If the EPA has not objected in writing to the issuance of the permit within the 45-day review period, any person may petition the administrator of the EPA to review the permit. The 60-day public petition period will directly follow the EPA's 45-day review period. Interested parties may contact KDHE to determine if the EPA's 45-day review period has been waived.

Any such petition shall be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided for in this notice, unless the petitioner demonstrates that it was impracticable to raise such objections within such period, or unless the grounds for such objection arose after such period. Economic Impact Summary: The season generates approximately \$1,742,500 in user fees, all of which accrue to the wildlife fee fund, and generates approximately \$51,712,000 to the Kansas economy, based on economic studies provided by the USFWS. Otherwise, the proposed version of the regulation is not anticipated to have any other significant economic impact to the department, other state agencies, small businesses, or individual members of the public.

A public hearing will be conducted at 10:00 a.m. Wednesday, January 9, 2019, in the 1st floor meeting room 124 of the Kansas Department of Agriculture, 1320 Research Park Dr., Manhattan, Kansas, to consider the adoption of proposed regulations.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed rules and regulations. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes. These regulations are proposed for adoption on a permanent basis. A summary of the proposed regulations and their economic impact follows:

Due to the passage of SB 263 by the 2018 Kansas Legislature, the Kansas Department of Agriculture is proposing the promulgation of new rules and regulations relating to the creation of the Industrial Hemp Research Program as authorized by the Alternative Crop Research Act, K.S.A. 2018 Supp. 2-3901 *et seq.*

K.A.R. 4-34-1 – This regulation contains terminology and definitions relevant to and used throughout the proposed regulations.

K.A.R. 4-34-2 – This regulation sets forth requirements relating to certification of industrial hemp seed.

K.A.R. 4-34-3 – This regulation explains the approval processes for individuals seeking to obtain any license to conduct research pursuant to the Industrial Hemp Research Program. The regulation sets out the stages

of the approval process at which applicable fees must be paid and specifies the process for completing the required fingerprint-based state and national criminal history record check.

K.A.R. 4-34-4 – This regulation contains the requirements of the research license applications. The regulation identifies information required on each research license application, including listing all individuals required by the application, specifies requirements for each research proposal, establishes application deadlines, and specifies when the department may deny or decline to consider a research license application.

K.A.R. 4-34-5 – This regulation establishes requirements for all licenses and contains general requirements for licensees. This regulation specifies that a license must be issued prior to an individual conducting any industrial hemp-related activity pursuant to the Industrial Hemp Research Program and also specifies that licensees must have any required license in their possession when conducting such industrial hemp-related activities. It also sets forth certain events that a licensee is required to notify the department of. Additionally, the regulation identifies varieties of industrial hemp that can be utilized; authorizes inspections, sample collection and access by the department to a licensee's industrial hemp; permits the agency to release information; and authorizes educational opportunities.

K.A.R. 4-34-6 – This regulation contains additional license requirements for individuals issued a research grower license, specifies acreage limitations under one license, and requires a primary licensee to have a primary Kansas residence.

K.A.R. 4-34-7 – This regulation contains additional license requirements for individuals issued a research distributor license and requires a primary licensee to have a primary Kansas residence.

K.A.R. 4-34-8 – This regulation contains additional license requirements for individuals issued a research processor license and specifies additional requirements for a licensee utilizing a mobile processing facility.

K.A.R. 4-34-9 – This regulation contains additional license requirements for individuals that are issued a state educational institution license. The regulation requires that state educational institutions authorizing participation in the Industrial Hemp Research Program be responsible for those individuals that are issued licenses. With some exceptions, the regulation authorizes state educational institution licensees to conduct the same activities as licensed research growers, licensed research distributors, and licensed research processors and requires state educational institution licensees to comply with the same licensing requirements as those licensees. The regulation further specifies that no application fees or license fees shall be imposed for state educational institution licenses but the fees for fingerprinting and the state and national criminal history record check are applicable.

K.A.R. 4-34-10 – This regulation contains license requirements for individuals that are issued an administrative license. The regulation specifies that administrative

licenses may be issued to members of the State Advisory Board, employees of the designated certifying agency, and employees of the department that require licensure as a result of their employment responsibilities. The regulation further specifies that no application fees or license fees shall be imposed for administrative licenses.

