Department of Administration
Division of Facilities ManagementNotice of Commencement of
Negotiations for Architectural Services

Notice is hereby given of the commencement of negotiations for a Phase I comprehensive building assessment of the Docking State Office Building, Topeka. Work will include evaluating the need and cost to upgrade all mechanical, electrical and plumbing systems; building envelope; compliance with fire and security codes; circulation deficiencies; and general conditions. The report shall include a detailed cost analysis for renovation of the building on a floor-by-floor basis.

Phase II of the project will include space standards for tenant layouts, construction documents, bidding and construction administration services for the renovation of floors 7 through 9 so construction can begin by January 1, 2004.

Phase III calls for the complete renovation of the remainder of the building. Services required are the same as Phase II.

Phase I is the only portion of the project currently funded; if funding for Phases II or III becomes available, negotiations with the firm selected for Phase I will take place.

For information regarding the scope of services, contact Thaine Hoffman, State Architect, Division of Facilities Management, Room 653, Landon State Office Building, 900 S.W. Jackson, Topeka, 66612, (785) 296-8609, e-mail Thaine.Hoffman@state.ks.us.

If interested, an original and six copies (seven total) of the SF 255 form (plus relevant attachments of information regarding similar projects) should be submitted. These submittals should be concise, relevant to the project and follow the State Building Advisory Commission guidelines for submittal. Copies of the guidelines have previously been distributed to firms; if copies of the guidelines are required, contact Gary Grimes, Division of Facilities Management, Room 152, Landon State Office Building, 900 S.W. Jackson, Topeka, 66612, (785) 368-7471. Submittals not complying with the guidelines will be returned without consideration.

Expressions of interest and the SF 255 submittals should be received by Gary Grimes before 5 p.m. October 4.

Doc. No. 028416

State of Kansas**Department of Agriculture****Notice of Hearing on Proposed
Administrative Regulations**

A public hearing will be conducted at 9 a.m. Thursday, November 21, in Room 401 of the Kansas Department of Agriculture, 109 S.W. 9th, Topeka, to consider the adoption of new, revoked and proposed changes in existing rules and regulations of the Dairy Program.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed rules and regulations. All interested parties may submit written comments prior to the hearing to the Secretary of Agriculture, 109 S.W. 9th, 4th Floor, Topeka, 66612. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Leslie Garner at (785) 296-4623 or fax (785) 368-6668. Handicapped parking is located at the southwest corner of 9th Street and Kansas Avenue, and the north entrance to the building is accessible to individuals with disabilities.

These regulations are proposed for adoption on a permanent basis. A summary of proposed regulations and their economic impact follows.

Proposed new **K.A.R. 4-7-804** adds a schedule of fees that can be charged by the department's dairy lab for performance of nonregulatory laboratory testing in accordance with authorization by K.S.A. 65-777.

K.A.R. 4-7-2. The proposal updates the statutory history and does not change the scope or intent of the regulation.

K.A.R. 4-7-3. The proposal updates the statutory history and does not change the scope or intent of the regulation.

K.A.R. 4-7-4. The proposal updates the statutory history and makes editorial changes for clarity of the rule but does not change the scope or intent of the regulation.

K.A.R. 4-7-6. The proposal removes bacterial and coliform bacteria count standards for pasteurized milk and cream. These standards are included in documents adopted by reference in 4-7-716.

K.A.R. 4-7-213. The proposal updates references to the current United States Department of Agriculture recommended requirements titled Milk for Manufacturing Purposes and its Production and Processing.

K.A.R. 4-7-214. The proposal deletes the term dairy commissioner and substitutes Kansas secretary of agriculture in accordance with statute. It also adds a definition for inspector.

K.A.R. 4-7-216. The proposal changes the enforcement procedures taken against manufacturing milk producers when their milk is found to contain drug residues. The changes will bring manufacturing milk drug residue violation enforcement producers into line with those in Grade A milk.

K.A.R. 4-7-507. The proposal updates the statutory history and does not change the scope or intent of the regulation.

K.A.R. 4-7-510. The proposal updates the referenced code of federal regulations and substitutes the term dairy commissioner for Kansas secretary of agriculture in accordance with statute.

K.A.R. 4-7-530. The proposal updates the referenced code of federal regulations and substitutes the term dairy commissioner for Kansas secretary of agriculture in accordance with statute.

