## Notice of Requested Civil Engineering Services

Notice is hereby given of the commencement of the selection process for civil engineering services for Wichita State University. The university is seeking civil engineering services including associated landscape architectural, MEP and structural engineering consultant support as may be required to provide comprehensive design, construction document, bidding and negotiation, and construction administration and closeout services. The project scope includes the relocation of Perimeter Road north of the new residence hall and dining site (a/k/a Parking Lot. No. 4); redevelopment of Old Yale Drive from a loop road into a pedestrian plaza linkage between the new housing site and central campus; and other associated street, parking lot, hardscape and softscape improve-

ments necessary adjacent to Morrison Hall, Cessna Stadium, Jabara Hall and Hubbard Hall to accommodate pedestrian, vehicular, emergency and service traffic and to create a dynamic sense of place as part of the strategic transformation toward a residential campus in accordance with the developing Master Plan.

For more information contact James Freed at 316-978-3106 or james.freed@wichita.edu. A program is available at <http://www.da.ks.gov/fp/ArchEngPrograms.htm>.

To be considered, one (1) PDF file and one (1) bound proposal of the following should be provided: State of Kansas Professional Qualifications DCC Forms 051-054, inclusive, and information regarding similar projects. State of Kansas Professional Qualifications DCC Form 050 for each firm and consultant should be provided at the end of each proposal. Please include your firm name, agency abbreviation and an abbreviated project name in the title of the PDF document and if sent via email in the subject line of the email. Proposals should be less than 5MB and follow the current State Building Advisory Commission guidelines, which can be found in Part B — Chapter 2 of the Building Design and Construction Manual at [www.da.ks.gov/fp/manual.htm](http://www.da.ks.gov/fp/manual.htm). Proposals should be sent to Barbara Schilling, Office of Facilities and Procurement Management, Suite 700, 800 S.W. Jackson, Topeka, 66612-1216. If you have questions call 785-291-3695 or email [professional.qualifications@da.ks.gov](mailto:professional.qualifications@da.ks.gov). Both the PDF and bound proposal submittals shall be delivered to the attention of Barbara Schilling before noon June 7, 2013.

**Notice of Intent to Establish a New Line-Make for  
an Existing New Motor Vehicle Dealer**

Notice has been received from Dan's Cycle LLC of its intent to establish the franchise of Yamaha to its location at 7901 N. Hoover Road, Hesston, Kansas.

Pursuant to K.S.A. 8-2430(a)(5), any existing new motor vehicle dealer may protest the proposed addition of the new franchise of Yamaha at Dan's Cycle LLC if that existing new motor vehicle dealer has a franchise agreement for the same line-make vehicle as that which is to be sold or offered for sale by Dan's Cycle LLC at 7901 N. Hoover Road, Hesston, Kansas, and provided that the existing new motor vehicle dealer is physically located such that its relevant market area, as defined in K.S.A. 8-2430(e), includes the location where the new Yamaha dealership will be located.

Pursuant to K.S.A. 8-2430(a), any petition or complaint by any dealer with standing to protest must be filed with the director of vehicles within 30 days of this notice. Such petitions or complaints must be directed to the director of the Division of Vehicles, Kansas Department of Revenue, 11th Floor, Docking State Office Building, 915 S.W. Harrison, Topeka, 66612.

**Department of Transportation**

**Notice to Consulting Firms**

The Kansas Department of Transportation is seeking qualified consulting firms prequalified in Category 324 — Bridge Deck Evaluations, or Category 333 — Geotechnical Specialist for Engineering Services, as described below. A PDF (1Mb maximum size) of the interest response must be emailed to David J. Nagy, P.E., assistant to the director of design/contracts engineer, at DavidN@ksdot.org. Interest and experience responses are limited to four pages, and the subject line of the reply email and the PDF file name must read "435-106 KA-3315-01—Firm Name." The letter of interest is required and must be received by noon June 6, 2013, for the consulting firm to be considered. Categories may be viewed at [www.ksdot.org/divengdes/prequal](http://www.ksdot.org/divengdes/prequal).

**Project No. 435-106 KA-3315-01  
Johnson and Wyandotte Counties**

The Kansas Department of Transportation is seeking qualified firms to provide nondestructive inspection of all bridge decks on I-435. The corridor is approximately 28.5 miles long (State Line Road on the south end to the Missouri River on the north end). There are 64 bridges on this corridor with a deck area of approximately 1.47 million square feet. The ADT for these bridges is approximately 39,000 vehicles per day. A map of the bridges to be surveyed can be found in the following link:

<https://www.google.com/fusiontables/embedviz?viz=MAP&q=select+col34+from+1IsHmbInbGc6kdX3EuCv6P6KuWJJOEzb4nYLXkT3U&h=false&lat=39.057627742589084&lng=-94.68852116829112&z=11&t=1&l=col34&y=2&tmplt=2>

The selected firms will provide at minimum a deterioration map for every bridge deck surveyed along with a summary of percent deterioration for each bridge in electronic format. The primary deterioration to be reported will be delamination's and spalled area of the bridge deck. Consideration will be given to firms that can report additional data (i.e. crack maps, crack density, depth to rebar, chloride concentration, etc.). All work is to be done with minimal traffic control and no lane closures and during nonpeak traffic hours. Any traffic control shall meet the minimum KDOT requirements for this type of work and shall be provided by the selected firm.