K.A.R. 4-34-11 – This regulation contains requirements relating to the State Advisory Board. The regulation establishes the requirements for the composition of the board's membership and terms of the board members, enumerates the assigned duties of the board, and clarifies the administrative license requirement for members of the board.

K.A.R. 4-34-12 – This regulation establishes the fees associated with the Industrial Hemp Research Program. The regulation specifies the application fees, license fees, sampling fees, testing fees, and fees for modification of a license.

K.A.R. 4-34-13 – This regulation establishes the requirements for modification of a license previously issued by the department and addresses the procedure for modification of a license in the event of a primary licensee's death.

K.A.R. 4-34-14 – This regulation includes the land-use restrictions for licensees and establishes signage requirements for research areas.

K.A.R. 4-34-15 – This regulation addresses the movement, sale, or transfer of industrial hemp. It sets out that such activities are at the risk of the licensee and must comply with applicable local, state, and federal laws and regulations.

K.A.R. 4-34-16 – This regulation authorizes licensees to voluntarily withdraw from the Industrial Hemp Research Program. Additionally, the regulation sets forth the process for a licensed research grower to conduct a voluntary partial destruction of their industrial hemp.

K.A.R. 4-34-17 – This regulation contains requirements for licensed research growers prior to harvest, establishes certain harvest requirements, and identifies the information required for the department to issue a harvest certificate.

K.A.R. 4-34-18 – This regulation contains requirements relating to the department's collection of pre-harvest samples and testing. The regulation states that test results with a delta-9 tetrahydrocannabinol concentration of 0.3% or less will result in the issuance of a passing report of analysis. It also states that test results with a delta-9 tetrahydrocannabinol concentration of 0.3% or higher will result in the issuance of a failing report of analysis. This regulation also sets out that a passing report of analysis is required before a licensee can complete the harvest and requires that, if a failing report of analysis is issued, the primary licensee destroy all plants in the research areas that were sampled unless the primary licensee requests a subsequent sample and re-test.

K.A.R. 4-34-19 – This regulation contains requirements relating to the department's collection of post-harvest samples and testing. The regulation states that test results with a delta-9 tetrahydrocannabinol concentration of 0.3% or less will result in the issuance of a passing

report of analysis. It also states that test results with a delta-9 tetrahydrocannabinol concentration of 0.3% or higher will result in the issuance of a failing report of analysis. This regulation also sets out that a passing report of analysis is required before a licensee can complete the harvest and requires that, if a failing report of analysis is issued, the primary licensee destroy all plants in the research areas that were sampled unless the primary licensee requests a subsequent sample and re-test.

K.A.R. 4-34-20 – This regulation contains the reporting requirements for licensees and requires the following reports to be completed by the established deadlines: the field planting report, the voluntary withdrawal report, the pre-harvest report, the production report, the distribution report, the processing report, and the research report.

K.A.R. 4-34-21 – This regulation details actions and situations that warrant disciplinary action by the department and specifies the penalties for such actions.

Economic Impact Statement:

These proposed rules and regulations are authorized by 7 U.S.C. 5940, the 2014 Farm Bill, which allows state departments of agriculture to implement industrial hemp pilot programs for research purposes. While the 2014 Farm Bill does not explicitly require state departments of agriculture to implement rules and regulations for the administration of an industrial hemp pilot program, the federal law does require that the departments of agriculture of states wishing to implement an industrial hemp pilot program be authorized to promulgate such rules and regulations.

These proposed rules and regulations differ from those of contiguous states for several reasons. Most notably, Colorado's industrial hemp pilot program differs substantially from the one contemplated for Kansas because Colorado has legalized both medicinal and recreational marijuana by state law and allows the commercial sale of industrial hemp. Both medicinal and recreational marijuana remain illegal in Kansas, and the Kansas Industrial Hemp Research Program is research-focused; commercial production is not yet allowed. Thus, Colorado's rules and regulations do not need to contemplate the same administrative testing burdens, restrictions on sale, or law enforcement issues that the Kansas rules and regulations do.

