Kansas Development Finance Authority

Notice of Hearing

A public hearing will be conducted at 9 a.m. Thursday, September 27, in the offices of the Kansas Development Finance Authority, 555 S. Kansas Ave., Suite 202, Topeka, on the proposal for the KDFA to issue its Agricultural Development Revenue Bond for the project numbered below in the respective maximum principal amount. The bond will be issued to assist the borrower named below (who will be the owner and operator of the project) to finance the cost in the amount of the bond, which is then typically purchased by a lender bank who then, through the KDFA, loans the bond proceeds to the borrower for the purposes of acquiring the project. The project shall be located as shown:

Project No. 000700—Maximum Principal Amount: \$100,000. Owner/Operator: Thomas R. and Patti A. Whalen. Description: Acquisition of 320 acres of agricultural land and related improvements and equipment to be used by the owner/operator for farming purposes. The project is being financed by the lender for Thomas R. and Patti A. Whalen and

is located at the Northeast Quarter of Section 30, Township 19, Range 38, and the Southeast Quarter of Section 19, Township 19, Range 38, Wichita County, Kansas, approximately 9 miles west of Leoti south on Road 3 to Road W then west 1 mile.

The bond, when issued, will be a limited obligation of the KDFA and will not constitute a general obligation or indebtedness of the state of Kansas or any political subdivision thereof, including the KDFA, nor will it be an indebtedness for which the faith and credit and taxing powers of the state of Kansas are pledged. The bond will be payable solely from amounts received from the respective borrower, the obligation of which will be sufficient to pay the principal of, interest and redemption premium, if any, on the bond when it becomes due.

All individuals who appear at the hearing will be given an opportunity to express their views, and all written comments previously filed with the KDFA at its offices at 555 S. Kansas Ave., Suite 202, Topeka, 66603, will be considered. Additional information regarding the project may be obtained by contacting the KDFA.

Negotiations for Engineering Services**

Notice is hereby given of the commencement of negotiations for engineering services for Emporia State University:

- **William Allen White Library HVAC/electrical systems repair/replacement** — Engineering services are required to repair and/or replace the existing building's HVAC and electrical systems in the William Allen White Library. The library complex consists of the original building, built in 1951, and an addition, built in 1970, for a total of 30,000 gs. Services include an extensive analysis of the existing HVAC and electrical systems and recommendations for the repairs and/or replacement necessary to all HVAC and electrical systems. The construction and scheduling of work will allow the building operations to remain open and functioning throughout the project. The schedule for this project is to complete construction documents in March 2008, commence construction in July 2008, and complete the renovation by August 2009. Estimated renovation cost is \$2,400,000.

For more information concerning the scope of services, contact Mark Runge, (620) 341-5331 (mrunge@emporia.edu).

To be considered, five (5) bound proposals and one (1) PDF file on a CD of the following should be provided: a letter of interest, an SF330 Part I, information regarding similar projects, and an SF330 Part II for each firm and consultant. Proposals should be concise and follow the 2007 State Building Advisory Commission guidelines, available to firms at <http://da.ks.gov/fp/>. If copies of the guidelines are needed, contact Phyllis Fast, Division of Facilities Management, Suite 102, Landon State Office Building, 900 S.W. Request for Proposals

The Kansas Mentors program is seeking proposals for the following:

Kansas Mentors Conference

To provide the necessary support to mentoring efforts across Kansas, a statewide mentoring conference should be held that covers the critical national and state issues related to mentoring. The conference should provide training sessions that are beneficial to both new and established mentoring programs. This includes training in the areas that are necessary in order to have an effective program, such as fund raising, risk management practices, and marketing and recruitment efforts. In addition, the conference should emphasize and provide a forum for collaboration efforts. This may include round-table discussions to identify ways programs can work together or perhaps a session that showcases some of the model partnerships going on throughout the state. Feedback from these sessions should be compiled into a report for Kansas Mentors. The conference should be held in January to coincide with national mentoring month. Eligible applicants must submit a plan detailing how the training administered by their organizations would be the most beneficial to both established and developing mentoring programs in Kansas. The plan also should include a description of topics that will be covered, a list of speakers, possible location(s), and promotional strategies to attract attendees. Applications are due September 27 and can be found at <http://www.ksmentors.ks.gov/news.htm>.