The project is scheduled to be completed in three months.

The Consultant Shortlist Committee will select three to five of the most highly qualified firms expressing interest and schedule an individual interview for the project. The consulting firms can more thoroughly discuss their experience related to the project at the interview and will be expected to discuss their approach to this project in detail and the personnel to be assigned to this project.

The Consultant Selection Committee, appointed by the secretary of transportation, will conduct the discussions with the firms invited to the individual interview conferences. The committee will select several firms to perform the professional services required for completing the advertised project.

It is KDOT's policy to use the following criteria as the basis for selection of the consulting engineering firms:

1. Size and professional qualifications.
2. Experience of staff.
3. Location of firm with respect to project(s).
4. Work load of firm.
5. Firm's performance record.

The firm's accounting systems must have the following capabilities before the firm may be awarded a contract:

- Valid, reliable and current costs must be available within the system to support cost and pricing data.
- Capability to provide a means of measuring the reasonableness of incurred costs.
- Capability to identify and accumulate allowable costs by contract or project records that will reconcile with the general ledger.
- Ability to provide supporting documentation of actual expenditures for each billing, based on costs.

**Notice to Contractors**

Electronic copies of the letting proposals and plans are available on the KDOT website at <http://www.ksdot.org/burconsmain/contracts/proposal.asp>. The website will allow the contractor to request approval from KDOT to bid as a prime contractor and be included on the "Bid Holders List," or to be included on the "Non-Bid Holders List" as a subcontractor/supplier. KDOT's approval is required to bid as a prime contractor. To bid as a prime contractor, KDOT needs to be notified of the intent to bid not later than the close of business on the Monday preceding the scheduled letting date. Failure to obtain prior approval to bid as a prime contractor on any projects listed below will be reason to reject a bid. The secretary of transportation reserves the right to reject bids that do not comply with all requirements for preparing a bidding proposal as specified in the 2007 edition of the Kansas Department of Transportation Standard Specifications for State Road and Bridge Construction.

KDOT will only accept electronic internet proposals online using the Bid Express website at <http://www.bidx.com> until 1 p.m. local time on June 19. KDOT will open and read these proposals at the Eisenhower State Office Building, 700 S.W. Harrison, Topeka, at 1:30 p.m. local time on June 19. An audio broadcast of the bid letting is available at <http://www.ksdot.org/burconsmain/audio.asp>.

Each bidder shall certify that such person, firm, association or corporation has not, either directly or indirectly, entered into any agreement, participated in any collusion, or otherwise taken any action in restraint of free competitive bidding in connection with the submitted bid. This certification shall be in the form of a required contract provision provided by the state to each prospective bidder. Failure to complete the required contract provision and certify the completeness of the preceding statement when electronically signing the proposal will make

the bid nonresponsive and not eligible for award consideration.

### Department of Commerce

#### Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted at 8:30 a.m. Monday, July 29, in Conference Room B, Kansas Department of Commerce, Suite 100, Curtis State Office Building, 1000 S.W. Jackson, Topeka, to review the revocation of regulations K.A.R. 110-6-1 through 110-6-7 and to review new regulations K.A.R. 110-6-8 through 110-6-12 relating to the High Performance Incentive Program Act, K.S.A. 74-50,131 et seq.

This 60-day notice of the public hearing shall constitute a public comment period for submitting written public comments on the proposed regulations. The public is invited to submit written comments concerning the High Performance Incentive Program regulations to the Kansas Department of Commerce, prior to the public hearing, as follows: by email at [legal@kansascommerce.com](mailto:legal@kansascommerce.com) or by mail to Secretary of Commerce Pat George, Suite 100, Curtis State Office Building, 1000 S.W. Jackson, Topeka, 66612-1354. The public shall be given a reasonable opportunity to present their views orally on these regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes. All public comments submitted during this period will be made part of the regulation's written record.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the regulations and economic impact statements in an accessible format. Requests for accommodation should be made at least 10 working days in advance of the hearing to John Christopher Pryor, Kansas Department of Commerce, at the address above or 785-296-7874. Handicapped parking is not available around the Curtis State Office Building; however, all persons in a vehicle with a handicapped license plate may park in any metered space around the building, and there is no charge for parking. The curbs and all entrances on Jackson Street, 10th Street and Kansas Avenue to the Curtis

State Office Building are accessible to individuals with disabilities.