Secondly, these proposed rules and regulations differ from those of other contiguous states because Kansas has taken a broader approach to who is allowed to participate in the department's program than those states have. Kansas will allow individual farmers, as well as the department and state educational institutions, to be licensed to grow industrial hemp for research purposes. By contrast, Nebraska only allows persons affiliated with its state department of agriculture or post-secondary institutions to be licensed growers. Similarly, Oklahoma's pilot program is limited so as to allow postsecondary institutions to either grow industrial hemp for research purposes or to subcontract with individuals or businesses to do so. Missouri allows no more than two non-profit entities to grow, process, and possess industrial hemp or industrial hemp extracts. These differences all necessi-

(continued)

tate the Kansas rules and regulations being quite extensive and detailed when compared to those of contiguous states. In administering the Industrial Hemp Research Program in Kansas, the department will be required to ensure that numerous individual growers operate in compliance with Kansas law. Doing so will unavoidably entail a significant administrative burden as long as the substance with which those individual growers are dealing occupies a gray area between a research project, an agricultural commodity, and a controlled substance.

The proposed rules and regulations will likely have a limited impact on business activities and growth within the state at this time. The authorizing statute is research-focused, and the commercial production of industrial hemp is currently not allowed in Kansas. However, significant long-term enhancement of business activity is possible as an indirect result of these rules and regulations, as a successful research-based pilot program may lead to the eventual legalization of commercial industrial hemp in Kansas. These rules and regulations do allow for the sale and purchase of industrial hemp seeds or plants among licensees, so there is some potential for increased economic activity in that regard. Additionally, industrial hemp requires inputs similar to those required for other crops, so licensees building growing or storage facilities and purchasing fertilizer, pesticide, herbicide, and equipment may account for some increased economic activity. It should be noted, though, that many inputs such as the ones mentioned are not yet authorized or proven to work well for use on industrial hemp. For example, in states that have already implemented pilot programs, farmers have had difficulty keeping weeds out of their fields, and industrial hemp has proven particularly difficult to harvest using traditional means. This uncertainty as to the effectiveness of traditional inputs for use on industrial hemp means that it is difficult to predict how much economic activity may result from the purchase of such inputs. The impact could be moderately significant, or could be negligible, depending on whether licensees are willing to gamble on unproven inputs. The rules and regulations will likely not restrict existing business activities in Kansas in any way.

The annual fees expected to be levied by the department under the Industrial Hemp Research Program are as follows:

Category	Proposed Fee
Application Fee	\$ 200.00
Research Grower License	\$ 1,000.00
Research Distributor License	\$ 2,000.00
Research Processor License—fiber or grain	\$ 3,000.00
Research Processor License—floral material	\$ 6,000.00
Sampling Fee (per hour)	\$ 45.00
Laboratory Testing Fee	\$ 250.00
License Modification Fee	\$ 750.00

In determining the total implementation and compliance costs expected to be incurred by other governmental agencies, letters of request were sent to the Kansas County and District Attorneys Association, Kansas Peace Officers Association, Kansas Sheriffs Association, Kansas Highway Patrol, Kansas Bureau of Investigation,

Johnson County Sheriff’s Office Criminalistics’ Laboratory, Sedgwick County Forensic Science Center, Kansas Association of Chiefs of Police, Kansas Association of School Boards and the Kansas Association of Counties. Responses were received from the Kansas Bureau of Investigation and the Sedgwick County Forensic Science Center. The Kansas Bureau of Investigation estimated in their reply that their annual costs, in the first year of implementation will be \$255,845 “to build an internal base capacity to perform THC quantitation analysis on a limited number of samples per year”, or \$990,200 “if the program expands to the point where the ability to establish probable cause of a criminal violation is dependent on a THC quantitation analysis and the KBI were required to such analyses on all vegetative samples submitted to our laboratory.” The Sedgwick County Forensic Science Center responded that they did not believe the regulations would have any economic impact on them.

These proposed regulations will likely not have any restrictive effect on existing businesses in Kansas, as the Industrial Hemp Research Program is not commercialized at this time. Businesses that sell agricultural inputs or greenhouse materials or equipment could see some increase in activity as a result of these rules and regulations.

