## State of Kansas

## Governmental Ethics Commission

## Opinion No. 2011-01

Written March 23, 2011, to Eric Rucker, Assistant Secretary of State, Topeka.

This opinion is in response to your letter of March 4, 2011, in which you request an opinion concerning Kansas Secretary of State Kris Kobach's ability to receive an honorarium for the presentation of a lecture sponsored by the KU School of Business.

We note at the outset that the Commission's jurisdiction in this case is limited to K.S.A. 46-215 et seq. Thus, whether some other statutory system, common law theory or agency rule and regulation applies to your inquiry is not covered by this opinion.

**Factual Statement:**

Your letter states that on October 20, 2010, the KU School of Business invited Kris Kobach to serve as a speaker for the Spring 2011, J.A. Vickers, Sr. and Robert F. Vickers, Sr. Memorial Lecture. The school was requesting Mr. Kobach's insights as the result of his service as a White House Fellow and as Counsel to the United States Attorney General. The letter to Mr. Kobach indicated that they would like Mr. Kobach to discuss economic development for Kansas and, in a subsequent telephone conversation, also requested Mr. Kobach address immigration policy making. At the time of the invitation, Mr. Kobach was a Professor of Law at the UMKC School of Law. The KU School of Business will provide a cash honorarium to Mr. Kobach should he present this lecture. You ask for this opinion as Assistant Secretary of State to Mr. Kobach.

**Question:**

Based upon the facts presented to the Kansas Governmental Ethics Commission, the question you ask is whether Mr. Kobach, now serving as Kansas Secretary of State, can receive this honorarium for presentation of a lecture for the KU School of Business as well as the acceptance of future honoraria under similar circumstances?

**Opinion:**

K.S.A. 46-237(f) states, "No state officer or employee shall accept any payment of honoraria for any speaking engagement except that a member of the state legislature or a part-time officer or employee of the executive branch of government shall be allowed to receive reimbursement in the preparation for and the making of a presentation at a speaking engagement in an amount fixed by the Commission prior to the acceptance of the speaking engagement. Nothing in this section shall be construed to prohibit the reimbursement of state officers and employees for reasonable expenses incurred in attending seminars, conferences and other speaking engagements."

Secretary of State Kris Kobach is a state officer pursuant to K.S.A. 46-221. The letter from the University of Kansas School of Business inviting Mr. Kobach to speak indicates the University would pay Mr. Kobach an honorarium of \$10,000. Pursuant to K.S.A. 46-237(f), Secretary of State Kobach would be prohibited from accepting this honorarium.

The bond will be issued to assist the borrower named below (who will be the owner and operator of the project) to finance the cost in the amount of the bond, which is then typically purchased by a lender bank who then, through the K DFA, loans the bond proceeds to the borrower for the purposes of acquiring the project. The project shall be located as shown:

**Project No. 000805—Maximum Principal Amount: \$250,000.** Owner/Operator: Joshua J. Kejr. Description: Acquisition of 281 acres of agricultural land and related improvements and equipment to be used by the owner/operator for farming purposes. The bond will be payable solely from amounts received from the respective borrower, the obligation of which will be sufficient to pay the principal of, interest and redemption premium, if any, on the bond when it becomes due.

All individuals who appear at the hearing will be given an opportunity to express their views concerning the proposal to issue the bond to finance the project, and all written comments previously filed with the K DFA at its offices at 555 S. Proposed Action: This action consists of modification of an existing NPDES/Kansas water pollution control permit for an existing facility. The modifications include the addition of additional multimedia reactive filters for iron and manganese removal and a nanofilter system to reduce the hardness in the process water causing scaling in the Class I disposal well. Process wastewater is disposed of through the Class I disposal well and via discharge to surface waters of the state. The modifications will result in an increase in backwash water from the multimedia reactive filters and the nanofilter system. An antidegradation study has been reviewed and approved by KDHE for the increased flow.