Copies of the regulations and economic impact statements may be accessed at <http://www.kansascommerce.com/AboutUs/CommerceRegulations>. A summary of the regulations and economic impact follows:

**K.A.R. 110-6-1 through 110-6-7.** These regulations are revoked and replaced with new regulations K.A.R. 110-6-8 through 110-6-12.

**K.A.R. 110-6-8. Definitions used to administer the HPIP Act.**

**K.A.R. 110-6-9. Application.** This regulation describes the timing and forms to use for HPIP application submission.

**K.A.R. 110-6-10. Certification of a worksite.** This regulation explains the requirements for HPIP certification.

**K.A.R. 110-6-11. Certification period (CP).** This regulation describes how the certification period may be established based upon the type of worksite and employee history in Kansas.

**K.A.R. 110-6-12. Training and education requirement.** This regulation explains how the HPIP training requirement can be satisfied through participation in one of the Department of Commerce's workforce training programs or, alternatively, through being able to document eligible training expenditures equal to at least 2 percent of total payroll during the measurement period.

**Federal requirements.** The HPIP program does not have any federal requirements. It is a Kansas income tax credit program and is managed and regulated at the state level.

**Anticipated economic impact upon governmental entities, private businesses or individuals and the Kansas Department of Commerce.** It is estimated that the HPIP program will process approximately 300 project description forms and 225 applications for HPIP certification in FY 2013. The program is currently being administered by the program manager and one assistant program manager whose time is divided between HPIP and another program. The department does not anticipate the need to hire additional employees or incur any other additional expenses.

The purpose of HPIP is to incentivize major capital intensive investment leaning heavily towards the manufacturing sector. Although HPIP does not have a job creation requirement, job creation is the natural byproduct of large capital investments. Therefore, since HPIP does produce and retain jobs (by increasing capital investment), a broader business climate is created in Kansas, which produces a short- and long-term positive impact to local governments and businesses across the state.

There would be no negative impact on other entities or persons. There would be a positive impact on state and local tax revenues and unemployment by broadening the business climate through increased capital investment, which will produce additional and higher paying jobs.

## Notice of Hearing

The Kansas Department of Health and Environment proposes to revise the State of Kansas Plan for Implementation, Maintenance and Enforcement of the 2010 National Ambient Air Quality Standards (NAAQS) for Sulfur Dioxide (SO<sub>2</sub>). If requested, a public hearing for this action will be held at 10 a.m. Wednesday, June 26, in the Flint Hills Conference Room, Curtis State Office Building, 1000 S.W. Jackson, Topeka. To request a hearing, contact Miles Stotts at [mstotts@kdheks.gov](mailto:mstotts@kdheks.gov) or 785-296-1615, or fax a written request to 785-296-7455. If no request for hearing is received by 10 a.m. June 24, then no hearing will occur and a broadcast announcement will be posted on the KDHE Bureau of Air (BOA) website at <http://www.kdheks.gov/bar/pnpublicnotice.html>.

The State of Kansas Plan for Implementation, Maintenance and Enforcement of National Ambient Air Quality Standards (NAAQS) for Sulfur Dioxide is proposed in accordance with the requirements of Section 110 of the Federal Clean Air Act Amendments (CAAA) of 1990. The proposed revision demonstrates that Kansas complies with the CAAA, Section 110, providing the necessary plans, programs and statutory authority to implement Section 110 requirements of the federal Clean Air Act (CAA) as they pertain to SO<sub>2</sub>.

This proposed State Implementation Plan (SIP) revision does not include any rulemaking action. Details concerning this revision may be obtained by contacting Miles Stotts as identified above. The proposed plan may be viewed at the KDHE BOA website as well as the following locations:

- Department of Air Quality, Unified Government of Wyandotte County/Kansas City, Kansas, Health Department, 619 Ann Ave., Kansas City, Kansas
- Johnson County Environmental Department, 11811 S. Sunset, Suite 2700, Olathe
- KDHE Northwest District Office, 2301 E. 13th St., Hays
- KDHE North Central District Office, 2501 Market Place, Suite D, Salina
- KDHE Northeast District Office, 800 W. 24th St., Lawrence
- KDHE Southeast District Office, 1500 W. 7th St., Chanute
- Wichita-Sedgwick County Department of Community Health, 1900 E. 9th St., Wichita, KS
- KDHE Southwest District Office, 302 W. McArtor Road, Dodge City, KS
- Curtis State Office Building, 1000 S.W. Jackson, Suite 310, Topeka

Public comments may be sent to KDHE, Bureau of Air, Attn: Miles Stotts, Suite 310, Curtis State Office Building, 1000 S.W. Jackson, Topeka, 66612-1366, by email to [mstotts@kdheks.gov](mailto:mstotts@kdheks.gov) or by fax to 785-296-7455, Attn:

Miles Stotts. Public comments must be received not later than June 26 to assure consideration.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed plan in an accessible format. Requests for accommodation should be made by June 17 by notifying Miles Stotts.