Regional Training Sessions

In an effort to provide Kansas children to get the most beneficial, safe and positive results from a mentoring relationship, a statewide training effort is needed. The (6 to 8) regional sessions should be administered in two sections. The first section is for established and developing mentoring programs and would include instruction in the areas necessary to have a successful program. Section two would provide training for people interested in becoming mentors. The curriculum for this session would have to be tailored in order to meet the needs of the majority of Kansas Mentors mentoring partners. Essentially, this training should be compatible with most mentoring programs so that trainees can apply it to the program of their choice. In addition, a luncheon should be held in between both sections for Kansas Mentors staff to address the needs of the state. It would be preferred to house these trainings sessions within a school to promote partnerships between programs and school districts. Eligible applicants must submit a plan detailing how the training administered by their organizations would be the most beneficial to both mentoring programs and potential mentors. The plan also should include a description of topics that will be covered, a list of presenters and possible location(s), and promotional strategies to attract at-

tendees. Applications are due September 27 and can be found at <http://www.ksmentors.ks.gov/news.htm>.

Notice of Rescheduled Hearing

The Kansas Department of Health and Environment has prepared a proposed Kansas Water Pollution Control Permit, A-BBMS-B003, for Jerry Stowell, owner, located near Frankfort. The proposed permit is for a waste control system for a confined feeding facility with a capacity for up to 299 head (299 animal units) of cattle weighing more than 700 pounds. The proposed facility will be located in the SE/4 of Section 09, Township 04 South, Range 09 East in Marshall County. The public was informed of the availability of the proposed agricultural waste control permit for Jerry Stowell through Public Notice No. KS-AG-07-236 dated August 23, 2007. A public hearing has been scheduled in conformance with K.A.R. 28-16-61.

The public hearing that had originally been scheduled for September 25 has been rescheduled for 6 p.m. Wednesday, October 10, at the Education Building, 119 N. Kansas, Frankfort.

Copies of the permit application, the proposed KDHE permit and other pertinent documents may be viewed at or requested by writing to the Kansas Department of Health and Environment, Bureau of Water, Livestock Waste Management Section, 1000 S.W. Jackson, Suite 420, Topeka, 66612-1367, (785) 296-6432 or fax (785) 296-5509. Appropriate copying charges will be assessed for each request. In addition, the same documents may be viewed at the KDHE Northeast District Office, 800 W. 24th, Lawrence.

Persons wishing to comment on the proposed permit may do so at the public hearing or may submit written statements to the address above by October 10. It is recommended that persons wishing to speak at the public hearing supply the hearing officer with a written copy of the testimony the night of the hearing.

Any individual with a disability may request accommodation in order to participate in the public hearing process and may request the proposed permit in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting KDHE at the address above.

The Secretary of Health and Environment will make a final permit decision after consideration of applicable requirements of state statutes and regulations and comments received during the public notice and public hearing processes.

Public Notice Concerning Kansas/Federal Water Pollution Control Permits and Applications

In accordance with Kansas Administrative Regulations 28-16-57 through 63, 28-18-1 through 15, 28-18a-1 through 32, 28-16-150 through 154, 28-46-7, and the authority vested with the state by the administrator of the U.S. Environmental Protection Agency, various draft water pollution control documents (permits, notices to revoke and reissue, notices to terminate) have been prepared and/or permit applications have been received for discharges to waters of the United States and the state of Kansas for the class of discharges described below.

The proposed actions concerning the draft documents are based on staff review, applying the appropriate standards, regulations and effluent limitations of the state of Kansas and the Environmental Protection Agency. The final action will result in a Federal National Pollutant Discharge Elimination System Authorization and/or a Kansas Water Pollution Control permit being issued, subject to certain conditions, revocation and reissuance of the designated permit or termination of the designated permit.

The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality construction permit. Nexsun Ethanol, LLC, has applied for an air quality construction permit in accordance with the provisions of K.A.R. 28-19-300 to construct an ethanol manufacturing plant. Emissions of particulate matter (PM), PM equal to or less than 10 microns in diameter (PM₁₀), volatile organic compounds (VOCs), oxides of nitrogen (NOx), sulfur oxides (SOx), carbon monoxide (CO), and hazardous air pollutants (HAPs) were evaluated during the permit review process.