These proposed regulations have the potential to provide significant long-term economic benefit to the state of Kansas, as a successful pilot program would likely lay the groundwork for the introduction of commercial industrial hemp in Kansas. If industrial hemp crops under the pilot program grow well and are shown to have the potential to be profitable, many Kansas farmers may begin growing the crop within the next several years. Those potential benefits are difficult to quantify, but could be significant. As discussed above, the regulations as written also provide the potential for economic benefits to agricultural input providers and to licensees, who will be allowed to sell various aspects of their industrial hemp crop.

The regulations will also, however, impose a significant burden on the department, laboratory testing facilities, and law enforcement, especially while the pilot program is in its infancy. It will likely take the department and law enforcement some time to determine the most efficient ways to administer the department’s program. Because of this, it is admittedly likely that the administrative costs of these regulations will outweigh any direct economic benefit in the short-term. However, these regulations are a necessary step in moving toward the commercialization of industrial hemp in Kansas in compliance with federal law and the wishes of the legislature, and the potential economic benefits of commercialization far outweigh short-term administrative costs.

These proposed regulations do not present substantial costs or impacts to existing business activity within the state. The vast majority of the costs presented by these proposed regulations will be borne by governmental agencies and by the individuals participating in the program as licensees—business entities are not at this time allowed to hold a license in the name of a corporate entity or partnership. Some people eventually may leave jobs at existing businesses in hopes of making a living growing industrial hemp, but the economic impact of such to overall business activity in Kansas would likely

be negligible, particularly short-term when the growth of industrial hemp in Kansas is still research-based. The majority of people wishing to grow industrial hemp will be people who already make their living as farmers and are simply adding industrial hemp to the crops they already grow.

The estimated total annual implementation and compliance cost reasonably expected to be incurred by or passed along to businesses, local governments, or members of the public is \$1,117,000.00.

In determining anticipated implementation and compliance costs, letters of request were sent to the Kansas County and District Attorneys Association, Kansas Peace Officers Association, Kansas Sheriffs Association, Kansas Highway Patrol, Kansas Bureau of Investigation, Johnson County Sheriff's Office Criminalistics Laboratory, Sedgwick County Forensic Science Center, Kansas Association of Chiefs of Police, Kansas Association of School Boards and the Kansas Association of Counties. Responses were received from the Kansas Bureau of Investigation and the Sedgwick County Forensic Science Center. The majority of the implementation and compliance costs associated with these regulations outside of the Kansas Department of Agriculture lie with the Kansas Bureau of Investigation. The Kansas Bureau of Investigation estimates that their costs in the first year of implementation will be \$255,845 "to build an internal base capacity to perform THC quantitation analysis on a limited number of samples per year," or \$990,200 "if the program expands to the point where the ability to establish probable cause of a criminal violation is dependent on a THC quantitation analysis and the KBI were required to such analyses on all vegetative samples submitted to our laboratory." We selected the larger of the two numbers provided in our analysis. The Sedgwick County Forensic Science Center responded that they did not believe the regulations would have any economic impact on them. The estimate of KDA's total implementation and compliance costs upon business, local governments, or members of the public of \$1,117,000 are based on the attached table.

The proposed regulations will not significantly increase or decrease revenues of cities, counties, or school districts, as most of the costs of the Industrial Hemp Research Program will be borne by the department and the Kansas Bureau of Investigation. Counties and municipalities could see some expenditures as a result of costs to local law enforcement, though most law enforcement costs will be at the state level. Letters of request were sent to the League of Kansas Municipalities, the Kansas Association of School Boards and the Kansas Association of Counties. No responses were received from those entities.

Letters were sent to the League of Kansas Municipalities, the Kansas Association of Counties, the Kansas Association of School Boards, the Kansas Bureau of Investigation, the Kansas Highway Patrol, the Kansas Sheriff's Association, the Kansas Peace Officers' Association, the Kansas County and District Attorneys' Association, the Kansas Association of Chiefs of Police, the Sedgwick County Regional Forensic Science Center and the Johnson County Sheriff's Office Criminalistics Laboratory inquiring whether the draft regulations will have an economic effect on those organizations. These letters

requested a statement of quantified costs associated with implementation and compliance, an estimate of the total annual implementation and compliance costs, a statement of whether implementation and compliance costs will exceed \$3,000,000 over any two-year period, a statement of whether the draft regulations will increase or decrease the organizations' revenue, and a statement of whether the draft regulations will impose functions or responsibilities on the organizations that will increase their fiscal expenditures or fiscal liability. Furthermore, draft regulations were shared with the public via the Kansas Department of Agriculture's website and the public was able to submit comments or concerns to the department.