**Notice Concerning Kansas/Federal Water Pollution Control Permits and Applications**

In accordance with Kansas Administrative Regulations 28-16-57 through 63, 28-18-1 through 17, 28-18a-1 through 33, 28-16-150 through 154, 28-46-7, and the authority vested with the state by the administrator of the U.S. Environmental Protection Agency, various draft water pollution control documents (permits, notices to revoke and reissue, notices to terminate) have been prepared and/or permit applications have been received for discharges to waters of the United States and the state of Kansas for the class of discharges described below.

The proposed actions concerning the draft documents are based on staff review, applying the appropriate standards, regulations and effluent limitations of the state of Kansas and the Environmental Protection Agency. The final action will result in a Federal National Pollutant Discharge Elimination System Authorization and/or a Kansas Water Pollution Control permit being issued, subject to certain conditions, revocation and reissuance of the designated permit or termination of the designated permit.

Legal Description: NE¼, S5, T28S, R7W, Kingman County, KS

Facility Name: FABPRO Oriented Polymers — Twine Plant  
Facility Address: 100 S. Penalosa, Kingman, KS 67068

The proposed action consists of reissuance of an existing permit for an existing wastewater treatment facility. The principal activity of this facility is the extrusion of polypropylene into twine and concrete fibers. Process water is used for direct contact quenching of hot extruded plastic filaments and tapes, as well as in a closed-loop system with chillers for noncontact cooling of equipment. The process water is either recycled back into the process or discharged to Outfall 001A1. All other wastewater is discharged to the city's sanitary sewer. No cooling water additives are utilized at this facility. The proposed permit contains limits for biochemical oxygen demand, total suspended solids, oil and grease, and pH, as well as monitoring for chlorides, total recoverable chromium and zinc and flow.

**Public Notice No. KS-NQ-13-023**

The requirements of the draft permits public noticed below are pursuant to the Kansas Surface Water Quality Standards, K.A.R. 28-16-28(b-g):

Name and Address of Applicant	Legal Location	Type of Discharge
Hill City, City of 205 N. Pomeroy Hill City, KS 67642	W½, SW¼, S33, T7S, R22W, Graham County, KS	Nonoverflowing

Kansas Permit No. M-SO19-NO01 Federal Tracking No. KSJ000658

This action consists of issuing a new Kansas Water Pollution Control Permit for a new nonoverflowing treatment facility to replace an existing mechanical plant. The new facility will consist of a lift station and a three-cell wastewater nondischarging stabilization lagoon system totaling 15.12 acres. A fourth cell, totaling 7.93 acres, will be used for treated effluent storage. Treated wastewater from the fourth cell is chlorinated and pumped to the golf course holding ponds prior to irrigation. The proposed permit contains goals for biochemical oxygen demand, total suspended solids, limits for E. coli, as well as monitoring of chlorides, total residual chlorine, pH and flow. Contained in the permit is a schedule of compliance requiring the permittee to complete construction and initiate operation of this facility by January 1, 2015.

Persons wishing to comment on the draft documents and/or permit applications must submit their comments in writing to the Kansas Department of Health and Environment if they wish to have the comments considered in the decision-making process. Comments should be submitted to the attention of the Livestock Waste Management Section for agricultural-related draft documents or applications, or to the Technical Services Section for all other permits, at the Kansas Department of Health and Environment, Division of Environment, Bureau of Water, 1000 S.W. Jackson, Suite 420, Topeka, 66612-1367.

All comments regarding the draft documents or application notices received on or before June 22 will be considered in the formulation of the final determinations regarding this public notice. Please refer to the appropriate Kansas document number (KS-AG-13-122/128, KS-Q-13-102, KS-NQ-13-023) and name of the applicant/permittee when preparing comments.

After review of any comments received during the public notice period, the secretary of health and environment will issue a determination regarding final agency action on each draft document/application. If response to any draft document/application indicates significant public interest, a public hearing may be held in conformance with K.A.R. 28-16-61 (28-46-21 for UIC).

All draft documents/applications and the supporting information including any comments received are on file and may be inspected at the offices of the Kansas Department of Health and Environment, Bureau of Water. These documents are available upon request at the copying cost assessed by KDHE. Application information and components of plans and specifications for all new and expanding swine facilities are available on the Internet at <http://www.kdheks.gov/feedlots>. Division of Environment offices are open from 8 a.m. to 5 p.m. Monday through Friday, excluding holidays.

**State of Kansas**

**Department of Health  
and Environment**

**Permanent Administrative  
Regulations**

**Article 30.—WATER WELL CONTRACTOR'S  
LICENSE; WATER WELL CONSTRUCTION  
AND ABANDONMENT**

**28-30-2. Definitions.** In addition to the definitions in K.S.A. 82a-1203 and amendments thereto, each of the following terms shall have the meaning assigned in this regulation:

(a) "Abandoned water well" means a water well determined by the department to meet at least one of the following conditions:

- (1) Use of the water well has been permanently discontinued.
- (2) Pumping equipment has been permanently removed from the water well.
- (3) The water well either is in such disrepair that it cannot be used to supply water or has the potential for transmitting surface contaminants into the aquifer, or both.

