The time period between the publication of this notice and the scheduled hearing constitutes a 60-day public comment period for the purpose of receiving written public comments on the proposed regulations. All interested parties may submit written comments prior to 5:00 p.m. on the day of the hearing to Sue Funk, Kansas Department of Health and Environment, Bureau of Water, Curtis State Office Bldg., 1000 SW Jackson, Suite 420, Topeka, KS 66612 or by email to Sue.Funk@ks.gov. Interested parties are encouraged to participate in the public hearing by submitting written comments.

During the hearing, all interested parties will be given a reasonable opportunity to present their views orally on the proposed regulations as well as an opportunity to submit their written comments. It is requested that each individual giving oral comments also provide a written copy of the comments for the record. In order to give each individual an opportunity to present their views, it may be necessary for the hearing officer to request that each presenter limit an oral presentation to an appropriate time frame.

Complete copies of the proposed Article 45 regulations and the revocations of the Article 45b regulations and the corresponding economic impact statements and environmental benefit statements may be obtained from the KDHE Underground Hydrocarbon Storage Program website at <https://www.kdhe.ks.gov/315/Underground-Hydrocarbon-Storage-Program> or by contacting Sue Funk at Sue.Funk@ks.gov or at 785-296-6803. Questions pertaining to the proposed regulations should be directed to Sue Funk at the contact information above.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and the economic impact statements and environmental benefit statements in an accessible format. Requests for accommodation to participate in the hearing should be made at least five working days in advance of the hearing by contacting Sue Funk.