The department does not anticipate any costs accruing if the proposed regulations are not adopted.

The following table is the department's detailed estimate of total implementation and compliance costs that are reasonably expected to be incurred by or passed along to business, local governments, or members of the public.

Category	Proposed Cost	# Expected	Estimated Total Cost
<i>Implementation and compliance costs of the department</i>

Notice of Hearing on Proposed Administrative Regulations

The Kansas Department of Health and Environment, Division of Public Health, Bureau of Community Health Systems, will conduct a public hearing at 10:00 a.m. Wednesday, January 16, 2019, in the Flint Hills Conference Room, third floor, Curtis State Office Building, 1000 SW Jackson, Topeka, Kansas, to consider the adoption of proposed amended regulations K.A.R. 28-35-146a and 28-35-147a regarding radiation control fees.

A summary of the proposed regulations and the estimated economic impact follows:

Summary of Regulations:

K.A.R. 28-35-146a. Determination of hourly rate and full cost; fee payments. The hourly rate charged for any service or activity that does not have an established fee specified in K.A.R. 28-35-147a will rise from \$55.00 to \$79.00.

K.A.R. 28-35-147a. Schedule of fees. Annual fees for radioactive materials licensing and x-ray registration will rise slightly for all categories to be equal to the maximum allowed by Kansas statute, while remaining lower than the corresponding fees charged by the U.S. Nuclear Regulatory Commission and other nearby states. The regulation also provides that, as specified by Kansas statute, an additional fee of 50 percent is charged for licenses with noncontiguous sites.

Economic Impact:

Cost to the agency: There is no added cost to the agency associated with the amendments to these regulations.

Cost to the public and regulated community: The increase is estimated to be approximately \$111,000 for all radioactive materials licensees and \$303,235 for all x-ray registrations. The fees charged by the Radiation Control Program are reasonable and comparable to fees charged to maintain radiation control programs in other states and are significantly less than fees charged by the U.S. Nuclear Regulatory Commission. These fees may be passed on to consumers.

Cost to other governmental agencies or units: There are two state universities and two state agencies that will have increased costs for their radioactive materials license. Also, eight city governments that possess a radioactive materials license for portable gauges for civil construction will see a small increase in their license fee.

The time period between the publication of this notice and the scheduled hearing constitutes a 60-day public comment period for the purpose of receiving written public comments on the proposed regulations. All interested parties may submit written comments prior to 5:00 p.m. on the day of the hearing to Kimberly Steves, Kansas Department of Health and Environment, Bureau of Community Health Systems, Radiation Control Program, 1000 SW Jackson, Suite 330, Topeka, KS 66612-1365, by email to Kim.Steves@ks.gov, or by fax to 785-559-4251. During the hearing, all interested parties will be given a reasonable opportunity to present their views orally on the proposed regulations as well as an opportunity to submit their written comments. In order to give each individual an opportunity to present their views, it may be necessary for the hearing officer to request that each presenter limit an oral presentation to an appropriate time frame.

Complete copies of the proposed regulations and the corresponding economic impact statement may be obtained from the Radiation Control Program website, at <http://www.kdheks.gov/radiation/radpubnotice.html> or by contacting Kimberly Steves at Kim.Steves@ks.gov, phone 785-296-1560, or fax 785-559-4251. 51-17-2. Methods of filing; service. On and after November 30, 2018, each party represented by legal counsel shall file workers compensation case documents through the electronic filing (E-filing) system of the division of

workers compensation (division) in the Kansas department of labor, as specified in K.A.R. 51-1-26. Any party not represented by legal counsel may file using the division's electronic filing system. If a party not represented by legal counsel chooses not to use the division's electronic filing system, the party shall file by facsimile, by mail, or by hand-delivery directly to the division and shall serve a copy of each document on the parties.

(a) Definitions. Each of the following terms as used in this regulation, unless the context requires otherwise, shall have the meaning specified in this subsection:

(1) "Document" shall include not more than one pleading and corresponding exhibits.

(2) "Facsimile filing" and "filing by fax" mean the facsimile transmission of a document to the division for filing with the division.