(4) The water well poses potential health and safety hazards.

(5) The water well is in such a condition that it is not an active well or cannot be placed in inactive status.

(b) "Above-grade surface completion" means the termination of a water well or boring if the casing being used is at least 12 inches above the surrounding ground surface.

(c) "Active well" means a water well that is operating and is used to withdraw water or to monitor or observe groundwater conditions.

(d) "Annulus" means the space between the casing and the boring or the space between two or more strings of casing.

(e) "Aquifer" means an underground formation that contains and is capable of transmitting groundwater.

(f) "At-grade surface completion" means the termination of a monitoring well or boring if the casing is at the surrounding ground surface.

(g) "Cased test hole" means any test hole in which casing has been installed and grouted.

(h) "Confined aquifer" means an aquifer overlain and underlain by impermeable layers. Groundwater in a confined aquifer is under pressure greater than atmospheric pressure and will rise in a water well above the point at which groundwater is first encountered.

(i) "Department" means Kansas department of health and environment.

(j) "Designated person" means the individual designated by a water well contractor who is the contact person for compliance issues and who is responsible for submitting water well records and for earning the units of approved continuing education credits required by K.A.R. 28-30-3. The designated person may be the water well contractor.

(k) "Drill rig" means an apparatus operated to create a hole or shaft in the ground in which a water well is constructed.

(l) "Drill rig license number" means the numbers and letters assigned by the department that are affixed to each drill rig operated by or for a water well contractor.

(m) "Drilling fluid" means any fluid, including water, that is added during the drilling process to help increase the drilling efficiency.

(n) "Fresh groundwater" means water containing not more than 1,000 milligrams of total dissolved solids per liter and 500 milligrams of chloride per liter.

(o) "Groundwater" means the part of the subsurface water that is in the zone of saturation.

(p) "Grout" means bentonite clay grout, cement grout, neat cement grout, or other material approved by the secretary used to create a permanent impervious, watertight bond between the casing and the undisturbed formation surrounding the casing or between two or more strings of casing.

(1) "Bentonite clay grout" means a mixture of water and either commercial grouting or plugging sodium bentonite clay, including sodium bentonite clay manufactured under the trade name "volclay grout," or an equivalent approved by the department according to the following:

(A) The mixture shall be prepared according to the manufacturer's recommendations to achieve a weight of at least 9.4 pounds per gallon of mix. Weighting agents may be added according to the manufacturer's recommendations.

(B) Sodium bentonite pellets, tablets, or granular sodium bentonite may also be used if these additives or materials meet the specifications listed in paragraph (p)(1).

(C) Sodium bentonite products that are designed for drilling purposes or contain organic polymers shall not be used.

(2) "Cement grout" means a mixture of one 94-pound bag of portland cement, an equal volume of sand having a diameter no larger than two millimeters, and five to six gallons of clean water.

(3) "Neat cement grout" means a mixture of one 94-pound bag of portland cement and five to six gallons of clean water.

(q) "Grout tremie pipe" and "grout pipe" mean a steel or galvanized steel pipe or similar pipe having equivalent structural soundness that is used to pump grout to a point of selected emplacement during the grouting of a casing or plugging of an abandoned water well or test hole.

(r) "Heat pump hole" means a hole drilled to install piping for an earth-coupled water source heat pump system, also known as a vertical closed-loop system.

(s) "Inactive status" means a water well that is not presently operating but is maintained so that the water well can be put back in operation with minimum effort.

(t) "Monitoring well" means a water well used to monitor, obtain, or collect hydrologic, geologic, geophysical, chemical, or other technical data pertaining to groundwater, surface water, or other hydrologic conditions. A monitoring well is also known as an "observation well."

(u) "Pitless well adapter or unit" means an assembly of parts installed below the frost line that permits pumped groundwater to pass through the wall of the casing or the extension of the casing and prevent the entrance of contaminants.

(v) "Public water-supply well" means a water well that meets both of the following conditions:

(1) Provides groundwater to the public for human consumption; and

(2) has at least 10 service connections or serves an average of at least 25 individuals daily for at least 60 days during a calendar year.

(w) "Pump pit" means a watertight structure that meets both of the following conditions:

(1) Is constructed as follows:

(A) At least two feet away from the water well; and

(B) below ground level to prevent the freezing of pumped groundwater; and

(2) houses the pump or pressure tank, distribution lines, electrical controls, or other appurtenances.

(x) "Reconstructed water well" means an existing water well that has been deepened or has had the casing replaced, repaired, added to, or modified in any way for the purpose of obtaining groundwater.

(y) "Sand point" has the meaning specified in K.S.A. 82a-1203, and amendments thereto.

(continued)

(z) "Sanitary well seal" means a manufactured seal installed at the top of the casing that, when installed, creates an airtight and watertight seal to prevent contaminated or polluted water from gaining access to the groundwater supply.