K.A.R. 4-7-531. The proposal updates the location of the regulation that adopts the documents from 4-7-720 to 4-7-716. 4-7-720 is being revoked. This does not change the scope or intent of the regulation.

K.A.R. 4-7-532. The proposal deletes the term dairy commissioner and substitutes Kansas secretary of agriculture in accordance with statute.

K.A.R. 4-7-533. The proposal makes editorial changes for clarity of the rule and does not change the scope or intent of the regulation.

K.A.R. 4-7-715. The proposal deletes the term dairy commissioner and substitutes Kansas secretary of agriculture in accordance with statute. It also deletes references to regulations that are being revoked.

K.A.R. 4-7-716. The proposal updates the references to the current Grade A Pasteurized Milk Ordinance, Standard Methods for the Examination of Dairy Products and the Official Methods of Analysis of AOAC International. It also adopts by reference the current Methods of Making Sanitation Ratings of Milk Shippers, Procedures governing the Cooperative State-Public Health Service/Food and Drug Administration Program of the National Conference on Interstate Milk Shipments, Evaluation of Milk Laboratories and the Grade A Condensed and Dry Milk Ordinance documents. All of these documents are the standards used by the United States dairy regulatory agencies in enforcing milk and dairy sanitation. The additional adoptions by reference do not change the scope or intent of the regulation.

K.A.R. 4-7-717. The proposal amends the term regulatory agency to mean the Kansas Department of Agriculture. The proposal also adds the term low-fat cottage cheese and reduced-fat to the rule to become uniform

with national food labeling guidelines. It also makes editorial changes for clarity of the rule and does not change the scope or intent of the regulation.

K.A.R. 4-7-718. The proposal makes editorial changes for clarity of the rule and does not change the scope or intent of the regulation.

K.A.R. 4-7-719. The proposal adds the term reduced fat to the rule to become uniform with national food labeling guidelines. It also updates the statutory history and does not change the scope or intent of the regulation.

K.A.R. 4-7-900. The proposal makes editorial changes for clarity and to conform to the Kansas Administrative Procedures Act. It outlines procedures for the complaint in applying civil penalties and does not change the scope or intent of the regulation.

K.A.R. 4-7-901. The proposal makes editorial changes for clarity and to conform to the Kansas Administrative Procedures Act. It outlines procedures for the complaint in applying civil penalties and does not change the scope or intent of the regulation.

K.A.R. 4-7-902. The proposal makes editorial changes for clarity of the rule and does not change the scope or intent of the regulation.

K.A.R. 4-7-903. The proposal makes editorial changes for clarity of the rule and does not change the scope or intent of the regulation.

K.A.R. 4-7-904. The proposal makes editorial changes for clarity and outlines procedures for arriving at an informal settlement in civil penalty cases. It does not change the scope or intent of the regulation.

K.A.R. 4-7-1000. The proposal makes editorial changes for clarity of the rule. It also substitutes the term dairy commissioner for secretary in accordance with statute. The changes do not change the scope or intent of the regulation.

K.A.R. 4-7-213a; 4-7-408; 4-7-511; 4-7-512; 4-7-513; 4-7-720; 4-7-721; 4-7-722; 4-7-802; 4-7-905; and 4-7-1001. The proposals revoke obsolete regulations.

K.A.R. 4-7-804 establishes a fee schedule for voluntary lab services on the part of a regulated entity and gives them the option to use the department's dairy lab or another laboratory of their choice in performing nonregulatory dairy laboratory testing. The fees for lab services as proposed may actually result in a cost savings to the user when compared to private lab fees.

K.A.R. 4-7-216 eliminates the need for manufacturing grade producers to review the milk and dairy beef quality assurance program with a licensed veterinarian following a drug residue incident. Regulated producers will realize a small indirect savings since veterinarians usually charge for this review.

These regulation changes will not increase nor decrease revenues of cities, counties or school districts. It does not impose functions or responsibilities on cities, counties or school districts.

Copies of the regulations and their economic impact statements may be obtained by contacting the Department of Agriculture at the address and phone number given above.

Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted at 9:30 a.m. Tuesday, November 26, in the Docking State Office Building auditorium, 915 S.W. Harrison, Topeka, to consider the adoption of amendments to and revocation of existing rules and regulations on a permanent basis effective December 31, 2002. Telephone conference will not be available.

