**Notice of Commencement of Negotiations
for Construction Manager At-Risk Services**

Notice is hereby given of the commencement of negotiations for construction management at-risk services for the University of Kansas' 11th and Mississippi Project. Please note that this project was previously advertised but did not have sufficient responses to proceed to short listing. Thus, the project is being re-advertised.

The corner of 11th and Mississippi is becoming the north gateway to the University of Kansas (KU) with direct access to the new Jayhawk Welcome Center, the Kansas Memorial Union, Dyche Hall, Spencer Museum of Art, and David Booth Kansas Memorial Stadium. As the north gateway to campus, the University wants to develop a multi-purpose venue with year-round use, which may incorporate conference or entertainment capabilities, retail, dining, hospitality, health care services, or other facilities that support economic development and the University's academic mission. Each May the venue will be host one of the most important moments in a Jayhawk's journey, walking down Campanile hill for graduation and on seven Saturdays during the fall to be the home of Kansas Football. Further definition and direction on what will be incorporated into the multi-purpose event center will be provided after an economic impact study is completed in January 2023.

For KU fans who have experienced a football game at Memorial Stadium and walked around Campanile Hill, this campus setting is memorable and nostalgic. The new venue will be designed to drive economic development, provide services that help to recruit and retain students,

and make KU, and the KU experience, even greater. To be considered for this project, consultants should have extensive experience working with multi-purpose 24/7/365 venues, power 5 football facilities, the City of Lawrence and Lawrence Planning.

The project has a construction cost estimate of \$251,250,000.

The construction manager at-risk will provide for each phase cost estimating, scheduling, constructability reviews and value engineering studies; procure equipment, prequalify subcontractors and take bids; review bids with the design team and owner to determine bids to accept; prepare cost estimate(s) for the un-bid portion(s); provide a guaranteed maximum price and a bond; and manage construction and track all costs for the design team and owner's review.

Questions about the proposed scope of services should be submitted to Mark Reiske at 785-864-5644 or dcmmlr@ku.edu.

An architectural/engineering program is available at <https://admin.ks.gov/offices/facilities-property-management/design-construction--compliance/forms-and-documents>. Notice to Consulting Firms

The Kansas Department of Transportation (KDOT) is seeking to establish a list of consulting firms that are interested in providing design and consulting services on an on-call (as needed) basis for road and bridge projects in various locations statewide as further described below. Interested consultants must email a proposal to KDOT.DesignContracts@ks.gov by 12:00 p.m. (Central Time) March 1, 2023, to be considered for selection.

Consultant Prequalification

Interested consulting firms must be prequalified by KDOT or demonstrate qualification (following the instructions below) in any category listed in KDOT’s 1050 Prequalification Category Definitions (Blue Book) which can be found under Prequalification section here <https://www.ksdotike.org/about/doing-business-with-kdot> though increasing preference may be given to firms prequalified in more categories.

If a firm is not currently prequalified by KDOT in any categories or wishes to become prequalified in additional categories to be considered during evaluations, a proposal may still be submitted. Firms not prequalified must provide (before submission or with the proposal) documentation that demonstrates the firm is qualified in the category(ies) in which it endeavors to provide services. Firms must use the KDOT prequalification form to provide this documentation (see website linked above). All firms doing business with KDOT must be registered and in good standing under the laws of the State of Kansas at the time of contracting and must comply with applicable state and federal laws, rules, and regulations.

Background

Periodically for a given project, KDOT personnel may be unable to perform design, planning, or other tasks within the timeframe required so it may be necessary to engage a consultant firm on short notice. This process begins with KDOT issuing an on-call service request to firms that have executed an on-call master agreement specifically for these types of support. To expedite commencement of work, resulting work order(s) are executed under the terms and conditions of that agreement. KDOT anticipates entering into such an agreement with up to 50 qualified consulting firms.