Persons wishing to comment on the draft documents and/or permit applications must submit their comments in writing to the Kansas Department of Health and Environment if they wish to have the comments considered in the decision-making process. Comments should be submitted to the attention of the Livestock Waste Management Section for agricultural-related draft documents or applications, or to the Technical Services Section for all other permits, at the Kansas Department of Health and Environment, Division of Environment, Bureau of Water, 1000 S.W. Jackson, Suite 420, Topeka, 66612-1367.

All comments regarding the draft documents or application notices received on or before April 30 will be considered in the formulation of the final determinations regarding this public notice. Please refer to the appropriate Kansas document number (KS-AG-11-051/057, KS-Q-11-023) and name of the applicant/permittee when preparing comments.

After review of any comments received during the public notice period, the Secretary of Health and Environment will issue a determination regarding final agency action on each draft document/application. If response to any draft document/application indicates significant public interest, a public hearing may be held in conformance with K.A.R. 28-16-61 (28-46-21 for UIC).

All draft documents/applications and the supporting information including any comments received are on file and may be inspected at the offices of the Kansas Department of Health and Environment, Bureau of Water. **Article 21.—WESTERN KANSAS GROUNDWATER  
MANAGEMENT DISTRICT NO. 1**

**5-21-4. Safe yield.** (a) Except as specified in subsection (c), the district shall be closed to new appropriations of water in the portions of the unconsolidated aquifers commonly known as the Ogallala formation and the Niobrara formation that are located within the district.

(b) The approval of each application for a change in the point of diversion shall be subject to the following requirements, if the diversion works have not been completed under the original approved application:

(1) The proposed appropriation, when added to the vested rights, prior appropriation rights, and earlier priority applications, shall not exceed the allowable safe yield amount for the area included within a two-mile-radius circle, which is approximately 8,042 acres, of the proposed well.

(2) For the purpose of analysis, all vested rights, certificates, permits, and prior unapproved applications shall be considered to be fully exercised, and all limitation clauses listed on permits to appropriate water and certificates shall be considered to be in force.

(3) In the case of an application for change in the point of diversion referred to in subsection (b), each application and water right with a priority earlier than the priority established by the filing of the application for change shall be included in the analysis.

(4) The allowable annual safe yield amount shall be calculated using the following formula:

$$Q = \frac{AR}{12}$$

Q = the allowable annual safe yield amount in acre-feet per year

A = area of consideration, within a two-mile-radius circle, approximately 8,042 acres

R = average annual recharge of 0.5 inches per year

(5) If part of the radial area is located outside the district boundary, that part shall be included in the depletion analysis only if the chief engineer determines that hydraulically connected groundwater exists in that portion of the area outside the district. A part of the area of consideration lying outside the state of Kansas shall not be included in the analysis.

(6) If wells authorized under a vested right, a certified water right, or a permit to appropriate water are divided by the circumference of the radial area, the authorized quantity of water shall be assigned to each well. If specific quantities are not authorized for each well, a proportional amount shall be assigned to each well.

(c) This regulation shall not apply to the following:

(1) Domestic use;

(2) temporary permits and term permits; and

(3) a new application filed to appropriate groundwater in any area of the district not within an intensive ground-

water use control area, meeting all of the following criteria:

(A) The sum of the annual quantity requested by the proposed appropriation and the total annual quantities authorized by prior permits allowed because of an exemption pursuant to this subsection does not exceed 15 acre-feet in a two-mile-radius circle surrounding the proposed point of diversion.

(B) Well spacing criteria in the area have been met.

(C) The approval of the application does not authorize an additional quantity of water out of an existing authorized well with a nondomestic permit or water right that would result in a total combined annual quantity of water authorized from that well in excess of 15 acre-feet.

(D) All other criteria for approving a new application to appropriate water at that location have been met.

(d) Exceptions to this regulation may be granted on an individual basis by recommendation by the board in conjunction with the approval of the chief engineer. The applicant may be required by the board to submit information necessary in order to make the determination. (Authorized by K.S.A. 82a-706a and K.S.A. 2009 Supp. 82a-1028; implementing K.S.A. 82a-706, K.S.A. 82a-708b, and K.S.A. 2009 Supp. 82a-1028; effective May 23, 1994; amended Sept. 22, 2000; amended April 15, 2011.)