(3) "Facsimile machine" means a machine that can send a facsimile transmission.

(4) "Facsimile transmission" means the transmission of a copy of a document by a system that encodes a document into electronic signals, transmits the signals over a telephone line or other communications medium, and reconstructs the signals to print a duplicate of the document at the receiving end.

(5) "Fax" is an abbreviation for "facsimile" and means, as indicated by the context, the facsimile transmission or document so transmitted.

(6) "Filing" means the act of submitting a document to the division for the division's consideration and action. A document is filed by delivering it to the division by one of the means specified in this regulation.

(7) "Filing by hand-delivery" means submitting a document to the division by delivery in person to the division. Proof of filing by hand-delivery is established by retention of a copy of the hand-delivered document that has been date-stamped by an employee of the division at the time of the hand-delivery.

(8) "Filing by mail" means submitting a document to the division through the United States postal service, or other service or system by which letters and parcels are collected and delivered for a fee, addressed to an office of the division of workers compensation. Filing by mail is complete upon receipt by the division.

(9) "Serve" means to deliver a document, or copy thereof, by a party in a legal action or proceeding in which the party is involved, to another person, entity or party, electronically, by fax, by mail, or by hand-delivery.

(10) "Service by fax" means the transmission of a document by facsimile machine. Service by fax shall be complete upon generation of a transmission record by the transmitting machine indicating the successful transmission of the entire document. Service that occurs after midnight, central standard time, shall be deemed to have occurred on the next day.

(11) "Service by hand-delivery" means the delivery in person of a document to the party upon whom service is required or, if the party is a nonperson entity, by handing the document to a person in charge or person designated for this purpose at an office of the party.

(12) "Service by mail" means the delivery of a document by United States postal service, or other service or

(continued)

system by which letters and parcels are collected and delivered for a fee, addressed to the party's last known address. Service by mail shall be presumed if a person fills out and signs a written certificate of service.

(13) "Transmission record" means the document printed by the sending facsimile machine stating the telephone number of the receiving machine, the number of pages sent, the transmission time, and an indication of any errors in transmission.

(b) Form of documents.

(1) The document placed in the transmitting fax machine shall comply with all applicable requirements on the form, format, and signature of papers.

(2) The first page of each document filed by fax shall include the words "by fax." Each page shall be numbered and shall include an abbreviated caption of the case and an abbreviated title of the document. The party shall also include the party's name, address, telephone number, and fax number on the document.

(c) Methods of filing by a party not represented by legal counsel.

(1) If a party not represented by legal counsel chooses not to use the division's electronic filing system, the party may file by fax directly to the division of workers compensation, at the facsimile numbers authorized, or by mail or hand-delivery to the division.

(2) The division's facsimile machine shall be available on a 24-hour basis. This provision shall not prevent the division from sending documents by fax or providing for normal repair and maintenance of the fax machine. Facsimile filings received in the division shall be deemed filed at the time printed by the division facsimile machine on the final page of the facsimile document received.

(3) Each facsimile document filed shall be accompanied by the facsimile transmission cover sheet, which shall contain the date, the docket number, case caption, party name, address, telephone and fax numbers, and the name of the document. The cover sheet shall be the first page transmitted.

(4) Each party filing by fax shall cause the transmitting facsimile machine to print a transmission record of each filing by fax. If the facsimile filing is not filed with the division due to an error in the transmission of the document the occurrence of which was unknown to the sender, any other failure not within the sender's control, or a failure to process the facsimile filing when received by the division, the sender may move the administrative law judge or the workers compensation board for an order to accept the timely filing of the document. The motion shall be accompanied by the transmission record, a copy of the document transmitted, and an affidavit of transmission by fax as set forth in a form specified by the director.

(5) Filing of documents by mail, properly addressed with postage or delivery fees paid, or by hand-delivery to the division's office in Topeka, Kansas shall be complete upon receipt by the division.

(d) Possession of documents. Each party not represented by legal counsel who files by fax shall retain the original document in the party's possession or control during the pendency of the action and shall produce this document upon request by the division, administrative law judge, workers compensation board, or any party to the action.

Upon failure to produce the document, the fax may be stricken, and the party may be subject to sanctions under K.S.A. 44-5,120(d)(20), and amendments thereto.

(e) Signatures. Each signature reproduced by facsimile transmission shall be considered an original signature.

(f) Service by the division by electronic transmission and by mail.

The division shall serve documents and notices requiring service electronically upon any party represented by legal counsel and upon any party not represented by legal counsel who has elected to use the division's electronic filing system. Documents and notices requiring service shall be served by mail on a party not represented by legal counsel who has not elected to use the division's electronic filing system.

(g) Certificates of service.

(1) Each electronically filed document shall include a certificate of service if service is required. Each certificate of service by electronic transmission shall include the following:

A player shall access the appropriate interactive game through the Kansas Lottery PlayOn program available at www.kslottery.com. The player shall follow the hyperlink specifically designated for the purpose of accessing the "Winter Ca\$h Instant Ticket Promotion." The player may enter the required data from the instant ticket manually for entry into the drawing. If the player does not enter the ticket data manually, the player may scan, if available, the ticket to enter data to be used for entry into the drawing using a mobile device and a downloaded Kansas lottery PlayOn app. After the ticket data is successfully entered either manually or scanned using an app, the player will be given the option to play the interactive game now or later. Once the interactive game is played, the player will receive a random number of entries into the drawing based on the price of the specific non-winning ticket entered and the probability matrix developed for the interactive game.

(e) Each drawing shall select six entrants. The first entrant selected in each drawing shall be the winner of a cash prize. The next five entrants selected, numbers 2 through 6, shall serve as alternates in the order drawn, if needed.

That winner must return his or her completed claim form, and the claim form must be received by the Kansas lottery within 20 days following the date of the online event drawing. Failure to return the completed claim form in the allotted time shall result in the prize being awarded to an alternate winner, unless the Executive Director determines that due to exceptional circumstances, beyond the control of the claimant the completed claim form was not received by the Lottery in time. In that instance the Executive Director may decide that the prize is still eligible to be awarded to the original winner. In the event an alternate winner is awarded a prize, that alternate winner must return his or her completed claim form and the claim form must be received by the Kansas lottery within

20 days following the date the alternate winner was sent a claim form via U. S. mail or another alternate will be selected until all alternates are exhausted.

Article 501.—SOUTH CENTRAL GAMING ZONE

111-501-101. Method of play. (a) The Kansas Star Casino may designate certain poker games to participate in the Bad Beat Jackpot. The jackpot will be funded by the Kansas Star Casino in the initial amount of \$5,000 (the "primary jackpot"), with additional contributions to the jackpot coming from each pot in the designated poker games reaching a minimum of \$20. When the pot for a game reaches \$20, \$1 is placed in the Bad Beat drop box (a box located at each game table designated for the receipt of chips or cash).

(b) Unless and until a secondary jackpot is funded as set forth hereinafter, all money placed in the Bad Beat drop box shall be credited as follows:

(1) twenty-five percent (25%) shall be added to the primary jackpot;

(2) seventy-five percent (75%) shall be retained in the bad beat jackpot promotional fund (the "promotional fund") to fund future bad beat jackpots, tournaments, events and other poker promotions at the Kansas Star Casino;

(3) if the primary jackpot is awarded, the primary jackpot will be reseeded with \$5,000 from the promotional fund; and,

(4) if the promotional fund does not have enough funds in it to fully reseed the primary jackpot, Kansas Star Casino shall pay such additional amount as is necessary to reseed the primary jackpot. Kansas Star Casino shall then be reimbursed the additional amount it paid at the rate of five percent (5%) from the primary jackpot and five percent (5%) from the promotional fund until Kansas Star Casino has been repaid the amount it paid toward reseeding the primary jackpot.

(c) The Bad Beat drop box will be taken to the count room during the regular table games drop (the removal of chips and money from the gaming tables). The contents of each Bad Beat drop box will be counted daily and the amount credited as provided herein.

(d) A minimum of \$20 (including pot money and rake) must be in the pot for that hand in order for the hand to qualify for the Bad Beat jackpot.

(e) The primary jackpot amount shall be paid to any player whose hand consists of four-of-a-kind or a higher ranking hand, and is beaten by another player's hand consisting of a four-of-a-kind or higher ranking hand.