Anticipated Consultant Scope

KDOT will solicit discrete on-call service requests each time a project arises that will require expedited support which KDOT cannot perform in-house. KDOT anticipates

(continued)

pates the following phases may be included in these requests: Study services, preliminary design services, and final design services.

The scope of the services requested may include a study, planning consulting, traffic or ITS engineering, survey, public involvement, road design, hydrology/hydraulics, bridge design, environmental consulting, designer construction services, and/or various other services KDOT may need.

Anticipated Schedule and Key Dates

1. Proposals are due by or before 12:00 p.m. (Central Time) March 1, 2023.

Development of on-call agreements for engineering and technical services (“Master On-Call Agreements”) with the highest ranked (shortlisted) firms are expected to begin on or around April 12, 2023. Executed agreements are anticipated to be complete no later than May 31, 2023.
3. Services associated with the “Master On-Call Agreements” resulting from this Request for Proposals (RFPs) may be requested as soon as an agreement is in place with any consultant.

Instructions for Proposal

1. No cost or pricing information shall be submitted with the proposal. Proposals including cost or pricing information will be considered non-responsive and withdrawn from further consideration. However, each firm shall affirm it can meet the accounting requirements below.
2. The consultant’s proposal must not exceed 4 pages total (including any cover letter, index, etc.). All pages shall be standard letter size (8.5” x 11”). Any page larger than standard letter size will be counted as two or more pages depending on size.
3. A single PDF (2MB maximum size) of the proposal including all attachments must be emailed to KDOT.DesignContracts@ks.gov by the proposal due date and time.
4. The subject line of the email and the PDF file name must read:
 - a. “General-Consulting-OnCall_2023_FIRM NAME”
5. The proposal must be accompanied by Special Attachments No. 8 (“Tax Clearance Certificate”) and No. 10 (“Policy Regarding Sexual Harassment”). If you need a Tax Clearance Certificate, you can request one at <https://www.ksrevenue.gov/taxclearance.html>. Allow 2-3 business days for processing.
6. The outline in Table 1 below describes the expected proposal organization and content sections.
7. Table 2 lists the evaluation criteria which will be used to make a selection. These will be evaluated on a pass/fail basis. Firms failing any category may not be shortlisted for negotiation, at KDOT’s sole discretion.

Contract Terms and Conditions

The full list of consultants holding “Master On-Call Agreements” resulting from this RFP is intended to replace the existing list of “Master On-Call Agreement” holders based on the contracts executed in 2019. Each 2019 contract will remain in effect until either the contract expiration date (without extension) or when KDOT has determined

the consultant has reached the contract maximum cumulative aggregate maximum cost. After the first of these occurs, each 2019 contract will be considered expired.

Upon such expiration, firms currently holding a “Master On-Call Agreement” that are not shortlisted or are otherwise unable to successfully negotiate a new on-call agreement for this purpose will no longer receive on-call service requests associated with this RFP.

A standard KDOT on-call agreement for engineering and technical services will be used. KDOT may request design services via on-call service requests over a period of four years (with an option to extend by one year at KDOT’s sole discretion), which will result in work orders subject to a maximum cumulative aggregate amount payable to each on-call agreement holder under the agreement. This maximum amount payable will be the same for all on-call agreement holders, will be stated in each agreement, and is anticipated to be a cost not to exceed \$5,000,000.

The following special attachments will need to be provided by the selected consultant and all subconsultants with the signed work order following negotiations and will become attachments to the contract.

- Special Attachment No. 8 (“Tax Clearance Certificate”)
- Special Attachment No. 10 (“Policy Regarding Sexual Harassment”)

Finally, each firm shortlisted must affirm it utilizes accounting systems capable of the following before the firm may be awarded a contract:

- Valid, reliable, and current costs must be available within the system to support actual costs and pricing data.
- Capability to provide a means of measuring the reasonableness of incurred costs.
- Capability to identify and accumulate allowable costs by contract or project records that will reconcile with the general ledger.
- Ability to provide supporting documentation of actual expenditures for each billing, based on costs.

Questions

All questions regarding this RFP shall be emailed to KDOT.DesignContracts@ks.gov.

Questions can be submitted until February 15, 2023; answers will be provided to all prequalified consultants on February 22, 2023.

Additional project information including construction scope to be inspected, a detailed description of the project location, and resources and inspection scope specifically requested from consultants in this request can be viewed in an online table at <https://www.ksdotike.org/about/construction-inspection-rfps>. Upon publication of this Request for Proposals (RFP), KDOT anticipates each of these inspection efforts will require full teams (project manager and inspectors, as opposed to single role staff augmentation as is occasionally requested) for various

types of construction inspection except as noted in the table. Watch the website linked above for updated information. Tabulated information (both in this RFP and on the website) shall not be relied upon during inspections. It is provided for the convenience of consultants, specifically to aid in making decisions about which projects they are interested in performing.

Specific project needs are subject to modification and/or cancellation at KDOT's discretion.

Anticipated Consultant Scope

The scope of construction inspection services and certifications required will vary for each project and are listed in the table available on the website noted above. Inspection efforts will be managed out of the offices listed. Also included for the convenience of consultants are indications of which grouped projects are currently slated to be performed by the same contractors.

Anticipated Schedule and Key Dates

1. Proposals are due by or before 12:00 p.m. (Central Time) March 1, 2023.
2. Ranking of proposals is expected to occur on or around March 8, 2023. Negotiations with the most highly ranked firm are expected to begin on or around March 15, 2023. An executed agreement is anticipated shortly thereafter.
3. Anticipated scope start dates and working days or anticipated calendar completion dates are shown in the table. All dates are subject to change.

Kansas Development Finance Authority

Notice of Hearing

A public hearing will be conducted at 9:00 a.m. Tuesday, February 28, 2023, in the offices of the Kansas Development Finance Authority (KDFA), 534 S. Kansas Ave., Suite 800, Topeka, Kansas, on the proposal for the KDFA to issue its Agricultural Development Revenue Bond for the project numbered below in the respective maximum principal amount. The bond will be issued to assist the borrower named below (who will be the owner and operator of the project) to finance the cost in the amount of the bond, which is then typically purchased by a lender bank who then, through the KDFA, loans the bond proceeds to the borrower for the purposes of acquiring the project. The project shall be located as shown:

Project No. 001109 Maximum Principal Amount: \$222,700. Owner/Operator: Nolan E. Sandell; Description: Acquisition of 116 acres of agricultural land and related improvements and equipment to be used by the owner/operator for farming purposes (the "Project"). The Project is being financed by the Lender for Nolan E. Sandell (the "Beginning Farmer") and is located at Section 3, Township 2, Range 5 West, Republic County, Kansas, approximately 8½ miles north of Courtland, Kansas on Highway 266.

The bond, when issued, will be a limited obligation of the KDFA and will not constitute a general obligation or indebtedness of the state of Kansas or any political subdivision thereof, including the KDFA, nor will it be an indebtedness for which the faith and credit and taxing powers of the state of Kansas are pledged. The bond will be payable solely from amounts received from the respective borrower, the obligation of which will be sufficient to pay the principal of, interest and redemption premium, if any, on the bond when it becomes due.

Interested individuals may participate in the public hearing in person or via conference call. Please call 844-621-3956 and use conference identification number 145 880 8929 followed by # to join the conference.

All individuals who appear at the hearing will be given an opportunity to express their views concerning the proposal to issue the bond to finance the project, and all written comments previously filed with the KDFA at its offices at 534 S. Notice of Hearing on Proposed
Administrative Regulation

A public hearing will be conducted at 1:00 p.m. April 17, 2023, in the 1st floor meeting room 124 of the Kansas Department of Agriculture, 1320 Research Park Dr., Manhattan, Kansas, to consider the adoption of a proposed regulation. The public hearing will be conducted in person and via video conferencing system. Members of the public who wish to attend the public hearing virtually must pre-register at https://kansasag.zoom.us/join/register/tZcuduhrz0pGd3f7SZjreoQ_jCw1Nn_reQ9.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments regarding the proposed regulation. All interested parties may submit written comments prior to the hearing by mail or email to the Kansas Department of Agriculture, Attn: Ronda Hutton, 1320 Research Park Dr., Manhattan, KS 66502, or ronda.hutton@ks.gov. Comments may also be made via the Kansas Department of Agriculture's website at <https://www.agriculture.ks.gov/document-services/public-comment>.

All interested parties will also be given a reasonable opportunity to orally present their views regarding the adoption of the proposed regulation during the hearing. To provide all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes. This regulation is proposed for adoption on a permanent basis. A summary of the proposed regulation and the economic impact follows:

The Kansas Department of Agriculture (KDA) is proposing revisions to K.A.R. 4-28-8 to update the regulatory requirements for retail food establishments contained in the Kansas Food Code. The Kansas Food Code sets food safety standards for Kansas retail food establishments, and the current regulatory requirements have not been updated since 2012. These proposed regulatory revisions are based on the Model Food Code currently used by the United States Food and Drug Administration, which was adopted in 2017.

Several proposed changes to the adopt by reference document are as follows:

Amended section 2-103.11 to require the person in charge to inform employees, in a verifiable manner, of requirements to report information about their health and activities as they relate to diseases transmissible through food and to require the person in charge to ensure employees are routinely monitoring food temperatures during hot and cold holding;

Amended section 3-301.11 to specify that the prohibition of bare hand contact with ready-to-eat foods does not apply to handling ready-to-eat foods that are being added as ingredients to a food that will be cooked in the food establishment to a minimum temperature specified in the Code;

Amended section 3-502.12 to specify that a HACCP plan must be provided to KDA prior to implementation;

Amended section 3-501.19 to allow ready-to-eat produce or hermetically sealed foods that are rendered time/

temperature control for safety foods upon cutting, chopping, or opening of a hermetically sealed container to begin at 21°C (70°F) or less and remain at 21°C (70°F) or less within a maximum of 4 hours;

Amended section 3-502.11 to clarify that equivalent operating plans are only required for time/temperature control for safety foods prepared under reduced oxygen packaging methods that do not control for growth of and toxin formation by *Clostridium botulinum* and the growth of *Listeria monocytogenes*;

Amended section 6-501.115 to allow dogs in exterior areas of the premises provided certain requirements are met;

Amended section 7-203.11 to prohibit food contact items from being stored in containers previously used with poisonous or toxic materials; and

Amended section 7-206.12 to match current pesticide laws that limit when rodent bait is required to be placed in tamper-resistant bait station.

The proposed regulation is not mandated by the federal government. However, food safety agencies throughout the United States have adopted Food Codes similar to the proposed Kansas Food Code that are based on the United States Food and Drug Administration's Model Code. KDA crafts its own document that closely resembles the United States Food and Drug Administration's Model Code with adjustments to ensure that the Kansas Food Code fits the needs of regulated businesses in the state and is consistent with the Kansas Food, Drug and Cosmetics Act.

The proposed regulation does not significantly change the existing requirements imposed on retail food establishments. KDA does not anticipate that the proposed regulation will significantly enhance or restrict business activity or growth in Kansas or present significant implementation and compliance costs to any of the state's businesses, sectors, public utility ratepayers, individuals, or local governments. The proposed regulation will have no effect or a very minimal effect on the state economy as a whole.

Any direct impact on Kansas businesses as a result of the proposed regulation would be minimal. The economic situation for retail food establishments is not likely to change as a result of the proposed regulation, for the same reasons set out in the preceding paragraph.

The benefits of the proposed regulation significantly outweigh the costs because the proposed updates are based on the best and most scientifically accurate food safety research. The proposed updates to the Kansas Food Code help to ensure public health by enhancing safety practices in retail food establishments. They will also provide uniformity between the requirements imposed on retail food establishments in Kansas and other states. The implementation of this regulation will not impose any significant new costs for retail food establishments.

