Kansas Permit No. P-WA17-IO01 Federal Tracking No. KSP000020

The proposed action consists of reissuing an existing pretreatment permit for an existing facility. This facility rebuilds turbine engines and performs cleaning and chemical etching of aluminum, various alloys and on steel parts. Outfall 001 is located in Building 5C and consists of a few regulated waste streams and several unregulated waste streams, including fume scrubber water. Building 5 also has a few unregulated waste streams that discharge separately from Outfall 001 including, but not limited to, an ultra-filtration unit that treats penetrant wastewater, a high pressure water jet and rinse booths treated by an oil/water separator. Buildings 2, 6, 9, 14, 20 and 22 only generate nonregulated waste streams, such as steam clean booths, which are treated by oil/water separators or grease traps and thus are not subject to permitting under this permit. The proposed permit contains limits for total toxic organics, cadmium, chromium, copper, lead, nickel, zinc, total metals, total cyanide and pH, as well as monitoring of flow.

Persons wishing to comment on the draft documents and/or permit applications must submit their comments in writing to the Kansas Department of Health and Environment if they wish to have the comments considered in the decision-making process. The Board of Education of Unified School District No. 261 (Haysville U.S.D. 261) seeks statements of qualifications from construction managers and general contractors interested in providing construction management at-risk services for the following Haysville U.S.D. 261 Safety & Security Project.

Project Description

These facility improvements will be funded by \$59,000,000 of municipal school bonds that may be authorized in June of this year by the voters of U.S.D. 261. The proposed scope of work includes the following elements:

- Addition and Renovation to Campus High School

- Renovations to Rex, Nelson, Oatville, Freeman and Prairie Elementary Schools

- Renovations to the District Administration Center
- New Tri-City and Haysville High Alternative Learning Center

- Improvements to Colt Stadium and Haysville West Athletic fields

Go to the school district website at <http://www.usd261.com/> and click on the bond information for document links to the preliminary timelines and cost summaries.

The contract form that the school district will be using is modified AIA Document A133 CMc — 2009 Standard Form of Agreement between the Owner and Construction Manager as Constructor.

Evaluation Process

This request for statements of qualifications is the first phase of a three-phase qualifications-based selection process as required by K.S.A. 72-6760. The board will evaluate the qualifications of all firms in accordance with the instructions of the request for qualifications. The board will then prepare a short list containing a minimum of three and maximum of five qualified firms, which have the best and most relevant qualifications to perform the services required of the project, to participate in phase two of the selection process. If the board receives qualifications from less than four firms, all firms will be invited to participate in phase two of the selection process. The board will have discretion to disqualify any firm that, in

the board's opinion, lacks the minimal qualifications required to perform the work.

Prequalified firms selected in phase one will be invited as part of phase two to submit a proposal for construction management at-risk services, which requires more detailed company information as well as fees for preconstruction services, general conditions costs, and overhead and profit.

Once all proposals have been submitted, the selection recommendation committee will interview as part of phase three each of the firms in executive session, allowing the competing firms to present their proposed team members, qualifications and project plan and to answer questions. The interview scoring will not account for more than 50 percent of the total possible score.

The selection recommendation committee will select the firm providing the best value based on the proposal criteria and weighting factors utilized to emphasize important elements of each project for approval by the board. All scoring criteria and weighting factors will be identified by the board in the request for proposals instructions to firms. The selection recommendation committee will proceed to negotiate with and attempt to enter into a contract with the firm receiving the best total score to serve as the construction manager at-risk for the project. Should the selection recommendation committee be unable to negotiate a satisfactory contract with the firm scoring the best total score, negotiations with that firm will be terminated, and the committee will undertake negotiations with the firm with the next best total score.

If the selection recommendation committee determines that it is not in the best interest of the board to proceed with the project pursuant to the proposals offered, the selection recommendation committee may reject all proposals. If all proposals are rejected, the board may solicit new proposals using different design criteria, budget constraints or qualifications.

The construction management at-risk contract for a project shall be prepared by the board and entered into between the board and the firm performing such construction management at-risk services. A construction management at-risk contract utilizing a cost plus guaranteed maximum price contract value shall return all savings under the guaranteed maximum price to the school district.