Nexsun Ethanol, LLC, 214 N. Main, Ulysses, proposes to own and operate a stationary source located west of Ulysses (Section 31, Township 28 South, Range 37 West), at which a 44-million-gallon per year fuel grade ethanol plant is to be constructed.

A public comment period has been established until noon October 15 to allow citizens the opportunity to express any concerns they may have about this proposed permitting action. All comments should be submitted in writing to Sergio Guerra, KDHE, Bureau of Air and Radiation, 1000 S.W. Jackson, Suite 310, Topeka, 66612-1366. Comments also may be presented at the public hearing.

Any member of the public may request a public hearing be conducted to provide comments on the proposed issuance of the draft air quality construction permit. Written requests to hold a public hearing should be sent to the attention of Sherry Walker at the address listed above or by fax to (785) 291-3953 and must be received by noon October 15. If a request is received, a public hearing is tentatively scheduled by KDHE at 7 p.m. October 24 at the Pioneer Communication Building, 120 W. Kansas Ave., Ulysses. If no requests to hold the public hearing are received by this date and time, the public hearing will be cancelled.

A copy of the proposed permit, permit application, all supporting documentation and all information relied upon during the permit application review process is available for public review for a period of 30 days from the date of publication during normal business hours, 8 a.m. to 5 p.m., at the KDHE, Bureau of Air and Radiation, 1000 S.W. Jackson, Suite 310, Topeka; and a copy of the proposed permit can be reviewed at the KDHE Southwest District Office, 302 W. McArtor Road, Dodge City. To obtain or review the proposed permit and supporting documentation, contact Sergio Guerra, (785) 296-0365, at the KDHE central office; and to review the proposed permit only, contact the air quality district representative, (620) 225-0596, in the KDHE Southwest District Office. The standard departmental cost will be assessed for any copies requested.

Request for Comments

The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality operating permit. Natural Gas Pipeline Company of America has applied for a Class I operating permit renewal in accordance with the provisions of K.A.R. 28-19-510 et seq. The purpose of a Class I permit is to identify the sources and types of regulated air pollutants emitted from the facility; the emission limitations, standards and requirements applicable to each source; and the monitoring, record keeping and reporting requirements applicable to each source as of the effective date of permit issuance.

Natural Gas Pipeline Company of America, Lakewood, Colorado, owns and operates #194 Compressor Station located at Section 2, T14S, R10W, Ellsworth County, Kansas.

A copy of the proposed permit, permit application, all supporting documentation and all information relied upon during the permit application review process is available for a 30-day public review during normal business hours at the KDHE, Bureau of Air and Radiation, 1000 S.W. Jackson, Suite 310, Topeka; and a copy of the proposed permit can be reviewed at the KDHE North Central District Office, 2501 S. Market, Salina. To obtain or review the proposed permit and supporting documentation, contact Michael J. Parhomek, (785) 296-1580, at the KDHE central office; and to review the proposed permit only, contact Jennifer Nichols, (785) 827-9639, at the KDHE North Central District Office. The standard departmental cost will be assessed for any copies requested.

Direct written comments or questions regarding the proposed permit to Michael J. Parhomek, KDHE, Bureau of Air and Radiation, 1000 S.W. Jackson, Suite 310, Topeka, 66612-1366. In order to be considered in formulating a final permit decision, written comments must be received before the close of business October 15.

A person may request a public hearing be held on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Sherry Walker, Bureau of Air and Radiation, not later than the close of business October 15 in order for the Secretary of Health and Environment to consider the request.

The U.S. Environmental Protection Agency has a 45-day review period, which will start concurrently with the 30-day public comment period, within which to object to the proposed permit. If the EPA has not objected in writing to the issuance of the permit within the 45-day review period, any person may petition the administrator of the EPA to review the permit. The 60-day public petition period will directly follow the EPA's 45-day review period. Interested parties may contact KDHE to determine if the EPA's 45-day review period has been waived.

Any such petition shall be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided for in this notice, unless the petitioner demonstrates that it was im-

practicable to raise such objections within such period, or unless the grounds for such objection arose after such period. Contact Jon Knodel, U.S. EPA, Region VII, Air Permitting and Compliance Branch, 901 N. 5th St., Kansas City, KS 66101, (913) 551-7622, to determine when the 45-day EPA review period ends and the 60-day petition period commences.