KDA does not anticipate that the proposed regulation will significantly increase or decrease revenues of cities, counties or school districts, or impose functions or responsibilities on cities, counties or school districts that will increase their expenditures or fiscal liability. Letters of request were sent to the League of Kansas Municipal-

(continued)

ities, the Kansas Association of School Boards, and the Kansas Association of Counties. No responses were received from those entities.

KDA consulted with and solicited information from the Kansas Restaurant and Hospitality Association and the Department of Education's Child Nutrition and Wellness Advisory Council. A webinar was also held wherein the general public had the opportunity to provide comments and ask questions about the proposed regulation.

Any individual with a disability may request accommodations to participate in the public hearing and may request the proposed regulation and the economic impact statement in an accessible format. Requests for accommodations should be made at least five working days in advance of the hearing by contacting Ronda Hutton, via telephone at 785-564-6715 or via fax at 785-564-6777. Handicapped parking is located on the west side of the building at 1320 Research Park Dr., Manhattan, Kansas, and is accessible to individuals with disabilities.

Notice of Hearing on Proposed Administrative Regulation

A public hearing will be conducted at 9:00 a.m. Thursday, April 13, 2023, in the board room at the Kansas State Board of Healing Arts, 800 SW Jackson, Lower Level – Suite A, Topeka, Kansas, to consider a proposed amended regulation related to the expiration date for a resident active license.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the amended regulation. All interested parties may submit comments prior to the hearing to Courtney Cyzman, General Counsel, at the Board of Healing Arts at the address above or via email to KSBHA_HealingArts@ks.gov. All interested parties will be given a reasonable opportunity to present their views, orally or in writing, concerning the proposed amended regulation during the public hearing. In order to provide all parties with an opportunity to present their views, it

may be necessary to request each participant limit any oral presentations to five minutes.

Copies of the proposed amended regulation and the Economic Impact Statement for the proposed amended regulation may be obtained from the Kansas State Board of Healing Arts, 800 SW Jackson, Lower Level – Suite A, Topeka, KS 66612, on the agency website at <http://www.ksbha.org/publicinformation/publicinformation.shtml>, by contacting LeeAnn Hunter-Roach at 785-296-4502, or by emailing the agency at KSBHA_HealingArts@ks.gov.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed amended regulation being considered and the economic impact statement in an accessible format. Requests for accommodation to participate in the hearing should be made at least five working days in advance of the hearing by contacting Sheila Rice at 785-296-8558 or at Sheila.Rice@ks.gov. Individuals with hearing and/or speech disabilities may contact the Kansas Relay Center at 800-766-3777 for communication accommodations. Handicapped parking is located on 8th Street and in the building's parking garage. From the street, both the west entrance to the building on Jackson Street and the north entrance on 8th Street are accessible.

A summary of the proposed amended regulation and the economic impact follows:

K.A.R. 100-15-1. Expiration dates.

The proposed amendment sets the expiration date for a resident active license. The remaining portions of the regulation remain unchanged and set the expiration date for licenses to practice medicine and surgery, osteopathic medicine, and chiropractic.

The agency does not employ an economist. In the lay opinion of agency staff, those who hold a resident active license will be directly affected by the expiration, although with no economic impact unless they renew and pay the applicable renewal fee. Every expiration cycle there is a percentage of licensees who choose not to renew their license for a variety of reasons. In the event a licensee chooses to renew their license the applicable licensure fees under a separate regulation, K.A.R. 100-11-1, will apply.

The Board of Healing Arts is comprised of medical practitioners and members of the public. The proposed amendment was discussed and gained initial approval at an open Board meeting of which members of the public can attend. Further, the agency is in communication with the relevant professional organizations in Kansas and intends to comply with all public hearing requirements involved in the promulgation process.