Subcontractor/Supplier Bidding Requirements

The board or the construction manager at-risk, at the board's discretion, will publish a construction services bid notice in the official newspaper of the school district and website of a statewide school board association or construction industry association and in such other appropriate manner for the construction manager or general contractor as may be determined by the board. Each construction services bid notice will include the request for bids and other bidding information prepared by the construction manager at-risk and the board. The board may allow the construction manager at-risk to self-perform construction services provided the firm submits a sealed bid proposal under the same conditions as all other competing firms. At the time for opening the bids, the construction manager at-risk will evaluate the bids and de-

termine the lowest responsible bidder except in the case of self-performed work for which the board shall determine the lowest responsible bidder. The construction manager at-risk shall enter into a contract with each firm performing the construction services for the project and make a public announcement of each firm selected at the first school board meeting following the selection.

State Corporation Commission

Notice of Hearing on Proposed Administrative Regulation

The State Corporation Commission will conduct a public hearing at 10:30 a.m. Wednesday, June 10, in the first floor hearing room at the commission's office, 1500 S.W. Arrowhead Road, Topeka, to consider the adoption of a proposed rule and regulation of the commission on a permanent basis.

This notice exceeds the 60-day notice requirement of the pending public hearing and shall constitute the beginning of the public comment period for the purpose of receiving written public comments on the proposed rule and regulation. A complete copy of the proposed regulation and economic impact statement may be found at the "What's New" tab on the State Corporation Commission's website, <http://kcc.ks.gov>, or by contacting Michael Duenes at m.duenes@kcc.ks.gov.

All interested parties may submit written comments prior to the hearing to Michael Duenes, litigation counsel,

State Corporation Commission, 1500 S.W. Arrowhead Road, Topeka, 66604, or by email to m.duenes@kcc.ks.gov. All interested parties will be given a reasonable opportunity to present their views orally regarding the adoption of the proposed regulation during the public hearing. In order to provide all parties an opportunity to present their views, it may be necessary to ask that each participant limit any oral presentation to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulation and economic impact statement in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Danelle Harsin at 785-271-3161 or the Kansas Relay Center at 800-766-3777. The main entrance located on the southwest side of the building is handicapped accessible. Handicapped parking is located on the southwest side of the State Corporation Commission's parking lot.

A summary of the proposed regulation and its economic impact follows: (Note: Statements indicating that a regulation is "not anticipated to have any economic impact" are intended to indicate that no economic impact on the State Corporation Commission, other state agencies, state employees or the general public has been identified.)

K.A.R. 82-4-3a. Hours of service. This existing regulation adopts relevant portions of the Federal Motor Carrier Safety Administration (FMCSA) regulations (49 C.F.R. Part 395), which establish the hours of service requirements to be followed by motor carriers and their employees. The proposed amendments to this regulation are aimed at bringing Kansas in line with previously enacted federal regulations on the 34-hour restart rule, as well as incorporating edits to reflect minor grammatical and form corrections, recent updates to other FMCSA regulations, deletions of provisions applicable only to Alaska, and exempting certain intrastate tow truck operations from these hours of service requirements.

Prior to December 11, 2014, 49 C.F.R. 395.3 required motor carrier drivers to restart any period of seven or eight consecutive work days by taking an off-duty period of 34 or more consecutive hours, including two periods of 1 a.m. to 5 a.m. On December 11, 2014, Congress did away with the 1 a.m. to 5 a.m. requirement. However, K.A.R. 82-4-3a currently retains the 1 a.m. to 5 a.m. requirement for the restart rule. Thus, interstate motor carriers need not comply with the 1 a.m. to 5 a.m. requirement, while intrastate motor carriers are still under the rule. Thus, the commission's proposed amendment would cause K.A.R. 82-4-3a to mirror the federal rule.

The Transportation Division of the commission anticipates a slight economic benefit to motor carriers that rely on the 34-hour restart rule because motor carrier drivers will now be able to restart their weekly hours with less delay. The Transportation Division is unable to put a specific dollar figure on this benefit.