This 60-day notice of the public hearing shall constitute a public comment period for the proposed regulations. All interested parties may submit written comments prior to or during the public hearing to Hope Burns, Office of the Secretary for SRS, Room 603-N, Docking State Office Building, 915 S.W. Harrison, Topeka, 66612. All interested parties will be given a reasonable opportunity to present their views, but it may be necessary to request each participant to limit any oral presentation to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Hope Burns at (785) 296-3274 or by calling the Kansas Relay Center at 1-800-766-3777.

The adoption of the regulations will take place at 11:30 a.m. Monday, December 2, in the SRS executive conference room, 603-N, Docking State Office Building. Telephone conference will not be available.

Copies of the regulations and the economic impact statement may be obtained by contacting Hope Burns. A summary of the proposed regulations and the economic impact follows:

Article 5.—PROVIDER PARTICIPATION, SCOPE OF SERVICES, AND REQUIREMENTS FOR THE MEDICAID (MEDICAL ASSISTANCE) PROGRAM

30-5-94. Reimbursement for pharmacy services. This regulation is being amended to reduce the pharmacy pro-

professional fee (dispensing fee) from the current \$4.50 to \$3.40 per eligible prescription.

Economic Impact: It is expected there would be a reduction of costs by \$10,800 in all funds and \$4,300,000 in state general funds per year.

Bearer of Cost: None.

Affected Parties: Pharmacy providers.

Other Methods: There were no other appropriate methods for the desired outcome.

30-5-101a. Reimbursement for chiropractic services. This regulation is being revoked with the new HIPAA regulations; this local code is no longer available. This code cannot crosswalk into a CPT code because there is not a CPT code available for this service. With no crosswalk available and the code not being billed, the decision was made to noncover this local code and delete this service.

Economic Impact: None.

Bearer of Cost: None.

Affected Parties: Medicaid recipients.

Other Methods: There were no other appropriate methods for the desired outcome.

30-5-108a. Reimbursement for durable medical equipment, medical supplies, orthotics and prosthetics. This regulation is being amended because the Kansas Medicaid Program establishes rates for the reimbursement of durable medical equipment. The rates are not established by a range of prices. The proposed changes will more accurately reflect the practices of the Kansas Medicaid Program.

Economic Impact: None.

Bearer of Cost: None.

Affected Parties: Medicaid recipients.

Other Methods: There were no other appropriate methods for the desired outcome.

30-5-308. Supplementation of HCBS services. This regulation is being amended to propose a change in the language that would allow a family member or consumer to pay for additional services that are wanted, not needed.

Economic Impact: None.

Bearer of Cost: None.

Affected Parties: Medicaid recipients.

Other Methods: There were no other appropriate methods for the desired outcome.

Article 6.—MEDICAL ASSISTANCE PROGRAM— CLIENTS' ELIGIBILITY FOR PARTICIPATION

30-6-86. Poverty-level and low-income medicare beneficiaries; determined eligibles. This regulation is being amended to remove reference to coverage for persons whose income exceeds 120 percent of the federal poverty income guidelines. Such persons shall no longer qualify for coverage of a portion or all of the medicare Part B premium.

Federal Mandate: This change is required because of the sunset date included in 1902 (a)(10)(E)(iv) of the Social Security Act, which authorizes this coverage.

Economic Impact: This coverage is 100 percent federally funded, and elimination will result in a decrease of \$482,004 (no state general funds).

Bearer of Cost: None.

Affected Parties:

1. This change will result in loss of Medicare Part B premium coverage for approximately 792 consumers.

2. This change will have a moderate impact on SRS staff as coverage is administratively terminated.

Other Methods: No other methods were considered as the change is federally mandated.

30-6-103. Determined eligibles; protected income levels. This regulation is being amended to remove income standards for certain low income medicare beneficiaries due to termination of coverage for their benefits.

Federal Mandate: This change is required because of the sunset date included in 1902(a)(10)(E)(iv) of the Social Security Act, which authorizes this coverage.

Economic Impact: See the economic impact statement for K.A.R. 30-6-86.

Article 10.—ADULT CARE HOME PROGRAM

30-10-17. Cost reports. This regulation explains the cost reporting procedures for nursing facilities and adopts the Nursing Facility Financial and Statistical Report, MS-2004, as the official reporting form. The MS-2004 has been revised to match revisions to K.A.R. 30-10-18, rates of reimbursement, which became effective July 1, 2002. The proposed amendment to the regulation changes the revision date in the adoption reference. Copies of the revised MS-2004 can be obtained by contacting the Nursing Home Program at the Kansas Department on Aging at (785) 296-0703.

Economic Impact: There may be programming costs for cost report preparers who have developed software to aid them in completion of the cost report. The additional programming that will be required for the agency is already covered by the agreement with the rate setting contractor.

30-10-18. Rates of reimbursement. This regulation explains rates of reimbursement for Medicaid nursing homes. The proposed amendment removes descriptions that linked an older version of the MS-2004 to changes in the reimbursement system that became effective July 1, 2002. A separate change added language to allow the transfer of a recoupment to a related provider (another member of a chain) not only when the provider is closed but also when they are no longer enrolled in the Medicaid program.

Economic Impact: None.

30-10-23a. Non-reimbursable costs. This regulation describes nonreimbursable costs for nursing homes. Subsection (a)(6) was revised to clarify that life insurance premiums for owners and related parties are not allowable expenses. The intent is to ban premium expenses for life insurance when the owner or owner's family may be a direct or indirect beneficiary. Premiums for life insurance for nonrelated party officers were determined to be a reasonable benefit that should be allowed.

Economic Impact: Negligible. Nursing home providers reported total nonreimbursable costs for life insurance of less than \$34,000 for calendar year 2001.

Water Pollution Control Permits

In accordance with Kansas Administrative Regulations 28-16-57 through 63, 28-18-1 through 15, 28-18a-1 through 32, 28-16-150 through 154, 28-46-7, and the authority vested with the state by the administrator of the U.S. Environmental Protection Agency, draft permits have been prepared and/or permit applications have been received for discharges to the waters of the United States and the State of Kansas for the class of discharges described below.

The determinations for permit content are based on staff review, applying the appropriate standards, regulations and effluent limitations of the State of Kansas and the EPA, and when issued will result in a State Water Pollution Control Permit and National Pollutant Discharge Elimination System Authorization subject to certain conditions.

All Kansas Department of Health and Environment district office addresses and telephone numbers are listed below.

Pending Permits for Confined Feeding Facilities

Name and Address of Applicant	Legal Description	Receiving Water
Ronald L. Burdick Route 1, Box 214 Wetmore, KS 66550	NW/4 of Section 01, T05S, R14E, Nemaha County	Kansas River Basin

Kansas Permit No. A-KSNM-B003

This is a new permit for an existing facility for 700 head (700 animal units) of cattle greater than 700 pounds and for 500 head of swine greater than 55 pounds (200 animal units), for a total of 900 animal units.

Permeability tests shall be conducted on the earthen wastewater retention structure(s). Permeability tests shall be completed after the soil liners have been compacted and prior to placing the earthen wastewater retention structures into service.

Dewatering equipment shall be purchased within 12 months of completion of construction of the wastewater control structures or sooner if the required storage capacity required in Table 1 is infringed upon (5.5 feet from wastewater level to top of berm). Written verification of the acquisition of the equipment shall be submitted to the department.

Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided that meets or exceeds KDHE minimum requirements. The manure/waste management plan developed by the designer and approved by the department shall be adhered to as a condition of the permit.

Legal: NW¼, S13, T11S, R24E, Wyandotte County

Facility Name: THAN/Harcros Groundwater Remediation Project

Facility Location: 5220 Speaker Road, Kansas City, KS 66106

Facility Description: The proposed action is to issue a new permit for operation of a new groundwater remediation project. Groundwater containment/stabilization wells and other associated remediation waters (i.e., decontamination water, purge water, SVE system condensate) are treated and discharged to the Kansas River. Treated wastewater can be discharged at either or both of two locations at the Kansas River levee. Combined total average discharge from both outfalls is 1.5 MGD. The wastewater treatment system available for treatment of some or all of the contaminated water consists of sequestering agents for iron, manganese and hardness, air stripping, dual activated carbon filters for VOC removal, and a duplex bag filter for suspended solids removal. The proposed permit includes limits for benzene; trichloroethylene; tetrachloroethylene; 1,2 cis-dichloroethylene; fluorene; phenanthrene; vinyl chloride; total arsenic; total cadmium; total lead; total selenium; total zinc; dioxin; chlordane; aldrin; DDT; toxaphene; pentachlorophenol; 2,4-dichlorophenol; 4-nitrophenol; 2,4,5-TP; 2,4,5-T; 2,4-D; total suspended solids; and pH. Monitoring for iron, color and effluent flow also will be required. A chronic whole effluent toxicity test will be required once during the 2002 calendar year and annually thereafter. The permit requirements are pursuant to the Kansas Surface Water Quality Standards, K.A.R. 28-16-28(b-f), and Federal Surface Water Criteria, and are water-quality based.

Persons wishing to comment on or object to the draft permits and/or permit applications must submit their comments in writing to the Kansas Department of Health and Environment if they wish to have the comments or objections considered in the decision making process. Comments or objections should be submitted to the attention of Glenda Newquist for agricultural permits or applications, or to the permit clerk for all other permits, at the Kansas Department of Health and Environment, Division of Environment, Bureau of Water, 1000 S.W. Jackson, Suite 420, Topeka, 66612-1367.

All comments regarding the draft permit or application notice postmarked or received on or before October 19 will be considered in the formulation of final determinations regarding this public notice. Please refer to the appropriate Kansas permit number (KS-AG-02-237/239, KS-02-139) and name of applicant/application as listed when preparing comments.

If no objections are received during the public notice period regarding any proposed permit, the Secretary of Health and Environment will issue the final determination regarding issuance or denial of the proposed permit. If response to this notice indicates significant public interest, a public hearing may be held in conformance with K.A.R. 28-16-61 (28-46-21 for UIC). Media coordination for publication and/or announcement of the public notice or public hearing is handled by the Kansas Department of Health and Environment.

For agricultural permits and applications, a copy of the permit application, supporting documentation and a KDHE-developed fact sheet, if appropriate, is available for review at the appropriate district office:

Permanent Administrative
Regulations

Article 19.—AMBIENT AIR QUALITY STANDARDS
AND AIR POLLUTION CONTROL

28-19-564. Class II operating permits; permits-by-rule; sources with actual emissions less than 50 percent of major source thresholds. (a) Any stationary source, or group of stationary sources, that would be classified as a major source based on its potential-to-emit may operate according to this regulation in lieu of obtaining an individual class I or class II operating permit, if the source is operated in compliance with subsections (d), (e), (f), and (g) of this regulation, and with either subsection (b) or (c) of this regulation. Sources that are required to obtain a class I or class II permit based on criteria other than potential-to-emit shall not be eligible to operate under this regulation.

(b) Any stationary source or group of stationary sources that has actual emissions not exceeding 25 percent of the major source threshold, as defined in K.A.R. 28-19-200, may operate according to this subsection, if the source meets all of the following conditions:

(1) The stationary source is not otherwise required to obtain a class I operating permit.

(2) The owner or operator of the stationary source notifies the department, in writing, that it elects to operate the source under this regulation.

(3) The actual emissions of each regulated pollutant, for every consecutive 12-month period during which the stationary source is operated under this regulation, do not exceed 25 percent of the major source threshold.

(4) The owner or operator of the stationary source maintains records, as specified in subsection (h) of this regulation, that demonstrate compliance with the 25 percent actual emissions limitation.

(continued)

(5) The owner or operator updates the records required by paragraph (b)(4) of this regulation at least monthly and maintains the records on-site for at least two years from the date of record.

(c) Any stationary source or group of stationary sources with actual emissions not exceeding 50 percent of the major source threshold, as defined in K.A.R. 28-19-200, may operate according to this subsection if the source meets all of the following conditions:

(1) The stationary source is not otherwise required to obtain a class I operating permit.

(2) The owner or operator of the stationary source has submitted to the department an application to operate under the terms of this regulation, with the appropriate fee, as defined in K.A.R. 28-19-545.

(3) The owner or operator of the stationary source has received notice from the secretary that the application submitted for the source has been approved.

(4) The actual emissions from the stationary source, for every consecutive 12-month period during which the stationary source is operated under this regulation, do not exceed 50 percent of the major source threshold.

(5) The owner or operator of the stationary source maintains records, as specified in subsection (h) of this regulation, that demonstrate compliance with the 50 percent actual emissions limitation.

(6) The owner or operator updates the records required by paragraph (c)(5) of this regulation at least monthly and maintains the records on-site for at least two years.

(d)(1) If at any time a stationary source operating according to this regulation exceeds the emissions level of either paragraph (b)(3) or (c)(4) of this regulation, whichever is applicable to the source based on its election to operate according to this regulation, the owner or operator shall notify the secretary in writing.

(2) The owner or operator shall mail or deliver the notice to the secretary on the first working day after the discovery of the failure to comply.

(3) Within 60 days of the discovery of a failure to comply with an applicable requirement of this regulation, the owner or operator shall submit to the secretary an interim compliance plan and schedule identifying those actions being taken by the owner or operator to ensure compliance with applicable requirements until the appropriate class I or class II operating permit is issued according to paragraph (d)(5) of this regulation.

(4) Submittal of and compliance with the compliance plan and schedule shall not shield the owner or operator from enforcement action by the department.

(5) The owner or operator shall also file an application for the appropriate class I or class II operating permit within 180 days of discovery of the exceedance of the limits of either paragraph (b)(3) or (c)(4) of this regulation, whichever is applicable to the source based on its election to operate according to this regulation, unless otherwise exempt.

(e) Each owner or operator of a stationary source shall submit to the department, by February 15 of each year, a summary of the monthly records required by paragraph (b)(4) or (c)(5) of this regulation, whichever is applicable, for the previous calendar year in lieu of submitting an

annual emissions inventory for the stationary source as otherwise required by K.A.R. 28-19-546(a).

(f) Compliance with this regulation shall not shield the owner or operator from enforcement action for exceeding any applicable restrictions, or for any other violations of the Kansas air quality act or the Kansas air quality regulations.

(g) Each owner or operator of a stationary source operated according to this regulation shall continue to be subject to all other applicable requirements of the Kansas air quality act and the Kansas air quality regulations.

(h)(1) The following records specified in this subsection shall be presumed to be sufficient to determine compliance with the recordkeeping requirements of this regulation:

(A) For coating and solvent emission units, the following:

(i) A current list of all coatings, solvents, inks, and adhesives in use, including VOC and hazardous air pollutant content;

(ii) a description of any equipment used for coating or solvent application, including type, make, and model, and maximum design process rate or throughput;

(iii) a monthly log of the consumption of each coating, ink, adhesive, and solvent, including solvents used in cleanup and surface preparation; and

(iv) purchase orders, invoices, and other documents to support information in the monthly log;

(B) for organic liquid storage units, the following:

(i) A monthly log identifying the liquid stored and monthly throughput; and

(ii) information on the tank design and specifications, including emissions control equipment;

(C) for combustion emission units, the following:

(i) Information on equipment type, make, and model; maximum design process rate or maximum power input and output; minimum operating temperature for thermal oxidizers; capacity; and all source test information; and

(ii) a monthly log of fuel type, fuel usage, fuel heating value, and percent sulfur for fuel oil and coal;

(D) for any emission control device for which emission reductions are being claimed, the following:

(i) Information on the control device type, including description, make, and model, and emission units served by the control device;

(ii) information on the control device design including, if applicable, the pollutant or pollutants being controlled, control device efficiency and capture efficiency, maximum design or rated capacity, and other design data as appropriate, including any available source test information; and

(iii) a monthly log of hours of operation, including notation of any control equipment breakdowns, upsets, repairs, maintenance, and any other deviations from design parameters; and

(E) for other emission units, the following:

(i) Information on the process and equipment, including equipment type, description, make, model;

(ii) maximum design process rate or throughput;

(iii) a monthly log of operating hours and each raw material used and its amount; and

(iv) purchase orders, invoices, or other documents to support the information in the monthly log.

(2) Each owner or operator relying on other documentation to demonstrate compliance with this regulation shall establish that the documentation relied upon demonstrates compliance with the recordkeeping requirements of this regulation.

(i) During the first 12 months of operation under this permit-by-rule, each owner or operator of the processes affected by this permit-by-rule shall operate in a manner that will not exceed any of the permit limitation requirements contained within this regulation at any time during the initial 12-month period.

