Juvenile Justice Authority

Notice of Hearing on Proposed Administrative Regulations

The Juvenile Justice Authority will conduct a public hearing from 10 to 11 a.m. Wednesday, September 1, in the training room, third floor, 714 S.W. Jackson, Topeka, to consider adopting a proposed permanent rule and regulation concerning trafficking in contraband in a juvenile correctional facility.

This 60-day notice of the public hearing constitutes a public comment period for the purpose of receiving written public comments on the proposed regulation. All interested parties may submit written comments prior to the hearing to J. Russell Jennings, Commissioner, 714 S.W. Jackson, Suite 300, Topeka, 66603, or jjja@jja.ks.gov. All interested parties will be given a reasonable opportunity to present their views orally at the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request each participant to limit any oral presentation to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulation and economic impact statement in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Sara Lawson at (785) 296-4213, slawson@jja.ks.gov, or the Kansas Relay Center at (800) 766-3777. There is designated accessible parking on Jackson Street.

A copy of the full text of the regulation may be reviewed or obtained at the Juvenile Justice Authority’s office or its Web site at <http://www.jja.ks.gov>. The following is a summary of the proposed regulation and economic impact statement:

K.A.R. 123-2-111 defines and outlines trafficking in contraband in a juvenile correctional facility.

Economic impact: This regulation requires no additional resources for the Juvenile Justice Authority. It is possible that this regulation might result in additional adult prison admissions, but such costs cannot be determined. Convictions obtained would necessarily fall within a “border box” of the Kansas sentencing guidelines act and incarceration would be at the discretion of the court.

Department of Health
and Environment

Request for Comments

The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality construction permit. Sunflower Electric Power Corporation (Sunflower), located at 301 W. 13th St., Hays, has applied for an air quality construction permit in accordance with the provisions of K.A.R. 28-19-300 to construct one (1) new 895 MW coal-fired steam generating unit and associated ancillary equipment (Holcomb expansion) at its generating station located at 2440 Holcomb Lane, Holcomb. Emission of particulate matter (PM), PM equal to or less than 10 microns in diameter (PM₁₀), PM equal to or less than 2.5 microns in diameter (PM_{2.5}), volatile organic compounds (VOCs), oxides of nitrogen (NO_x), sulfur dioxide (SO₂), carbon monoxide (CO) and sulfuric acid mist (H₂SO₄) were evaluated during the permit review process.

The proposed permit is to be issued in accordance with the provisions of K.A.R. 28-19-350, prevention of significant deterioration (PSD), which adopt the federal standards, procedures and requirements of 40 CFR 52.21 by reference. These air quality regulations apply to major stationary emission sources located in areas designated as "attainment" under the federal Clean Air Act (CAA). Attainment areas are areas where the air quality meets or is better than the national ambient air quality standards (NAAQS).

The PSD regulations require evaluation of emission reduction techniques to identify the best available control technology (BACT) for each regulated pollutant for which the emission rate exceeds the PSD significant level. The purpose of BACT is to affect the maximum degree of reduction achievable, taking into account energy, environmental and economic impacts for each regulated pollutant under review. Evaluation of the estimated emissions for the proposed Holcomb expansion project indicates that the emission rate of oxides of nitrogen, sulfur dioxide, carbon monoxide, particulate matter, volatile organic compounds and sulfuric acid mist all exceed the significance levels. Sunflower conducted the required BACT analyses. The department has reviewed Sunflower's BACT analyses and concurs with its findings that low NO_x burners and overfire air with selective catalytic reduction is BACT for NO_x, dry flue gas desulfurization (dry FGD) is BACT for SO₂ and H₂SO₄ and fabric filters is BACT for PM, PM₁₀ and PM_{2.5} for the Holcomb expansion project.

An ambient impact analysis was performed on the potential air emissions of NO₂, SO₂, PM₁₀, PM_{2.5} and CO from the Holcomb expansion project.

- The NO₂ screening modeling demonstrated no significant impact on the annual ambient air quality standard and demonstrated that 0.96% of the annual Class II maximum allowable increment for NO₂ is expected to be consumed. Subsequent detailed modeling for the new 1-hour NO₂ ambient air quality standard demonstrates the planned source will not

contribute significantly to any modeled ambient air quality violations. EPA has not established a 1-hour Class II maximum allowable increment for NO₂. Accordingly, no calculation of the potential consumption of such increment is possible.

- Detailed modeling for SO₂ demonstrates that the emissions will not contribute significantly to any violation of the 1-hour, 3-hour, 24-hour, or annual ambient air standards and that 17.4% of the 3-hour, 12.9% of the 24-hour, and 2.75% of the annual Class II maximum allowable increments for SO₂ are expected to be consumed. EPA has not established a 1-hour Class II maximum allowable increment for SO₂. Accordingly, no calculation of the potential consumption of such increment is possible.
- Detailed modeling for PM₁₀ demonstrates that the emissions will not contribute significantly to any violation of the 24-hour or annual ambient air quality standard and that 24.8% of the 24-hour, and 6.18% of the annual Class II maximum allowable increments for PM₁₀ are expected to be consumed.
- Detailed modeling for PM_{2.5} demonstrates that the emissions will not contribute significantly to any violation of the 24-hour or annual ambient air quality standards. EPA has not established 24-hour or annual Class II maximum allowable increments for PM_{2.5}. Accordingly, no calculation of the potential consumption of such increment is possible.
- The CO screening modeling analysis demonstrated no significant impact on the 1-hour or 8-hour ambient air quality and that the emissions would not significantly contribute to any violation of ambient air standards. EPA has not established any Class II maximum allowable increments for CO. Accordingly, no calculation of the potential consumption of such increment is possible.