(aa) "Static water level" means the highest point below or above ground level that the groundwater in the water well reaches naturally.

(bb) "Test hole" and "hole" mean any excavation constructed for the purpose of determining the geologic, hydrologic, and water quality characteristics of underground formations.

(cc) "Treatment" means the stimulation of the production of groundwater from a water well through the use of hydrochloric acid, muratic acid, sulfamic acid, calcium or sodium hypochlorite, polyphosphates or other chemicals, and mechanical means, to reduce or remove iron and manganese hydroxide and oxide deposits, calcium and magnesium carbonate deposits, and slime deposits associated with iron or manganese bacterial growths that inhibit the movement of groundwater into the water well.

(dd) "Uncased test hole" means any test hole from which casing has been removed or in which casing has not been installed.

(ee) "Unconfined aquifer" means an aquifer containing groundwater at atmospheric pressure. The upper surface of the groundwater in an unconfined aquifer is the water table.

(ff) "Water well" has the meaning specified in K.S.A. 82a-1203, and amendments thereto. (Authorized by K.S.A. 82a-1205 and 82a-1213; implementing K.S.A. 82a-1202, 82a-1205, and 82a-1213; effective, E-74-34, July 2, 1974; modified, L. 1975, ch. 481, May 1, 1975; amended May 1, 1980; amended May 1, 1987; amended Nov. 22, 1993; amended June 7, 2013.)

**28-30-3. Licensing.** (a) Eligibility. To be eligible for a water well contractor's license, each applicant shall meet the following requirements:

(1) Submit a complete license application on a form provided by the department;

(2) submit a water well contractor application fee of \$10.00;

(3) (A) Pass the water well contractor examination conducted by the department or employ a designated person who has passed the water well contractor examination; and

(B) submit a license fee of \$100.00 if the applicant or designated person passes the water well contractor examination; and

(4) submit a complete registration form on a form provided by the department for each drill rig operated by or for the applicant and a registration fee of \$25.00 for each drill rig operated by or for the applicant.

(b) License renewal.

(1) Each licensee shall submit an application for renewal of license and drill rig registrations before July 1 of each year by filing the proper renewal forms provided by the department and by meeting the following requirements:

(A) Paying the annual license fee and a drill rig registration fee for each drill rig to be operated in the state;

(B) filing all records for each water well constructed, reconstructed, or plugged by the licensee in accordance with K.A.R. 28-30-4 during the previous licensure period;

(C) filing a report, on a form approved by the department, of all approved continuing education units earned by the licensee or designated person during the previous licensure period;

(D) meeting the continuing education requirements in subsection (c); and

(E) providing any remaining outstanding information or records requested that existed before the issuance or revocation of a license.

(2) Failure to comply with the requirements of this subsection shall be grounds to revoke the existing license and terminate the license renewal process.

(c) Continuing education requirements. Each water well contractor or the contractor's designated person shall earn at least eight units of continuing education approved by the secretary. This requirement shall apply each year beginning with the first full year of licensure or the renewal period. One unit of continuing education shall equal 50 minutes of approved instruction except for trade shows and exhibitions, which shall be counted as one unit for each approved trade show or exhibition attended.

(d) Employment requirements. If the designated person who has passed the water well contractor examination under paragraph (a)(3)(A) leaves the contractor's employment, the contractor shall employ a designated person who shall take, within 90 days, and be required to pass the water well contractor examination. (Authorized by K.S.A. 82a-1205, K.S.A. 2012 Supp. 82a-1206, and K.S.A. 82a-1207; implementing K.S.A. 82a-1202, K.S.A. 82a-1205, K.S.A. 2012 Supp. 82a-1206, K.S.A. 82a-1207, K.S.A. 82a-1209, and K.S.A. 82a-1212; effective, E-74-34, July 2, 1974; effective May 1, 1975; amended May 1, 1980; amended May 1, 1983; amended May 1, 1987; amended Nov. 22, 1993; amended June 7, 2013.)

**28-30-4. General operating requirements.** (a) Water well record.

(1) Within 30 days after construction or reconstruction of a water well, each water well contractor shall submit a report to the department and to the landowner on the water well record form provided by the department.

(2) Each contractor shall report to the department and to the landowner on the water well record form provided by the department and attachments any polluted or other noncompliant conditions that the contractor was able to correct and any conditions that the contractor was unable to correct.

(3) Each contractor shall report to the department and to the landowner the plugging of any abandoned water well on the water well record form provided by the department.

(4) Each landowner who constructs, reconstructs, or plugs a water well that will be or was used by the landowner for farming, ranching, or agricultural purposes or is located at the landowner's residence shall submit a report to the department on the water well record form provided by the department within 30 days after the construction, reconstruction, or plugging of the water well.

No fee shall be required from the landowner for the record.

(b) Artificial recharge and return. Each contractor who constructs an artificial recharge well or a freshwater return well shall comply with all regulations applicable to these wells specified in article 46.