(j) Within six months of EPA's approval of this regulation into the Kansas state implementation plan, any entity operating under the "general class II air emission source air operating permit for facilities that have actual emissions below 50 percent of major source thresholds" shall apply to operate under this regulation or other applicable operating permit. (Authorized by K.S.A. 2001 Supp. 65-3005; implementing K.S.A. 2001 Supp. 65-3008; effective May 15, 1998; amended Oct. 4, 2002.)

Article 1.—CERTIFICATE REGULATIONS

91-1-205. Licensure renewal requirements. (a) Conditional licenses.

(1) Any person, within five years of the date the person was first issued the conditional license, may apply for renewal of the initial conditional license by submitting an application for renewal of the conditional license and the licensure fee.

(2) Any person who does not renew the initial conditional license within five years of the date the conditional license was issued shall not be allowed to renew the conditional license. This person may obtain another conditional license but shall meet the requirements in S.B.R. 91-1-203 (a) that apply to the license sought. Assessments required by S.B.R. 91-1-203 (a) shall have been taken not more than one year before the date of application for the conditional license, or the applicant may verify either eight semester hours of recent graduate-level credit related to one or more endorsements on the conditional license or one year of recent accredited experience.

(b) Professional licenses. Any person may renew a professional license by submitting the following to the state board:

- (1) An application for renewal;
- (2) the licensure fee; and

(3) verification that the person, within the term of the professional license being renewed, meets any of the following requirements:

(A) Has completed all components of the national board for professional teaching standards assessment for board certification;

(B) has been granted national board certification;

(C) (i) Has earned a minimum of 120 professional development points under an approved individual development plan filed with a local professional development council if the applicant holds an advanced degree; or

(ii) has earned a minimum of 160 professional development points under an approved individual development plan filed with a local professional development council, including at least 80 points for college credit, if the applicant does not hold an advanced degree; or

(D) has completed a minimum of eight credit hours in an approved program or completed an approved program.

(c) Accomplished teaching licenses.

(1) Any person may renew an accomplished teaching license by submitting to the state board the following:

(A) Verification of achieving renewal of national board certification since the issuance of the most recent accomplished teaching license;

(B) an application for accomplished teaching license; and

(C) the licensure fee.

(2) If a person fails to renew the national board certificate, the person may apply for a professional license by meeting the renewal requirement for a professional license specified in paragraph (b)(3)(C) or (D) above.

(d) Substitute teaching license. Any person may renew a substitute teaching license by submitting to the state board the following:

(1) Verification that the person has earned, within the last five years, a minimum of 100 professional development points under an approved individual development plan filed with a local professional development council;

(2) an application for a substitute teaching license; and

(3) the licensure fee.

(e) Provisional teaching endorsement license. An individual may renew a provisional teaching endorsement license one time by submitting to the state board the following:

(1) Verification of completion of at least 50 percent of the deficiency plan;

(2) verification of continued employment and assignment to teach in the provisional endorsement area;

(3) an application for provisional endorsement teaching license; and

(4) the licensure fee.

(f) Provisional school specialist endorsement license. An individual may renew a provisional school specialist endorsement license by submitting to the state board the following:

(1) Verification of completion of at least 50 percent of the deficiency plan;

(2) verification of continued employment and assignment as a school specialist;

(3) an application for provisional school specialist endorsement license; and

(4) the licensure fee.

(continued)

(g) Any person who fails to renew the professional license may apply for a subsequent professional license by meeting the following requirements:

(1) If the person's license expired fewer than five years preceding the date on which application is made, the person shall perform the following:

(A) Submit an application for a license and the licensure fee; and

(B) meet the requirements of subsection (b) of this rule and regulation.

(2) If the person's license expired five or more years preceding the date on which application is made, the person shall submit to the state board the following:

(A) An application for a license and the licensure fee; and

(B) verification of one of the following:

(i) Having met the requirements of paragraph (b) (3) of this rule and regulation; or

(ii) having at least three years of recent, out-of-state accredited experience under a professional license.

(3) If a person seeks a professional license based upon recent, out-of-state accredited experience, the person shall be issued the license if verification of the recent experience is provided. The license shall be valid through the remaining validity period of the out-of-state professional license or for five years from the date of issuance, whichever is less.

(h) This regulation shall be effective on and after July 1, 2003. (Authorized by and implementing Article 6, Section 2(a) of the Kansas Constitution; effective July 1, 2003; amended July 1, 2003.)
