Notice of Requested Architectural Services

Notice is hereby given of the commencement of the selection process for architectural services for the Wildcat OneStop renovation and additions to Kedzie Hall located at Kansas State University. Kedzie Hall will provide a centralized location for the Wildcat Onestop, the Cashiers Office, the Student Financial Aid Office, the Registrar's Office, and will consolidate service points in order to simplify the student experience. Co-locating the Powercat Financial student financial management resource center into this building will provide clarity for students and convenient access to financial resources. An additional program that will benefit from easy access to the OneStop is the Military and Veterans Resource Center. This project proposes to combine the portion of student financial aid services that directly serves military and veteran students with the MARC to centralize services to military and veteran affiliated students into one suite. The project also provides space for the Enrollment Management leadership and administrative offices which oversee the Wildcat Onestop.

The existing south addition to Kedzie Hall will be renovated and expanded to create a new Student Service Center (the Wildcat Onestop Project). This renovation will transform the existing building, improve its exterior presence on campus, and redefine the student experience. The interior renovation will provide spaces for students to easily access information and services, in addition to creating new modern work areas for staff. The renovation includes reconfiguring the majority of the three levels of the building with updated finishes, lighting, ceilings, a new elevator, an open and visible west to east entrance lobby and stair, new restrooms, and building support spaces. These improvements will address over \$2M in deferred maintenance as well as create a more energy efficient building, and a clear investment in K-State students.

The existing building is approximately 29,561 gsf on three levels. Currently each level of the building is connected via a corridor to the historic north Kedzie building. There are no plans to renovate or affect the north Kedzie building or its access to the existing elevator and northwest stair tower which should remain for exiting and ADA access. An addition to the existing building is planned of approximately 7,200 gsf to accommodate the new entrances and program areas needed. Funds are currently available for design phase only. The project construction budget is \$14,130,000.

An architectural/engineering program is available at <http://admin.ks.gov/offices/ofpm/dcc/arch-eng-programs>. For more information contact Michael Carson at mpcarson@ksu.edu.

On-Call (As-Needed) KDOT Construction Area Survey Services – New Survey On-Call List

Notice to Consulting Firms

The Kansas Department of Transportation (KDOT) is seeking to create an on-call consultant list with firms that are interested in providing Survey services on an as-needed basis for projects in various locations statewide. KDOT anticipates entering into up to 15 agreements with qualified consulting firms that may perform the services described below when KDOT does not have adequate personnel.

Interested consultants must upload a proposal by 12:00 p.m. (Central Time) December 3, 2025, to the Bid Express page to be considered for selection.

Consultant Prequalification

Consulting firms interested in providing service on any project listed below must be prequalified by KDOT in the following category(s):

- 301 – Land Surveying
- 302 – Engineering Surveying

Firms must have employees who are licensed in Kansas as Professional Surveyors and experienced in surveying.

If a firm is not currently prequalified by KDOT, a proposal may still be submitted. Firms not prequalified must also provide documentation that demonstrates the firm is qualified for each specified category listed in this notice for the project. Firms must use the KDOT prequalification form to provide this documentation. KDOT 1050 Prequalification Category Definitions (Blue Book) can be found at <https://www.ksdot.gov/doing-business/design-consultants/design-consultant-prequalification>. All firms doing business with KDOT must be registered and in good standing under the laws of the State of Kansas at the time of contracting and must comply with applicable state and federal laws, rules, and regulations.

Background

Periodically for a given project, KDOT's personnel may be unable to perform surveying tasks within the timeframe required so it may be necessary to engage a consultant firm (with appropriate KDOT certifications) on short notice. This process begins with KDOT issuing an on-call service request to firms that have executed an on-call survey agreement specifically for this type of support. To expedite commencement of work, resulting work order(s) are executed under the terms and conditions of that agreement.

A number of firms have on-call survey agreements to support survey services. These are set to expire in 2026. KDOT seeks to create a new list of up to 15 firms to the "on-call list."

Anticipated Consultant Scope

KDOT anticipates the following to be included in the consultant's scope: Generally, it consists of project surveying as well as accurate and timely documentation thereof, including submission of all documentation to KDOT. Thorough knowledge of, and compliance with KDOT's Standard Specifications for State Road and Bridge Construction, Construction Manual, project specifications, and other relevant KDOT policies, procedures, and manuals, as well as KDOT documentation and recordkeeping requirements is essential.

Anticipated Schedule and Key Dates

1. Proposals are due by or before 12:00 p.m. (Central Time) December 3, 2025.
2. Evaluation and ranking of proposals are expected to occur on or around December 5, 2025. Negotiations of

- On-Call Agreements for Engineering and Technical Services (“Construction area Surveying Services On-Call Agreements”) with the highest ranked (shortlisted) firms are expected to begin on or around December 12, 2025. Executed agreements are anticipated to be complete no later than January 2026.
3. Services associated with the “Construction area Surveying Services On-Call Agreements” resulting from this Request for Proposals may be requested as soon as an agreement is in place with any consultant.

