Article 23.—SPECIFIC eINSTANTS RULES

111-23-36. “Sweet Sweet Crossword” eInstant lottery game. (a) The Kansas lottery may conduct an eInstant lottery game entitled “Sweet Sweet Crossword.” The rules for this game are contained in K.A.R. 111-22-1 *et seq.* and 111-23-36.

(b) The “play symbols” for this game are as follows:

Play Symbols

The letters A-Z
Symbol of Candy
Symbol of a Coin
Symbol of a Chocolate Box

Prize and bonus prize symbols shall be randomly assigned at the time of purchase and may appear in any combination that equals any prize described in paragraph (i).

(c) For this game, 20 “Your Letters” shall appear above an 11-by-11 grid of 121 tiles in which a variable number of vertical and horizontal words shall appear.

(d) Each pool shall consist of 2,000,000 shares and consist of a single denomination as defined by the prices in paragraph (e).

(e) The price for a share of this game shall be \$1.00, \$2.00, \$3.00, \$5.00, \$10.00, \$20.00, or \$30.00.

(f) “Sweet Sweet Crossword” is a crossword style game with a bonus feature. The player may purchase a share of this lottery game by selecting a denomination defined in paragraph (e) and then pressing the “Play” icon. The player may reveal the play and prize symbols in the play area by manually clicking on each symbol, or by clicking on the “Reveal All” icon. If the player reveals a “Candy” symbol in the “Your Letters” area, the player will instantly win a prize. If the player reveals a “Coin” symbol in the “Your Letters” area, the player will increment a multiplier within the prize legend. If the player uses only “Your Letters” to fully complete three or more words appearing in the 11-by-11 grid, the player wins a prize corresponding to the prize legend. Revealed words must appear in an unbroken horizontal or vertical string of letters, cannot be interrupted by a blank space, and cannot be formed from right to left or from bottom to top. If the player reveals three or more “Chocolate Box” symbols in the “Your Letters” area, the player will play a bonus game. In the bonus game, the player will reveal up to 21 symbols initially obscured by stylized chocolate candies. Each symbol will either increment a multiplier in the bonus prize legend or match a portion of one of the bonus words: “Mini,” “Minor,” “Grand,” and “Major.” The bonus game will end once the player fully reveals one of the bonus words. When the bonus game ends, the player will win the total amount associated with the revealed bonus word in the prize legend.

(g) The total number of prizes and bonus prizes in any winning game may be variable but shall equal any prize described in paragraph (i).

(h) This lottery game shall consist of approximately 14,000,000 shares, with each pool of approximately 2,000,000 shares defined by a single denomination. Additional orders shall have the same prize structure, the same number of prizes per prize pool of 2,000,000 shares, and the same odds as were contained in the initial order.