(c) Water well tests. Results of a pumping test shall be reported on the water well record form provided by the department or a copy of the contractor's record of a pumping test shall be attached to the water well record form.

(d) Water samples. Within 30 days after the department's receipt of the water well record form provided by the department, the contractor or landowner who constructs or reconstructs any water well may be requested by the department to submit a sample of water from the water well for chemical analysis. The sample shall be submitted within 30 days after the department's request.

(e) Water well construction fee. Each contractor shall pay a \$5.00 fee to the department for each water well constructed. The construction fee shall be paid when the contractor requests a water well record form provided by the department or shall accompany the water well record form submitted as specified in this regulation.

(f) License number. Each drill rig operated by or for a contractor shall prominently display the drill rig license number assigned by the department in letters and numbers at least two inches tall. Decals, paint, or other permanent marking materials shall be used. (Authorized by K.S.A. 82a-1205; implementing K.S.A. 82a-1202, 82a-1205, 82a-1212, and 82a-1213; effective, E-74-34, July 2, 1974; modified, L. 1975, ch. 481, May 1, 1975; amended May 1, 1980; amended May 1, 1987; amended June 7, 2013.)

**28-30-5. Construction regulations for public water-supply wells.** All activities involving public water-supply wells shall meet the requirements of K.S.A. 65-163a, and amendments thereto, and regulations of the department, including K.A.R. 28-15-16. (Authorized by K.S.A. 82a-1205; implementing K.S.A. 82a-1202 and 82a-1205; effective, E-74-34, July 2, 1974; effective May 1, 1975; amended May 1, 1980; amended May 1, 1983; amended May 1, 1987; amended June 7, 2013.)

**28-30-6. Construction regulations for all water wells not included under K.A.R. 28-30-5.** (a) Each water well shall be constructed to minimize the potential for contamination of the delivered or obtained groundwater and to protect groundwater aquifers from pollution and contamination.

(b) The following requirements for grouting shall be met:

(1) Each constructed water well and each reconstructed water well shall be sealed by grouting the annulus between the casing and the boring from ground level to at least 20 feet or to at least five feet into the first clay or shale layer if one is present, whichever is greater. If a pitless well adapter or unit is being installed, the grouting shall start below the point at which the pitless well adapter or unit attaches to the casing and shall continue at least 20 feet below this point or to at least five feet into the first clay or shale layer, whichever is greater.

(2) The diameter of the drilled boring shall be at least three inches greater than the maximum outside diameter of the casing.

(3) Water from two or more separate aquifers shall be separated from each other in the boring by sealing the annulus between the aquifers with grout.

(c) If groundwater is encountered at a depth less than the minimum grouting requirement, the grouting requirement may be modified by the secretary to meet local conditions.

(d) A well vent shall be used and shall terminate at least one foot above the ground surface. The well vent shall be screened with brass, bronze, copper screen, or other screen materials approved by the secretary that are 16-mesh or greater and turned down in a full 180-degree return bend to prevent the entrance of contaminating materials.

(e) Before the completion of a constructed water well or a reconstructed water well, the water well shall be cleaned of mud, drill cuttings, and other foreign matter to make the water well suitable for pump installations.

(f) Casing shall meet the following requirements:

(1) Each water well shall have durable watertight casing from at least one foot above the finished ground surface to the top of the producing zone of the aquifer. The watertight casing shall extend at least 20 feet below the ground level. Exceptions to either of these requirements may be granted by the secretary if warranted by local conditions.

(2) Each water well shall be an above-grade surface completion, except that an at-grade surface completion may be used if all requirements of subsection (s) are met. Casing may be cut off below the ground surface to install a pitless well adapter or unit.

(3) No opening shall be made through the casing, except for the installation of a pitless well adapter or unit designed and fabricated to prevent soil, subsurface, and surface water from entering the water well.

(4) The casing shall meet the requirements of the department's document titled "approved water well casing: water well casing for water wells other than public water-supply wells," dated November 7, 2012, which is hereby adopted by reference. Used, reclaimed, defective, or contaminated pipe shall not be used for casing any water well.

(g) Each water well, when unattended during construction, reconstruction, treatment, or repair or during use as a cased test hole or as an observation or monitoring well, shall have the top of the casing securely capped in a watertight manner.

(h) During construction, reconstruction, treatment, or repair and before its first use, each water well producing water for human consumption or food processing shall be disinfected according to K.A.R. 28-30-10.

(i) The top of the casing shall be sealed by installing a sanitary well seal when the water well is completed.

(j) Each groundwater-producing zone that is known or suspected to contain natural or man-made pollutants shall be cased and grouted in accordance with subsection (b) during construction of any water well to prevent the

*(continued)*

movement of groundwater to either overlying or underlying fresh groundwater zones.

(k) Toxic material shall not be used in the construction, reconstruction, treatment, or plugging of a water well, unless the material is flushed from the water well before use.