Instructions for Proposal

1. No cost or pricing information shall be submitted with the proposal. Proposals including cost or pricing information will be considered non-responsive and withdrawn from further consideration.
2. The consultant’s proposal must not exceed 4 pages total (including any cover letter, index, etc.). All pages shall be standard letter size (8.5” x 11”). Any page larger than standard letter size will be counted as two or more pages depending on size.
3. A single PDF (10MB maximum size) of the proposal including all attachments must be uploaded to the appropriate bid form on Bid Express by the proposal due date and time.
4. The subject line of the email and the PDF file name must read:
 - a. “Const. Area Survey-OnCall_2026_FIRM NAME”
5. The proposal must be accompanied by Special Attachments No. 8 (“Tax Clearance Certificate”); No. 10 (“Policy Regarding Sexual Harassment”) and No. 12 (“Certification of Company Not Currently Engaged in the Procurement or Obtainment of Certain Equipment, Services, or Systems”). If you need a Tax Clearance Certificate, you can request one at <https://www.ksrevenue.gov/taxclearance.html>. Allow 2-3 business days for processing. Upload these files as instructed in Bid Express.
6. The outline in Table 1 below describes the expected proposal organization and content sections.
7. Table 2 lists the evaluation criteria which will be used to make a selection. These will be evaluated on a pass/fail basis. Firms failing any category may not be shortlisted for negotiation, at KDOT’s sole discretion.
8. At KDOT’s option, firms may be interviewed by telephone conference call prior to being shortlisted for negotiation.

If a game uses less than four progressive jackpot levels, the game will not contribute to unused jackpot levels as described in paragraph (d) and will not be eligible to win unused jackpot levels as described in paragraph (e). The total seed rate, total increment rate, and theoretical return to player percent for any combination of jackpot levels shall be:

GRAND	MAJOR	MINOR	MINI	Levels Available in Game	Total Seed Rate %	Total Increment Rate %	Total RTP %

No	No	No	Yes	1	0.01%	0.05%	0.06%

(d) Each jackpot level shall start at the seed amount. For each share of a lottery game sold in a participating elnstant game, the jackpot levels used in that game shall be increased by an amount equal to the purchase price multiplied by the increment rate for that jackpot level. An amount equal to the purchase price multiplied by the seed growth rate shall be reserved to fund the seed amount after the jackpot is won. Free plays and bonus rounds will contribute to the jackpot level seed growth rate and increment rate as if they had been purchased by a player.

(e) A player may win the progressive jackpot any time they purchase a share of a lottery game in a participating elnstant game. At the time of each sale, a random number shall be generated between 1 and 1,500,000,

(f) After a progressive jackpot prize is won in any jackpot level, the prize amount for that jackpot level will reset to its seed amount. (Authorized by and implementing K.S.A. 2025 Supp. 74-8710; effective, T-111-10-31-25, Oct. 8, 2025.)

- Prize and bonus prize symbols shall be randomly assigned at the time of purchase and may appear in any combination that equals any prize described in paragraph (i).
- (c) For this game, eight “Winning Numbers” and 25 “Your Numbers” shall appear on each game and shall remain dim until the game is purchased by the player as described in paragraph (f). Once the player purchases the game, purchased play areas may be highlighted with additional or brighter animations to assist in playing the game.
- (d) Each pool shall consist of 1,000,000 shares and consist of a single denomination as defined by the prices in paragraph (e).
- (e) The price for a share of this game shall be \$1.00, \$2.00, \$3.00, \$4.00, \$5.00, \$10.00, \$20.00, or \$30.00.
- (f) “2026” is a key number match game with four bonus play spots. The player may purchase a share of this lottery game by selecting a denomination defined in paragraph (e) and then pressing the “Play” icon. The player may reveal the play and prize symbols in the play area by manually clicking on each symbol, or by clicking on the “Forward” icon. If the player matches any play symbol in the “Winning Numbers” area to any play symbol in the “Your Numbers” play area, the player wins the prize below that number. If the player reveals an “Instant Win Multiplier” symbol, the player will win a prize equal to the purchase price of the game multiplied by the value of that multiplier. If the player reveals a prize in any bonus spot, the player wins that prize amount.
- (g) The total number of prizes and bonus prizes in any winning game may be variable but shall equal any prize described in paragraph (i).
- (h) This lottery game shall consist of approximately 8,000,000 shares, with each pool of approximately 1,000,000 shares defined by a single denomination. Additional orders shall have the same prize structure, the same number of prizes per prize pool of 1,000,000 shares, and the same odds as were contained in the initial order.
- (i) Each prize shall be calculated by multiplying the prize multiplier by the game denomination. The expected number and value of prizes in this game shall be as follows:
