Notice to Contractors

Electronic copies of the letting proposals and plans are available on the Kansas Department of Transportation (KDOT) website at <http://www.ksdot.org/burconsmain/contracts/proposal.asp>. The website will allow the contractor to request approval from KDOT to bid as a prime contractor and be included on the "Bid Holders List," or

to be included on the "Non-Bid Holders List" as a sub-contractor/supplier. KDOT's approval is required to bid as a prime contractor. To bid as a prime contractor, KDOT needs to be notified of the intent to bid no later than the close of business on the Monday preceding the scheduled letting date. Failure to obtain prior approval to bid as a prime contractor on any projects listed below will be reason to reject your bid. The secretary reserves the right to reject bids that do not comply with all requirements for preparing a bidding proposal as specified in the 2007 edition of the Kansas Department of Transportation *Standard Specifications for State Road and Bridge Construction*.

KDOT will only accept electronic internet proposals using the Bid Express website at <http://www.bidx.com> until 1:00 p.m. local time August 17, 2016. KDOT will open and read these proposals at the Eisenhower State Office Building, 700 S.W. Harrison, Topeka, KS, at 1:30 p.m. local time August 17, 2016. An audio broadcast of the bid letting is available at <http://www.ksdot.org/burconsmain/audio.asp>.

Each bidder shall certify that such person, firm, association or corporation has not, either directly or indirectly, entered into any agreement, participated in any collusion, or otherwise taken any action in restraint of free competitive bidding in connection with the submitted bid. This certification shall be in the form of a required contract provision provided by the state to each prospective bidder. Failure to complete the required contract provision and certify the completeness of the preceding statement when electronically signing the proposal will make the bid nonresponsive and not eligible for award consideration.

Real Estate Commission

Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted at 9:00 a.m. Wednesday, October 12, 2016, at the Wichita Marriott, 9100 E. Corporate Hills Dr., Wichita, KS 67207, to consider the adoption of proposed rules and regulations of the Kansas Real Estate Commission on a permanent basis.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed rules and regulations. All interested parties may submit written comments prior to the hearing to the Kansas Real Estate Commission, Three Townsite Plaza, 120 S.E. 6th Ave., Suite 200, Topeka, KS 66603, or by email to erik.wisner@ks.gov. All interested parties will be given a reasonable opportunity to present their views orally regarding the adoption of the proposed regulations during the public hearing. In order to provide all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes.

Any individual with a disability may request an accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for accommodation to participate in the hearing should be made at least five working days in advance of the hearing by contacting Erik Wisner at 785-296-3411.

Summaries of the proposed regulations and their economic impact follow. Copies of the proposed regulations and the Economic Impact Statement for the proposed regulations can be viewed at the following website: <http://www.krec.ks.gov>.

K.A.R. 86-3-19 amendments clarify that a licensee has to disclose the interest an immediate family member has in a real estate transaction if the family member is the party purchasing or leasing real estate in the transaction. All of the proposed amendments to this regulation are language changes for the purposes of clarity and do not make any substantive changes to current policy and will therefore have no economic impact.

K.A.R. 86-3-26a amendments clarify that the brokerage relationship disclosure required in K.S.A. 58-30,110(c) has to be accurate and complete. The statute only addresses that this disclosure is included in an agency agreement. The Commission feels this addition clarifies legislative intent. All of the proposed amendments to this regulation are language changes for the purposes of clarity and do not make any substantive changes to current policy and will therefore have no economic impact.

K.A.R. 86-3-31 is a new regulation that defines specific requirements for brokers who supervise a primary or branch office. The regulation sets out defined standards and mitigating and aggravating factors the Commission would consider if they found the broker had failed to supervise their office. Since this regulation simply clarifies expectations for adequate supervision by a broker of their primary or branch office, it will have no economic impact.

K.A.R. 86-1-2, 86-1-4, 86-2-8 and 86-3-30 are proposed for repeal due to outdated or ambiguous language that is no longer required. Repealing these regulations will have no economic impact.

Summaries of the proposed regulations follow.

K.A.R. 1-2-74 – Administrative leave. This regulation defines “administrative leave” and currently restricts the use of administrative leave as a reward. The proposed amendment would eliminate that restriction, thereby allowing state agencies to provide paid time off as a reward to state employees.

K.A.R. 1-6-23 – Reemployment. This regulation addresses the reemployment of state employees following a layoff and establishes the Kansas employee preference program, which provides eligible employees with a preference in reemployment with the state. The primary amendment to this regulation reduces restrictions on the granting of exceptions to the program while other technical amendments update language regarding performance review ratings and correct the statutory citation for the state’s veterans’ preference program.

K.A.R. 1-7-11 – Employees entitled to appeal performance reviews. This regulation grants employees the right to appeal performance ratings received through the state’s performance management process as established in K.A.R. 1-7-10. The amendment to this regulation limits the performance ratings that can be appealed by eligible employees to just ratings of “unsatisfactory” or “needs improvement” instead of any rating less than the highest rating of “exceptional” which is what is currently allowed.

K.A.R. 1-9-23 – Shared leave. This regulation establishes the State’s shared leave program, whereby eligible state employees can receive donations of accrued leave from other state employees. The primary amendment to this regulation limits the amount of sick leave that an employee can donate upon retirement to no more than 80 hours.

K.A.R. 1-14-8 – Computation of layoff scores. This regulation provides that layoff scores for state employees are calculated by multiplying an employee’s average performance review rating by the employee’s length of service. Amendments to this regulation change the value of the length of service component of the formula to be expressed in years rather than months, and also change the value of three of the performance review ratings as well. Other amendments to the regulation change the third tiebreaker in cases of identical layoff scores and eliminate a subsection establishing values for performance reviews conducted prior to the implementation of the current performance management process on October 1, 2009.

K.A.R. 1-14-10 – Procedures for bumping and layoff conferences. This regulation establishes procedures for bumping and conferences with impacted employees during the process of a layoff. The primary amendment

to this regulation allows agencies to prevent an employee from being laid off regardless of the employee’s layoff score if the loss of the employee’s particular knowledge, skills, abilities, certification, licensure or combination thereof would substantially impair the agency’s ability to perform its essential functions. Language requires that any such action must be approved by the director of Personnel Services.

The proposed action is to reissue an existing permit for discharge during a groundwater remediation project. Nitrate contaminated groundwater is pumped out through two recovery wells. Historically, the groundwater was contaminated with herbicides and nitrates and was pumped and treated via activated carbon filters and discharged. Currently, the activated carbon filter system is no longer present as herbicides levels are no longer a concern. The recovered nitrate concentrated groundwater from the well is discharged without any treatment. The treatment of the contamination is achieved by radial dilution with low concentration groundwater near the recovery well to below 10 mg/l nitrate. The proposed permit contains limits for nitrate and pH, as well as monitoring total phosphorus, atrazine, metolachlor, sencor, alachlor and flow.

Persons wishing to comment on the draft documents and/or permit applications must submit their comments in writing to the Kansas Department of Health and Environment if they wish to have the comments considered in the decision-making process.