(l) The pipe from the pump or pressure tank in the pump pit to the water well shall be sealed in a watertight manner where the pipe passes through the wall of the pump pit.

(m) A water well shall not be constructed in a pit, basement, garage, or crawl space. Each existing water well that is reconstructed, abandoned, or plugged in a basement shall conform to the requirements specified in this article, except that the finished grade of the basement floor shall be considered ground level.

(n) Drilling fluid used during the construction or reconstruction of each water well shall be initially disinfected by mixing sodium hypochlorite with water to produce at least 100 milligrams per liter (mg/l) of available chlorine.

(o) Natural organic or nutrient-producing material shall not be used during the construction, reconstruction, or treatment of a water well, unless this material is flushed from the water well and the groundwater aquifer or aquifers before the water well is completed. Natural organic or nutrient-producing material shall not be added to a grout mix used in the annulus to grout the water well.

(p) Each water well pump shall meet the following requirements:

(1) Each pump installed directly over the casing shall be installed to form an airtight and watertight seal between the top of the casing and the gear or pump head, pump foundation, or pump stand.

(2) A sanitary well seal shall be installed between the pump column pipe or pump suction pipe and the casing if the pump is not mounted directly over the casing and the pump column pipe or pump suction pipe emerges from the top of the casing.

(3) An airtight and watertight seal shall be provided for the cable conduit if submersible pumps are used.

(q) Each sand point constructed, replaced, or reconstructed shall meet the following requirements:

(1) Each sand point shall be constructed by drilling or boring a pilot hole at least three feet below ground surface. The pilot hole shall be at least three inches greater in diameter than the maximum outside diameter of the drive pipe or blank casing if the casing method is used.

(2) Each sand point shall be completed using one of the following methods:

(A) Casing method.

(i) Water well casing that meets the requirements of the department's document titled "approved water well casing: water well casing for water wells other than public water-supply wells," as adopted by reference in paragraph (f)(4), shall be set from at least three feet below the ground surface to at least one foot above the ground surface. The casing shall be sealed between the casing and the pilot hole with grouting material approved by the secretary from the bottom of the casing to ground surface.

(ii) The drive pipe shall be considered the pump drop pipe and shall be capped with a solid cap.

(iii) For underground discharge completions, a "T" joint shall be used.

(iv) A sanitary well seal and a well vent shall be installed on the top of the casing in accordance with subsections (d) and (i).

(B) Drive pipe method.

(i) A sand point may be installed without a casing for aboveground discharge completions only. In these completions, the drive pipe shall terminate at least one foot above finished ground level.

(ii) The annulus between the drive pipe and the pilot hole shall be sealed from the bottom of the pilot hole to ground surface with grout. The top of the drive pipe shall be sealed airtight and watertight with a solid cap of the same material as that of the drive pipe.

(iii) A well vent shall not be required.

(C) Other methods. Other methods may be approved by the secretary on a case-by-case basis using the appeal procedure specified in K.A.R. 28-30-9.

(r) Upon abandonment of a sand point, the contractor or landowner shall pull the drive pipe or leave it in place.

(1) If the drive pipe is left in place, the sand point shall be plugged from the bottom of the well to three feet below the ground surface with approved grouting material. The sand point constructed by the drive pipe method shall be cut off three feet below the ground surface, and the remaining three-foot-deep hole shall be backfilled with surface soil.

(2) If the drive pipe is completely pulled, the remaining hole shall be plugged with approved grouting material from the bottom of the remaining hole to three feet below the ground surface. The hole shall be backfilled with surface soil from three feet to ground surface.

(s) Each monitoring well shall be an above-grade surface completion, unless the monitoring well is located on a roadway, sidewalk, driveway, parking lot, or other heavily trafficked area that requires an at-grade surface completion monitoring well. The following requirements shall be met for each at-grade surface completion:

(1) The location of each monitoring well shall be identified by a unique well number marked on a scaled map that shows latitude and longitude coordinates. The water well contractor shall submit the scaled map and coordinates to the department with the water well record form provided by the department.

(2) The construction method for each monitoring well shall meet the requirements of the department's procedure document titled "flush-mount well construction detail," dated May 23, 2012, which is hereby adopted by reference. (Authorized by K.S.A. 82a-1205; implementing K.S.A. 82a-1202 and 82a-1205; effective, E-74-34, July 2, 1974; modified, L. 1975, ch. 481, May 1, 1975; amended May 1, 1980; amended May 1, 1983; amended May 1, 1987; amended June 21, 1993; amended June 7, 2013.)

**INDEX TO ADMINISTRATIVE REGULATIONS**

This index lists in numerical order the new, amended and revoked administrative regulations and the volume and page number of the *Kansas Register* issue in which more information can be found. Temporary regulations are designated with a (T) in the Action column. This cumulative index supplements the 2009 Volumes of the *Kansas Administrative Regulations* and the 2012 Supplement of the *Kansas Administrative Regulations*.