In June 2007, Sunflower performed a Class I visibility analysis using CALPUFF in response to a November 2006 inquiry by the federal land manager responsible for the Wichita Mountains Class I area. The Holcomb expansion project, as then proposed, included two new units totaling 1400 MW. The analysis determined the projected visibility impacts to be within allowable criteria. In addition, KDHE performed a source-specific CAMx model analysis, which concluded the visibility impacts from the expansion project on the Wichita Mountains Class I area to be within allowable criteria. The visibility impacts of the proposed 895 MW project will be lower than those previously determined. No adverse impacts on soils and vegetation in the area were expected. Any federal land manager who has reason to believe he/she may have a Class I area adversely impacted by the emissions from the expansion project has the opportunity to present KDHE with an analysis of the adverse impact on the air quality-related values of that Class I area during the comment period.

A public comment period has been established until August 15 to allow citizens the opportunity to express any concerns they may have about this proposed permitting action. All comments should be submitted in writing to Melissa Weide, KDHE, Bureau of Air, 1000 S.W. Jack-

son, Suite 310, Topeka, 66612-1366, or presented at the public hearing.

Three public hearings have been scheduled to receive comments on the proposed air quality construction permit. The following schedule has been set:

**August 2 Blue Valley Northwest High School
135th and Switzer, Overland Park**

The public hearing will begin at 2 p.m. and run until all participants present have an opportunity to offer written and/or verbal comments, but not later than 5 p.m. The public hearing will reconvene at 6:30 p.m. and continue until all verbal and/or written comments have been submitted by participants.

**August 4 Highway Patrol Training Center Auditorium

All interested parties will be given a reasonable opportunity to present their views orally or by submission of written materials during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request that each participant limit oral presentations to a specific time limit.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed materials in an accessible format. Requests for accommodation must be made not later than July 23 by contacting Linda Vandevord at (785) 296-6423.

(2) The person completes an enrollment form requesting transfer to the direct bill program and submits the form to the health care benefits program. The form shall be submitted no more than 30 days after the person ceased to be eligible for coverage or, in the case of any individual identified in paragraph (d)(5), no more than 30 days after the first day on which the qualified local unit participates in the local unit plan.

(f) Consolidated omnibus budget reconciliation act (COBRA) participants. Any individual with rights to extend coverage under provisions of public law 99-272, as amended, may participate in the local unit plan, subject to the provisions of that federal law.

(2) An eligible dependent child who is enrolled by one primary participant shall not be eligible to be enrolled by another primary participant in the health care benefits program.

(3) An individual who is eligible to enroll as a primary participant in the health care benefits program shall not be eligible to be enrolled under this subsection as a dependent in the health care benefits program.

(4) The term "dependent" shall exclude any individual who is not a citizen or national of the United States, unless the individual is a resident of the United States or a country contiguous to the United States, is a member of a primary participant's household, and resides with the primary participant for more than six months of the calendar year. The dependent shall be considered to reside with the primary participant even when the dependent is temporarily absent due to special circumstances, including illness, education, business, vacation, and military service.

(C) a stepchild of a primary participant. However, if the natural or adoptive parent of the stepchild is divorced from the primary participant, the stepchild shall no longer qualify;

(continued)

(D) a child of whom the primary participant has legal custody; or

(E) a grandchild, if at least one of the following conditions is met:

(i) The primary participant has legal custody of the grandchild or has lawfully adopted the grandchild;

(ii) the grandchild lives in the home of the primary participant and is the child of a covered eligible dependent child, and the primary participant provides more than 50% of the support for the grandchild; or

(iii) the grandchild is the child of a covered eligible dependent child and is considered to reside with the primary participant even when the grandchild or eligible dependent child is temporarily absent due to special circumstances including education of the covered eligible dependent child, and the primary participant provides more than 50% of the support for the grandchild.

(3) "Eligible dependent child" means any dependent child who meets the criteria in either paragraph (h)(3)(A) or paragraph (h)(3)(B):

(A) The child meets all of the following criteria:

(i) The child is under 23 years of age.

(ii) The child is unmarried.

(iii) The child does not file a joint tax return with another taxpayer.

(iv) The child receives more than 50% of the child's support from the primary participant, except that this criteria shall not apply with respect to any child who meets the conditions established under the special rule for divorced parents in 26 USC § 152(e), as adopted by reference in K.A.R. 108-1-1.

(B) The child is over the age of 23, has a permanent and total disability, and has continuously maintained group coverage as an eligible dependent child of the primary participant before attaining the age of 23. The child shall be chiefly dependent on the primary participant for support.

(i) Direct bill participants; continuous coverage provisions.

(1) Except as otherwise provided in this subsection, each direct bill participant enrolled in the health care benefits program shall maintain continuous coverage in the program or shall lose eligibility to be in the health care benefits program as a direct bill participant under subsection (d).

(2) Any person who discontinued direct bill coverage in the health care benefits program before January 21, 2001 and was not participating on a direct bill basis on that date may return one time to the health care benefits program if the person meets the criteria specified in subsections (d) and (e) and if that person has not previously discontinued and returned to direct bill coverage before January 21, 2001.