(continued)

Both the winning hand and the losing hand must use both of their hole cards (the cards dealt face down) to qualify.

(f) Distribution of the primary jackpot shall be as follows:

(1) Fifty percent (or equal portions of fifty percent if multiple players have identical qualifying Bad Beat hands) of the primary jackpot total for the game in which the Bad Beat occurred will be given to the holder(s) of the second best hand (the losing hand).

(2) Twenty-five percent (or equal portions of twenty-five percent if multiple players are holding identical winning hands) of the primary jackpot total in which the Bad Beat occurred will be given to the holder(s) of the best hand (the winning hand). If more than one hand meets the qualifications specified for the Bad Beat jackpot losing hand, the best hand will be considered the winner (25%) and the second best will be considered the loser (50%). Only in the event of identical ranking poker hands will the loser's 50% share or winner's 25% share be split.

(3) The remaining twenty-five percent of the primary jackpot for the game in which the Bad Beat occurred will be split among the remaining players at the table who were dealt a hand in that game.

(4) All payouts will be rounded up to the nearest dollar, adjusting the remaining jackpot balance accordingly.

(g) A minimum of four players must be dealt in a hand in order for the hand to qualify for the Bad Beat jackpot.

(h) Reduced rake games will not qualify for the Bad Beat jackpot. Bad Beat money will not be taken from a reduced rake game.

(i) Should there be a deviation (for example a misdeal, a missing card, two cards of the same rank and suit, extra cards, or cheating) the jackpot may be declared null and void by the casino shift manager or higher ranking casino official. (Authorized by K.S.A. 2018 Supp. 74-8710 and K.S.A. 74-8748; implementing K.S.A. 2018 Supp. 74-8710; effective, T-111-4-9-12, Feb. 15, 2012; amended, T-111-12-20-13, Nov. 13, 2013; amended, T-111-10-30-18, Sept. 13, 2018.)

The totals 2, 3, 4, 5, 6, 8, 9, 10, 11, and 12 may be rolled in any order and the same total may be rolled more than once. The wager will lose if a 7 is rolled before totals 2, 3, 4, 5, 6, 8, 9, 10, 11, and 12 are all rolled by the shooter. (Authorized by K.S.A. 2018 Supp. 74-8710 and 74-8748; implementing K.S.A. 2018 Supp. 74-8710; effective, T-111-2-2-17, November 9, 2016; amended, T-111-4-18-18, Feb 27, 2018; amended, T-111-10-30-18, Sept. 13, 2018.)

111-601-37. Making and removal of wagers. (a) All wagers at craps shall be made by placing gaming chips on the appropriate areas of the craps layout.

(b) Wagers shall be made before the dice are thrown.

(c) Wagers may be made by a player or may be made by verbal confirmation of a desired bet communicated to the dealer by the player with subsequent placement of said bet on the appropriate portion of the layout by the dealer.

(d) A wager made on any bet may be removed or reduced at any time prior to a roll that decided the outcome of such wager except that a pass bet and a come bet shall not be removed or reduced after a come-out point or some point is established with respect to such bet. Pass line and come bets are always active and cannot be changed or withdrawn until the bet either wins or loses.

(e) A don't come bet and a don't pass bet may be removed or reduced at any time but may not be replaced or increased after such removal or reduction until a new come-out roll.

(f) All place bets, come bet odds and hardways shall be inactive on any come-out roll unless requested "on" by the player and confirmed by the dealer through placement of an "on" button on top of the wager. All other wagers shall be considered active unless a player requests to have his bets inactive. The dealer through placement of an "off" button must confirm this.

(g) Minimum and maximum table limits will be posted.

(h) If a player wagers less than the table minimum bet and the dealer does not notice it, the dealer shall take or pay the amount actually bet and instruct the player of the minimum amount that must be wagered on subsequent bets.

(i) If in error a player has been permitted to wager more than the table maximum, the dealer shall remove the excess and return it to the player, pay the bet at the correct odds for the maximum allowable wager, and inform the player of the permissible amount that can be wagered on subsequent bets.

(j) In the event of a dealer placing a bet for a player, chips shall not be taken from the player's hands or from the rack in front of the player. All chips for the bet shall be set down on the layout by the player and the dealer shall clarify the purpose of the chips before picking them up.
